TWO FIGHTS IN ONE RING IN PENNSYLVANIA-NUNAN WHIPS DORSEY, AND WINS \$1,000-THE FIGHT LASTS TWO HOURS AND TWENTY SEVEN MINUTES-A FIGHT-FOR \$400 BETWEEN BERRY. OF LONDON, AND M'MANUS, OF NEW YORK-THE REFEREE DECIDES AGAINST M'MANUS FOR A "FOUL BLOW." [Reported for The Press.]

Articles were ontered into about two months are between Mike Dorsey and Mike Nunan, to fight for \$500 a side, at catch weight-that is, neither was restricted to any fixed amount of pounds on the day of the fight.

Dorsey has before fought in the ring, having defeated Hollywood; but has for some time been laid on the shelf from a protracted sickness. Certain portions of the P.R. have held him in high esteem as a punisher, as well as of extreme endurance. Dorsey is of Irish extraction, and about twenty-six years old. He is very strongly built, having square and broad shoulders, good loins, and strong thighs, with well-developed calves. He would weigh about one hundred and twenty-four pounds yesterday. Nunan entered the ring, for the first time, yester-

day, but was matched last year to fight a youth from Buffalo, and the fight was stopped at Astoria, Long Island, by the descent of the Brooklyn police upon the parties round the ring, when clubs were trumps, and numbers were badly beaten by the myrmidons of the law. Nunan was severely clubbed in his bed-room, at Joe Cook's hotel, which is situated on the road from Greenpoint to the Long Island race course. Nunan and his mentor, Phil. Clare, were arrested, and Nunan held to ball to keep the peace for twelve months. He is now about nineteen or twenty, and weighed about one hundred and thirty pounds yesterday. He is an inch or more taller than Dorsey, and longer in the reach. He is of a very different mould to Dorsey, being light in his lower limbs, but well made and symmetrically proportioned. His shoulders and arms are very good, his whole appearance having a lighter and more graceful aspect than his opponent. Nunan is a young man of unassuming manners and quiet dis-position, and is generally respected by all who know him. His habits are temperate and regular.

Nunan's backers won the choice of fighting ground, and fixed upon a spot near the Edge Hill station on the North Pennsylvania Railroad. Both men left New York on Tuesday last for this city, and hundreds of New York sports hurried here on Wednesday.

Conveyances to the scene of action ranged at a high figure, as much as sixty dollars being obtained for the conveyance of two or three to Edge Hill and back. The location was reached about 6 o'clock yesterday morning, the roads being crowded with vehicles of every description, and it was soon evident that the event would be witnessed by an immense number, as the railroad also contributed a large quota by a few minutes past 8 A. M. Two or three moves were made by the carriages before the exact location of the ring was ascertained, and it was near 10 o'clock before the ring was fully pre-

pared. Dorsey threw his cap into the ring at two minutes to 10 o'clock, immediately following within the ropes himself, and was loudly cheered. Nunan followed suit in about two minutes, and was received with like tokens of regard.

Tom Ryan and John Regan were selected for umpires, with Wm. McLaen for referee. Dorsey was seconded by Aaron and Johnny Monaghan, while Kit Burns and Phil Olare esquired their protege. All preliminaries being settled, the men and seconds shook hands, in the centre of the ring, and each returning to his corner, at 10.15 they were prepared for the

First Round.-Both advanced to the centre, or "scratch." Dorsey with a quiet but smilling mug, and Nunan with a springy lightness and a broad grin on his face. Both held their hands in good style, Dorsey's left being well advanced, and his right slightly across his breast. Nunan's right was held square across his breast, and his left slightly bent but well advanced, and playing backwards and forwards, showing bicep-tric muscles playing like strong cords under the skin. He was evidently in tip-top condition. Dor-sey did nct look so well. His face looked fat; there was a looseness about the muscular fibre of his shoulders and arms that told of neglect somewhere. They each feit the other cautiously, and much time was spent with their arms down looking at each other. Dorsey got in his left, but was short, and they both broke away. They again crept together, and Dorsey got in his left and right on the breast, which Nunan returned in like manner, and on clo-sing Nunan was thrown. 10 minutes. First Round .- Both advanced to the centre. or sing Nunan was thrown. 10 minutes.

COLORED PEOPLE IN THE CARS. The Fifth and Sixtb-streets Passenger Railroad Company have for some time past appropriated some cars on their road for the exclusive use of colored people. It does not appear that anybody was hurt in consequence. The example thus set might be imitated by the companies generally, to a limited extent, by way of experiment. The Fifth and Sixth is the model road of the city, and it is not flattering to say the best governed. The following is a copy of a letter read at the meeting of the Board of Presidents on the 4th inst. What became of it is not known, as the Board is a close corpo-ration: named place. And in addressing you at this time, we do so with hearts full of sorrow that we should be compelled, in the brilliant light of Christian civilization, in this great city, to admit its necessity. We approach you as men feeling so keenly the injustice done us in using every device for preventing us from the exercise of a privilege not unfrequently enjoyed by domestic animals, that in the light of reason and justice. forbearance coesses to be a virtue, and pa-tience or longer submission, be it urged on whatever plea, an insult to our manhood, and dangerous to the cause for which thousands of our brethren have severed every tie, and marched to the field of mor-tal strife against fearful disadvantages. We have waited long and patiently for you to do for us an act of justice so simple that we could not doub but that your better judgment, on due reflec-tion, would strike down the objectionable feature of your regulations, which prohibits colored citizens from the use of the cars. But we have waited in vain, and it now remains to be seen whether our good opinion of your routinued refused to give this our earnest petition the consideration and the petitioners the answer they deserve and most ar-dently desire. On motion, the following preamble and resolutions Were unanimously adopted: Preamble.—The object of this Club is the purpose of cusing our efforts, to the utmost of our ability, to elect Abrabam Lincoln and Andrew Johnson as President and Vice President of these United States, believing that in so doing we are carrying out the true principles of hu-manity and instice.

Resolved, That our peace-makers be our generate anny and navy. *Resolved*, That we consider that, by voting for Geo. B. McClellan, we would be doing an injury to the cause we have fought for for the last three years, and that the Chicago platform is based upon principles, which are calculated to destroy this great and glorious country, and that the principal leaders of that Convention used their influence to prevent the soldiers of our army from voting; and therefore be it *Resolved*, That our motio shall be-Lincoln and Johnson.

The following is an extract from a letter of Capt. Jharles L. Atlee, Company C, 121st Pennsylvania olunteers:

waver, because of your continued refusal to give this our earnest petition the consideration and the petitioners the answer they deserve and most ardently desire.
Can we do less than approach you with firmness at an hour like this? Have we no claims upon your sympathy, your honor, your humanity.? Shall civilization be shocked by your answer? No! To so just a claim, God fortid! And now, when the life-blood of the nation is slowly pouring out—when white and black men are shedding their blood, slde by yold, to explate the guilt and sin of oruelty-and injustice on the one hand, and ignominious subjection on the other, what reasonable ground can be taken for still continuing this prejudice to such an extent as to prohibit us from a privilegeopeniy accorded to dogs, if it is only their good fortune to be owned by persons of fairer complexition than many of us have? In no great city of the Old World could such a proscription be practiced or tolerated.
European civilization is surprised at the bare mention of such an outrage against public right. But we need not go to Europe ior analogy, for our own great cities, east and west, from Boston to Cindinati, tolerate no such proscription. And, gentlement, when we have quietly waited, out of respect for law and for the rules and regulations you claim as necessary for the public good, although ohagrined and outraged, we deem it a just recompense for you to grant us at this time the privilege in this respect so long withhed.
Mes we take the assort proscription. And, gentlement. It has been urged heretore, that the owned systemet so some of these coly perceptible, defying detection except by their association and family onnections, visiting the oity and camp William Penn to see their husbands, sons, or brothers, enlisted towards representing the citizens of Philadelphia by filling its quota, have been subjected to take any steps towards reform, and a number of similar objections have against reputing our complexitories to lorge the conset of Volunteers: Our corps (Warren's) has been fighting for the last two days. Prejudice, three years ago, had wrought as great objections to all these measures as can possibly ex-ist at this time against the just and reasonable de-mand we urge; and yet, in less than one year from the time of their adoption, the whole nation en-dorses the act of the Administration, and elamor-nosly calls for more stringent measures. We would remind you that it is not always best for men who see a right principle to wait back to be led by public opinion. If, therefore, no disastrous results have occurred from this exercised right elsewhere, why fear it in this city? Is civilization in New York, and in Pitts-burg, in our own State, so much more advanced than in the city of Philadelphia? As to the number of colored persons, their propor-tion is greater in this than in any other of our me-tropolitan towns; this, therefore, can be no argu-ment in the case. And besides, to argue thus is to set aside every principle of justice in the argument. And we have stronger claims now than ever upon your humanity; thousands of dollars might be rea-lized by the adoption of this measure, besides an act of justice to the men and their families who have enlisted towards filling the quota of Philadelphia, and who are and have been encamped in the city and its suburbs. In conclusion, we feel that we should merit your, supreme, contempt were we longer to submit to this most rigid and unjust pro-scription, and we, therefore, most carnestly beseech you to take action for our relief from the disad-vantages and great inconvenience to which such vantages and great indonvenience to which such unjust regulations subject us from day to day.
