## CITY ITEMS. THE POPULARITY of the Wheeler & Wilson sewing machine is best evinced by its enormous and tantly increasing sales. Nor is their reputaion less abroad. The highest premium was awardad for it at the International Exhibition in London; at the Industrial Exhibition at Paris, and at Koo gsburg, Prussia. Those awards were in accordnce with those universally made at the various exibitions in this country. Indeed, no human testimony could be stronger than that which has been accorded the Wheeler & Wilson sewing machine for superfority over all others for family use, and for general manufacturing purposes. The Wheeler & Wilson establishment, at 704 Chestnut street, continues to be one of the most nopular institutions of Philadelphia. OCULAR DEMONSTRATION THE BEST PROOF .-The agent of the "Florence" Sewing Machine Company, No. 630 Chestnut street, has done a wise thing in allowing his popular Machines at the Great Fair to tell their own tale; and they are telling it effectually to admiring thousands. Never was there a more perfect piece of mechanism put in motion since the beginning of the world; and now that every "Florence" Machine sold has attached to it a "Barnum Self-Sewer," we do not wonder that they pre taking the lead in sales. Every Machine is sold with a guarantee, or the money will be refunded to the buyer. It is difficult to say which is the more crowded, the Fair or the "Florence" salesrooms, No. 680 Chestant street. LURIN'S FLORILING has this advantage over all other preparations for the hair: It is at once a most delightful perfume; it' enriches and beautifies, and is the finest preserver and beautifier of the hair in use. No lady's toilet can be complete without it. Try a carton on our recommendation. THE STOCK OF GENTLEMEN'S FURNISHING GOODS offered by Mr. Geo. Grant, No. 610 Chestnut street, is the finest in the city, and his celebrated "Prize Medal Shirts," invented by Mr. J. F. Taggart, are unsurpassed by any others in the world in fit, comfort, and durability. THE PROCESSION ON SATURDAY EVENING WAS the greatest event of the kind ever witnessed in Philadelphia, and it reminds us forcibly of the incessant procession of coal carts that are constantly leaving the popular yard of Mr. W. W. Alter, 957 North Ninth street. There is wisdom and economy in patronizing this establishment. "FIRST IN WAR," &c .- "First in war, first in peace, and first in the hearts of his countrymen,' was the eulogy passed upon the Father of his Coun try, by Judge Marshall. The same, with a little odlfication, might be said of Messrs. Rockhill & Wilson, the proprietors of the Brown Stone Clothing Hall, Nos. 603 and 605 Chestnut street, above Sixth. When the war began they were the first to menish the army with needful uniforms; in time of peace they have stood first among tailors in the esteem of the public, and at all times they have been first in the wardrobes of their countrymen. Unkind.-"Augustus" had just put on a new suit from Charles Stokes & Co., under the Connental, when he asked "Isaac" what he thought "Like a bowl of punch," said "Isaac," " How like that ?" "Got a big spoon in it," said Ike. NEW SKIRT FOR 1864. A NEW AND GREAT INVENTION IN HOOP SKIRTS. J. I. & J. O. WEST, No. 97 CHAMBERS STREET, NEW YORK, NEW YORK,

Are the owners of the patent and exclusive manufasturers of this,

J. W. BRADLEY'S

PATENTED DUPLEX ELLIPTIC STEEL SPRING SKIRTS.

This invention consists of Duplex (or two) Elliptic Steel Springs, ingeniously braided tightly and firmly together, edge to edge, making the toughest, most elastic, flexible, and durable spring ever used, enabling the wearer, in consequence of its great elasticity and fiexibility, to place and fold the skirt when in use as easily and with the same convenience as a silk or muslin dress. It entirely obviates and silences the only objection to hoop skirts, viz: the annoyance to the wearer as well as the public, especially in crowded assemblies, carriages, railroad cars, church news, or in any crowded place, from the difficulty of contracting them tooccupying a small space. This entirely removes the difficulty, while giving the skirt the usual full and symmetrical form, and is the lightest and most stylish and graceful appearance for the street, opera, promenade, or house dress. A lady having enjoyed the pleasure, comfort, and great convenience of wearing the Duplex Elliptic Spring Skirt for a single day, will never afterward willingly dispense with the use of them. They are the best quality in every part, and by far the lightest, most durable, comfortable, and economical skirt made. Merchants will be supplied as above, and ladies in most first-class retail stores in this city and throughout the different States:

TREASURY DEPARTMENT.

PROPOSALS FOR LOAN.

The right to decline all offers not considered advan tageous to the Government is reserved by the Secretary W. P. FESSENDEN. Secretary of the Treasury. U. s. 7-30 LOAN.

The Secretary of the Treasury gives notice that subscriptions will be received for Coupon Treasury Notes. payable three years from August 15th, 1864, with semiannual interest at the rate of seven and three-tenths per cent. per annum-principal and interest both to be paid in lawful money. These notes will be convertible at the option of the holder, at maturity, linto six per cent. gold bearing

bonds, payable not less than five nor more than twenty years from their date, as the Government may elect. They will be issued in denominations of \$50, \$100, \$500, \$1,000, and \$5,000, and all subscriptions must be for fifty dollars or some multiple of fifty dollars. As the notes draw interest from August 15, persons king deposits subsequent to that date must pay the interest accrued from date of note to date of deposit.

SPECIAL ADVANTAGES OF THIS LOAN. IT IS A NATIONAL SAVINGS BANK, offering a higher rate of interest than any other, and the best sein U. S. Notes, considers that it is paying in the best circulating medium of the country, and it cannot pay

in anything better, for its own assets are either in Government paper. Convertible into a Six per cent. 5-20 Gold Bond.

In addition to the very liberal interest on the notes for three years, this privilege of conversion is now worth about three per cent. per annum, for the current rate for 5.20 Bonds is not less than nine per cent. premium, and before the war the premium on six per cent. U. S. stocks was over twenty per cent. It will be seen that the actual profit on this loan, at the present market rate, is not less than ten per cent. per annum.

Its Exemption from State or Municipal But aside from all the advantages we have enumerated, a special Act of Congress exempts all bonds and Treasury notes from local taxation. On the average,

this exemption is worth about two per cent. per annum, according to the rate of taxation in various parts of the It is believed that no securities offer so great inducements to leaders as those issued by the Government. In all other forms of indebtedness, the faith or ability of private parties, or stock companies, or separate communities, only, is pledged for payment, while the whole property of the country is held to secure the dis-THE DUPLEX ELLIPTIC (OR DOUBLE) STEEL charge of all the obligations of the United States.
