## NEW YORK CITY. NEW YORK, Oct. 25, 1864.

ndence of The Press.] AN ABDUCTION CASE, ing tears and indignation from the respec ties, has just come before the courts. On ening of October 6 George Seagrist, boy ing, contortionist, etc., while standing of the Hippotheatron, where he was engaged er of the circus troupe, was abducted o ped by the Senorita Lopez, and carried o ded on to Washington, and there induced to ervice. Mr. Seagrist, the adopted father of y, so far agitated the matter that a requisition odured from the Governor, and thereupon norita Lopez and boy were handed over t authorities. The latter had originally been n from the poorhouse by that lady, but was reed thereto upon her marriage. Mr. Seagrist n adopted him, and taught him his profession. rge seems to be very much attached to Lopez, nd was fearful of being separated from her."

NOTABLES. Lord Lyons and Maj. Gen. Hastings Doyle, in mmand of Canadian troops, have been indulging an excursion up the East River. They were the ckwell's Island, with its various institution visited, as well as Ward's and Randall's.

MAYOR GUNTHER, satisfied with laying before the Common Couna report of certain grave abuses alleged to be exnt in the City Inspector's Department, has isd an order suspending Mr. Boole, the present ampluments. Here, then, bids fair to culminate tarrific wordy combat heretofore waged by these cials. Some days ago the Inspector wrote a very communication, wherefrom a sharp exegetist ht readily infer certain charges levelled at His or's toleration of political rivals. If abuses do exinder the administrations of these combatants, public will have no reason for regretting a quarn which masks may be torn off, and the alleged

ideous mien" be exposed. A SHELL AMONG THE COPPERHEADS. The call for a meeting of loyal Democrats, issued John A. Dix. Peter Cooper, and other gentlemen loyal persuasion, has created no little excitement th in the Copperhead and Republican ranks. The mer bitterly denounce the proceeding as renets, which must inevitably grow from the consulion and advice of the pure and high-minded men what was once their party. On the other nd, the Republicans truly estimate the objects of meeting, and are loud in their commendation of emanly action proposed. It is very certain that ese sages of the old Democracy will not throw eir influence upon the side of dishonorable peace od the new Casabianca (with alterations). [By Telegraph.]

he State Election-391 Majority on the Home Vote. The Pittsburg Gazette has some calculations on e result of the recent election, in which it gives majority for the Union on the home vote. As here is, strictly speaking, no official return of the tome vote, since the return judges met on the Frilay after the election to receive the home vote, but ourned, as required by law, for a week to await the returns of the soldiers' vote, no official addition or majority could be given or announced. The igures of the home vote, improperly called "offilal," and forming the basis of the telegrams, were btained from local authorities by the local news apers of each county. The Gazette, however, by a careful addition of these figures, ascertains the en-the vote to be 197,392 Union, and 197,001 Opposition. This proves a clear majority of the people at home. he soldiers' vote will increase the regular official najority by thousands.

SEMMES AND HIS NEW VESSEL.—The last Eur pean steamer brings news that the pirate Semmes is gain at sea, in command of a swift and strong teamer named the Ranger. The Liverpool corresondent of the London Daily News says: "Captain Semmes, of whom since the sinking of the Alabama we have heard so little, and that little so erroneous, sailed from the Mersey on Sunday last (October 9th) on board of the bark Laurel, under the command of Captain S. F. Ramsey. The destination of the Laurel is rather mysterious at present; but, as far as the customs bill of entry shows, the ressel has certainly cleared for ports where Confederate proclivities predominate—viz, Nassau, Harana, and Matamoros. Her cargo is of such a mixed nature that no belligerent State would have the slightest doubt as to its usefulness. It consists of some large guns, small arms, shoes, leather in bulk, ammunition, clothes, blankets, drugs, &c. But the Laurel must not be supposed to be intended for a cruiser; she is merely a tender, and carries out to a certain latitude guns and ammunition for a new screw steamer, of which Captain Semmes is to take command. This vessel is supposed to be a new screw steamer which was lying at "Captain Semmes, of whom since the sinking o sed to be a new screw steamer which was lying a Madeira on the 3d inst., and was there known under the name of the Ranger.

"The Ranger is large and very swift. To show that Captain Semmes does not go unattended, we may here state that he took with him on board, the Laurel eight efficers and one hundred men, most of

shom served with him on board the Alabama. STHE NEW JERSEY ELECTORAL TICKET.—Dr. Innest I. Lowenthal, one of the Union Presidential Electors, has resigned, being ineligible, as seven years have not elapsed since his naturalization as a citizen. The Union State Executive Committee has appointed Charles Wehle, of Hoboken, in place of Dr. Lowenthal. Dr. Lowenthal.

HORATIO SEYMOUR, the Democratic candidate for Governor of New York, who obtained his nomination by fraud, and retained it by shameless self-sylitification, is a friend of the slave-holder, a sympathizer with rebellion, a political trickster, and an excuser of riots. Public Entertaluments. WALNUT-STREET THEATRE.-Last night "The Robbers," was presented, with McKean Buchanan as Charles de Moor, and his daughter, Virginia, as the unfortunate Emelia. These two star-performers, who have been lately playing in Boston with conelderable success, will be the attraction at this theatre for some time to come. The gentleman has the advantage of a large, well-formed frame and rather striking features. The lady has pleasing features and a clear, distinct voice. Mr. Buchanan's voice, too, is a great aid to him, being mellow and rich, and probably capable of expressing great fluctuations of passion. This, however, it is rarely allowed to do. Mr. Buchanan seems to avoid the slightest modulation of his tones. He starts in one key and maintains it through a whole evening. The key being heroic, of course, in conversational passages, it is utterly out of place. We fancy that were Mr. Buchanan, in the same tones In which he propounded a simple query last night, to ask an apple woman the price of her fruit, she would be instantly thrown into convulsions. The depth of this actor's voice is very remarkable, and he is fond of showing it. We were surprised at the apparent facility with which he descends to the lowest note of the gamut. In every depth he found a lower deep. Malgre these disadvantages of manner, which we think could be remedied by care and attentions Mr. Buchanan's performance was a good one. His best acting last night was in the scene where he addresses the "commissary." He had a proper conception of the passage, and, for a moment, assumed conversational tones only too soon to resume his stilled key. He possesses some passion, and very properly rendered the dying speech of the Moor in a thetic way, but a grand flourish of trumpets from the orchestra, which generally gives us music when we want to hear words, completely drowned his tones. Of Miss Buchanan it would be unfair to speak until she has had a better opportunity of displaying her talents, than the part of Emilia afforded

THE STEREOFTICON.—The exhibition of the Stereopticon will close on Saturday evening next. The many pictures displayed with truthfulness to nature will amply repay a visit. Friday evening will be appropriated to statuary exclusively. The specta-tor will find it difficult, indeed, to believe the shadow on the screen is not really marble itself, from the chisel of some celebrated sculptor.

## CITY ITEMS.

AN INVALUABLE ARTICLE OF FURNITURE. Every family in the land should be supplied with a "Grover & Baker" Sewing Machine. These admirable instruments are not only the most celebrated in point of utility in the performance of all kinds of sewing required in a family, but they are Ornamental as an article of furniture. The warerooms of the agent in this city, 730 Chestrut street. are daily thronged with visitors to witness the ope. ration of these machines, which are more simple, more noiseless, more easily operated, and perform a wider range of work than any others. The "Grover & Baker", Sewing Machine has, in fact, be-Come a household necessity.

THE "FLORENCE" SEWING MACHINE, We find, is being bought in preference to all others in use. The reasons for this are at once cogent and numerous. It does better and finer work than any of its livals; is the only machine capable of making the lock and knot stitches; the only machine having a perfect and uniform tension of upper and lower thread; the only machine that has the reversible thread; the only machine that has the reversible feed motion, enabling the operator to fasten the ends of seams, thereby saving much labor; and, owing to its simple construction, it rarely, if ever,

THE SEASON FOR HEAVY CLOTHING is at hand, and, as the prices of goods of almost every description are now unusually high, it is an important matter to know where to get the most value for your money. The best clad of them wear "nigger cloth;" while

squads of rebel prisoners pass through the city on the poorer officers and privates don uniforms of a material several degrees coarser than bale linen. The thing that most astonishes the "rebs" while in Philadelphia is the elegant and comfortable garments worn by the citizens. The explanation is afforded in the fact that the Brown Stone Clothing Hall of Rockhill & Wilson, Nos. 603 and 605 Chestnut street, above Sixth, is located here.

The District selected by this Company is one of great interest, and is only partially developed, but where developed the results are very gratifying. The wells at Burning Springs and Petroleum are producing largely, while those of Horse Neck and Campbell's Run (where our lands are situated) show that this is a great oil producing district, being in close proximity to the following wells now producing in close proximity to the following wells now producing largely, viz: The "Greer Well," on Horse Neck, produces 160 barrels per day, and increasing. The last great well in this neighborhood is on kawson's Run, a feeder of Horse Neck, owned by Tack & Bröther. of. Philadelphia, and struck about three weeks ago. It flowed about 800 barrels of oil in a single day. Its average has been, perhaps. 220 barr, 18 a day. It is a shallow well: 220 feet deep. Near this, Messrs Tack & Brother have a well 220 feet deep, which yields from 26 to 50 barrels of oil daily.

The territory secured to this Company has been selected with great care, having called to our aid parties well known in the oil regions, besides having the opinion of a celebrated geologist from our own city. The lands purchased by this Company lie in Wood and Picasant counties, in West Virginia, at Horse Neck and Campbell's Run, five miles from the Ohio river by a good wagon road.

Professor Thomas in his report says: "The borings at Horse Neck have developed the fact that in this region there are six formations of oil, each of which occurs at different depths, and that tibelongs to an overlying formation of the Pennsylvania region."

At Horse Neck we bave the following:

1. One-half interest in a lease of seventein years in a tract of one acre, subject to one eighth royalty, on which we have one well sunk 327 feet, with a twelventors, and from which has been taken at the rate of 23 barrels of oil per day. When retubed will produce more.

2. Two thirds of a perpetu CONSOLIDATION BANK,

Books for subscription open at the Office, 28 MBR CHANTS EXCHANGE. 0026-66 OIL SUBSCRIPTIONS. Subscription Books to the following well-located and desirable tracts of land, situated in the SURANGO OIL REGION, and offering an adequate basis for two or more companies, will be opened this day.

No. 1.

All that certain tract, piece, or parcel of land containing fifty acres, being and situate in Tionesta township, Venango county, and state of Pennsylvania. This property has a large front on the Tionesta creek, and is about four miles from the Allegheny river—there is on the creek about twenty acres boring land—balance hilly—a ravine runs on the north side of it. This tract lies immediately between two oil companies.

All that certain tract, piece, or parcel of land containing one hundred and fifty acres, being and situate in Tionesta township, Venango county. This property is part of the Pearson tract, and also has a large front on Tionesta creek. It has a large ravine on it, and some heavy oak, hickory, and hemlock timber. There are about thirty-five acres boring ground. It is also contiguous to the property of an oil company now at work.

No. 8.

All that certain tract, piece, or parcel of land being and situate in Tionesta township, Venango county. This property contains fifty acres, of which about fifteen acres are boting ground; it fronts on the Tionesta creek, above Lacy's mills, and adjoins part of the property of an oil company.

No. 4.

All that pertain tract, piece, or parcel of land, contain. property of an oil company.

No. 4.

All that certain tract, piece, or parcel of land, containing twenty six acres, being and situate in Cornplanter township, Venango county. It fronts on Strart's run, and extends across to Sugar Camp run, being not only near the forks of these two streams, but near the Allegheny river. It is part of the Waldo tract. There are about eight acres boring ground.

All that certain tract, piece, or parcel of land, containing sixty acres; being and situate fronting on the Allegheny river, in President township, Venango county, about midway between the towns of President and Tionesta. It adjoins the Heckathorn farm, and also adjoins and is in the immediate vicinity of several oil companies.

adjoins and is in the immediate vicinity of several of companies.

No. 6.

All that certain tract, piece, or parcel of land; containing twelve acres, being and situate in Hickory township, Verango county. This is part of the Sutilificant. It fromts on Hunter's run: is near the Allegheny river, and about a mile and a half northwest of the town of Tionesta. On this twelve acre tract there are about two acres boring ground.

No. 7.

All that certain tract, piece, or parcel of land, containing fifty acres, being and situate in Pinegrove township, Venango county, fronting on and near the mouth of a run emptying into Hemiosk creek. About six acres boring ground. On this tract is some very heavy oak and hickory timber.

These seven estates embrace four hundred and three acres; of which say one fourth is boring ground. As will be observed, all these tracts front on the Allegheny and its tributaries. The advantages of being on navigation where oil can be shipped direct from the well without transportation, and where ample timber may be had on the property to feed the engine, are obvious. As the purchase of either of these tracts would require more money than the majority of persons have at commore money than the majority of persons have at com-mand, it is proposed to divide them into one hundred

more money than the majority of persons have at command, it is proposed to divide them into one hundred interests of one thousand dollars each, thus affording the man of limited means, as well as the capitalist, an opportunity to secure an interest in this truly wonderfol as well as money making region.

All of these properties have been selected for their eligibility, and, as may be seen by reference to a map, are unusually well located. They are all continuous to adjoin, and are between lands of companies having in the aggregate a capital of at least three million of dollars, whose "stock" is being rapidly disposed of.

As all are aware, the usual plan adopted for the development of such a property is to form a company and issue certificates of stock. The plan here proposed may be considered preliminary to the organization of one or more companies on these estates, which will cost the 100 original subscribers hereto all one thousand dollars each, and are subject to go not housand dollars each, and are subject to go not housand dollars each, and are subject to go with an unquestionable title, in fee simple toughout. The subscribers can then, upon this subject that and solid basis, organize one or more companies elect officers from among themselves, each subscriber being equally eligible to the position of an officer of the company.

Some idea of the immense value of oil territory may be gathered from the following statements: At Tideoute the "Economite wells" have yielded about one hundred barrels per day for three years; the "Heydrick! well has within the last three years; the "Heydrick! well has within the last three years; the "Heydrick! well has within the last three years yielded about 28,000 barrels of oil, and is still successfully being worked.

The Noble and Delamater well is pouring forth a

23,000 barrels of oil, and is still successfully being worked.

The Roble and Delamater well is pouring forth a constant stream of oil, at the rate of 500 barrels par day, equal to \$6,000, or over two million dollars' worth yearly. The Jersey well yields about \$5,000 daily. The Hyde and Egberi Farm, thirty-seven acres, has been converted into companies, representing over seven million collars.

The quality of oil in different localities varies. Every well-informed person knows that the oil from Tionests creek is considered fully equal, if not superior, to any in the oil region.

Cherry Run, not far from some of these proporties, and closely resembling them, was offered in December last for \$500. Two acres of the same properties have just been sold for over \$400,000—one well having been bored which yields \$50,000 per month, or nearly one million dollars per snnum.

The land interest (which is entitled to one-half the oil) in three acres on the Tarr farm is held at \$300,000.

The Columbia Company have four hundred acres in fee simple—that is, free from royalty, lease, or mortages. Their stock was originally sold at \$2.50 per share; it has been sold since at \$250 per share. One gentleman, who had two thousand shares, which cost him \$5,000, was offered \$450,000 for them. Many similar cases might be cited.

im \$5,000, was one... Cases might be cited. THE TERMS cases might be cited.

THE TERMS

are as follows: No more than one hundred subscriptions will be taken. Not less than one share will be disposed of to any one person, but subscribers can take one or more shares, either for themselves or for others. Five per cent. to be paid at the time of subscribing, the balance within ten days.

The Trustee, L. Montgomery Bond, Esq., will receipt for subscriptions, to whose order all checks may be drawn, and by whom remittances by mail will be duly acknowledged.

The books will be opened to day, and subscriptions received by DUNCAN M. MITCHESON.

NEW SKIRT FOR 1864. A NEW AND GREAT INVENTION IN HOOP SKIRTS.\_\_ THE DUPLEX ELLIPTIC (OR DOUBLE) STREET SPRING. . I. & J. O. WEST, No. 97 CHAMBERS STREET, NEW YORK,

Are the owners of the patent and exclusive manufacturers of this,

J. W. BRADLEY'S

PATENTED DUPLEX ELLIPTIC STEEL SPRING

SKIRTS.

This invention consists of Duplex (or two) Elliptic Steel Springs, ingeniously braided tightly and fremly together, edge to edge, making the toughest, mest classific, fexible, and durable spring ever used enabling the wearer, in consequence of its great elasticity and fiexibility, to place and fold the skirt when in use assessify and with the same convenience as a silk or mushin dress. It entirely obviates and silences the only objection to hoop skirts, viz: the annoyance to the wearer as well as the public, especially in crowded assemblies, carriages, railroad cars, church pews, or in any crowded place, from the difficulty of contracting them to occupying a small space. This entirely removes the difficulty, while giving the skirt the usual full and symmetrical form, and is the lightest and most stylish and graseful appearance for the street, opera, promenade, or house dress. A lady having enjoyed the pleasure, comfort, and great convenience of wearing the Duplex Elliptic Spring Skirt for a single day, will never afterward willingly dispense with the use of them. They are the best quality in every part, and by far the lightest, most durable, comfortable, and economical skirt made. Herchants will be supplied as above, and ladies in most first-class retail stores in this city and throughout the different States.
