NEW YORK CITY. Ispecial Correspondence of The Press NEW YORK, Oct. 29, 1864. A GALE was yesterday raging in our streets, and tearing vessels from their anchorage in the harbor. During the afternoon it was next to impossible for femi-ninity, in its present rotund style of dress, to make its way through the thoroughfares. From inky, amorphous clouds came sudden, indisputable gusts; whereupon, as if to do reverence to some whostly facts, many hats, went skyward. Signs, of which there are hundreds whose rotten or insufficient davits and stays invite precipitation, where whiched downwards in no small numbers. Two gentlemen were badly injured by these tremendous missiles and it is reported that a lady was instantly killed, although the morning prints have been silent upon the subject. Many accidents of minor importance occurred. Children, without much power of adherence to the pavement, were in more instances than one propolled bodily across sidewalks, and against one proposed railings. One was blown down under a passing omnibus, but fortunately sustained no material injury. Vessels lying in the stream dragged their anchors, and collided with wharves, or with each other. Ferry boats plunged into huge sea troughs, and had their decks washed by the waves. Some little sea-sickness occurred in consequence. Several houses in Brooklyn were unroofed, and telegraph poles and political banners were torn down and of this city have been holding a very peculiar carnival, after their own fashion. On Thursday evening they took passage on the 4.15 Erie train to attend a prize fight anticipated between Dooney Harris, representative of New York, and Peter Martin, resentative of Philadelphia. From Jersey City to Middletown the cars presented scenes of violence. The respectable portion of the passengers were ruthlessly relieved of their valuables, and dared not

resist, on account of the force in which the ruffians appeared. At Middletown an accident occurred, which occasioned a detention. When the through express train arrived at the scene a rush was made for it. Here indiscriminate pillage occurred. Ladies and gentlemen were alike despoiled and treated with the utmost brutality. An elderly Kentuckian was maltreated so that he fell into an apopleotic fit, and expired. The Chief of Police at Jersey City was soon in-

formed of the circumstance by means of the telegraph, and, with a small force of men, laid in wait for the rascals on their return. By some means they gained an inkling of his intentions, and when the train reached the Bergen tunnel, just on the ontskirts of Jersey City, burst open the doors, applied the brakes, and made off before any considerable number could be arrested. Ten men (New Yorkers and Philadelphians) were secured, how ever, and are now in the cells awaiting an examination. It is proposed to make an example of such of these scoundrels as may be convicted. AN UNFORTUNATE FEMALE,

who should have been married, but was not, by the object of her affections, having sued the man who should have been her husband, but is not, yesterday recovered a verdict of \$10,000 against him, the said man. She claimed \$20,000, but the jury saw fit to render only half that sum. The case has excited some interest among the hangers-on in the courtroom, the lady being rather pretty and quiet in deportment. She is a music teacher by profession, and went to Key West a few years ago. There she was clutched by the ign minious man, and lived with him for some time, relying upon the promise of marriage, which he has failed to fulfil. [By Telegraph.]

DESTRUCTION OF FLOUR MILLS. NEW YORK, Oct. 30 .- The flour mills of Ira Teatman, Jr., No. 4 Greenwich street, were burned this evening. The buildings are said to have contained 25 000 bbls of flour. The loss will be very heavy. The buildings were known as the Greenwich Flouring Mills, and the loss will be over \$100,000. One man was fatally injured by the failing of a safe. The neighboring buildings were considerably damaged by fire and water. The origin of the fire

is unknown.

ARRIVAL OF A GUNROAT. The United States gunboat Glaucus has arrived from Aspinwall, whence she convoyed the North Star. She fell in with the prize steamer Hope on the 27th, 280 miles south of Sandy Hook, and towed her until 3 o'clock this morning, when, a heavy sea running, the hawser parted. The boilers of the Glaucus are leaking badly. MOVEMENTS OF STEAMERS.

riously.

"Waiting for the Verdict" is the title of the new sensation produced at the Walnut for Mr. McKean GERMAN OPERA.-The subscription for the great season of German opera began on Saturday, at Gould's music store, and in one day reached nearly three thousand dollars. Subscription tickets may be bought either for a seat every night, or every other night. dramatization of Miss Braddon's novel, "Darrel Markham; or, the Captain of the Vulture." It is in five acts, with a four-character part for the star. Mr. Hellier, of the Philadelphia Programme, is agent for Mme. de Marguerittes' works. The New York Sunday Mercury, in a criticism of Forrest's Spartacus, in the play of the "Gladiator," says of Mr. John McCullough, the promising young says of Mr. John McCullough, the promising young Philadelphia actor, now supporting Mr. Forrest: "It is great praise to say that any artist should divide attention under the overwhelming interest absorbed by Mr. Forrest, and yet this triumph was achieved by Mr. McCullough, as the brother of Spartacus. Mr. McCullough is rapidly rising into the highest walks of the drama. To a fine person he adds an expressive face and a good voice. In the higher expressions of the passions he occasionally lacks abandon and force.

"Mr. McCullough's appeal to his brother, his penitence, his revulsions of destress, were exceedingly fine. His report of the horrible crucifixions inflicted upon the Roman gladitators was in a vein of elequence rivalling Forrest himself in truth and

of eloquence rivalling Forrest himself in truth and intensity. Indeed, so great a point did he make of this that the audience greeted his triumph with a flattering round of applause." THE CITY. [FOR ADDITIONAL CITY NEWS SEE POURTS FAGE,]

FIREMEN'S MATTERS.

A number of the members of the Assistance Fire Company, who enlisted in the 1st New Jersey Regiment three years ago, took with them their famous white French poodle, "Stag," for a long time an adjunct of the Assistanca Of course, it, became a pet, learned all sorts of strange, tricks and odd ways, and has been with the "boys" in all their campaigns. The company to which he was attached, in order to testify their regard, presented him a year since a massive silver collar, costing some \$70, on which are engraved various camp scenes, and this inscription, "Stag. Presented by the members of the West Jersey Rifle Company, N. J., to their faithful companion through all the campaigns of 1861, '62, and '63."

The America Hose Company, No. 17, has had prepared a very handsome and elaborately-finished silver goblet, designed as a present to Mrs. Wm. C. Vinyard, as a testimonial of the esteem entertained for her as the president of the Fire Department table at the recent United States Sacitary Fair. Among the embellishments on the goblet is a representation of the medal or seal of the Sanitary Oommission, and on the other side the names of the committee.

The cost of the ambulance and harness was \$1,200.

The Diligent Hose Company has just received new equipments. They are not only handsome but durable, in every respect first class. The pattern is new. The District relected by this Company is one of great interest, and is only partially developed, but where developed the results are very gratifying. The wells at Burning Springs and Petroleum are producing largely, while those of thorse Neck and Campbell's Run (where our lands are situated) show that this is a great oil-producing district, being in close proximity to the following wells now producing largely, viz: The "Greer Well," on Horse Neck, produces 100 barrels per day, and increasing. The last great well in this neighborhood is on Rawson's Run, a feeder of Horse Neck, owned by Tack & Brother. of Philadelphia, and struck about three weeks ago. It flowed about 500 barrels of oil in a single day. Its a shallow well 200 feet deep. Near this, Messrs. Tack & Brother. of Philadelphia, and struck about three weeks ago. It flowed about 500 barrels of oil in a single day. Its a shallow well 200 feet deep. Near this, Messrs. Tack & Brother have a well 250 feet deep, which yields from 26 to 50 barrels of oil daily.

The territory secured to this Company has been selected with great care, having called to our aid parties well known in the oil regions, besides having the opinion of a celebrated geologist from our own city. The lands purchased by this Company lie in Wood and Pleasant countries, in West Virginia, at Horse Neck and Campbell's Run, five miles from the Ohio river by a good wagon road.

Professor Thomas in his report says: "The borings at Horse Neck have developed the fact that in this region there are six formations of oil, each of which occurs at cifferent depths, and that it belongs to an overlying formation of the Pennsylvania region."

At Horse Neck we have the following:
