INQUEST. Coroner Taylor on Saturday held an inquest on the body of Stephen Vieria, the keeper of a public house on Second street, below Queen, in the Third ward. The jury rendered a verdict that the de-ceased came to his death from a pietol-shot fired by David Gregory. The deceased was a native of the Isle of Madeira. His wife and child, who are on a visit to that place, are expected to arrive on their return home in the course of a few weeks. The prireturn home in the course of a few weeks. LARCENY OF HARNESS.

LARCENY OF HARNESS. George Parsons was arraigned at the Central Station, on Saturday, on the charge of the larceny of a set of harness, valued at \$228, the property of Samuel R. Phillips. The evidence developed the fact that on the 20 inst., the prisoner called upon Mr. Phillips and purchased the harness, and ordered It to be sent to the Girard House. He gave his check for the amount, and the goods were sent as directed. On the following day the check was pre-sented at the bank upon which it was drawn, and then it was ascertaized to be entirely worthless. The purchaser in the mean time field the city, and he was arrested by means of the telegraph. He was brought to Philadelphia by Detective Levy. The prisoner was committed to answer at court. was arraigned yesterday morning on the charge of carrying a concealed deadly weapon. He was committed. We may state that on Saturday night a row oc-curred in Mr. Becker's lacer beer saloon, on Chest-nut street near Sixth. The lights were suddenly extinguished, and some one at the front door shouted "fight," "fight." Lieut. Henderson and several officers of the Reserve Corps of police hastened to the saloon, but the place being in darkness, they could do nothing. Mr. Becker in the meantime had taken his money drawer with its contents. Into the cellar. He relighted the saloon at the request of the police, and it was then found that a young man named George Collins, a son of G. Constantine Oollins, a member of the bar, had been shot. A cavalry revolver, partly loaded, was found upon the door, and was taken in charge by Lieut. Henderson. The wounded young man was placed on a stretcher and carried to the Central Station, where the wound was examined by Ooroner Taylor. The bail entered the fieshy part of the thigh, then passed upwards, grazing in its progress the hip bone, and lodged in the small of the back. The wound, though not im-mediately dangerous, is a painful one. It was stated that the prisoner had fired a pistol, and this is the reason why he was taken into custody. There was no evidence elicted at the hearing involving him. It was also stated that Collins had fired a pistol first, but of this there is no legal evidence. It is all hearsay on both charges. The prisoner was held to await future developments, there being no evidence against him that he had any deadly weapon in his possession. weapon in his possession.

### NEW YORK PICKPOCKET

A young man giving the name of James Ray-mond, halling from New York, was arrested on Saturday evening on the charge of picking pockets. The main witness did not appear at the hearing yesterday morning. The prisoner was therefore com-mitted to work a further theories. nitted to await a further hearing.

## ANOTHER CASE,

ANOTHER CASE. Lewis J. Welsh was also arraigned on the charge of picking pockets, on Saturday evening, but the parties did not appear against him yesterday. The prisoner, however, was held on another charge, that of beating a woman on the head with a store-plate of beating a woman or the nead with a stove-plate at her residence in the rear of St. Stephen's Okurch, a few nights ago. She was severely injured. A warrant had been issued for his arrest, but he evaded the police until taken on Saturday night, as above stated.

# Court of Oyer and Terminer and Quarter Sessions—Judge Thompson.

Sessions-Judge Thompson. THE NEW YORK JEWELLEES' ASSOCIATION LOT-TREY CASE. In the case of Mr. Thein, the actuary of the New York Jewellers' Association, Jadge Thompson, on Saturday, decided that the license to the Academy of Music did not embrace the concert or entertain-ment given there by the defendant. The con-struction he put upon the act of Assembly was that specific entertainments, which are to be given at a particular time, require a separate license. In re-ference to the charge of maintaining a lottery, the court held that the inducement to buy a ticket being the chance of drawing a prize, and the prizes being so drawn by chance, constituted the offence charged. The defendant was accordingly remanded charged. The defendant was accordingly remanded

## SENTENCE OF GILLINGHAM.

William Gillingham, whose conviction on two bills of indictment, charging assault and battery, with intent to kill, and with carrying concealed deadly weapons, we noticed on Saturday, was sen-tenced by Judge Thompson to three months' im-prisonment.

THE NINETEENTH WARD ELECTION DIFFICULTY. THE NINETEENTH WARD ELECTION DIFFICULTY. John Gorman, Charles Westley, David Allen, and John Bartram, charged with assault and bat-tery, and inciting to riot, had a hearing on habeas corpus. The charges grew out of a disturbance at the polls of the Fifth division of the Ninteenth ward, on the day of the last election. After hearing the testimony, Judge Thompson remanded the de-fendants to stand their trial for assault and battery, but decreased the amount of ball fixed by the alderman. Nothing of importance transpired in the other

being swamped in this disastrons crisis, which is seat. tering ruin wherever it has extended, and though the final day may be procrastinated, it is pretty certain to overtake them in the end. On the other hand, all the countries which have sympathized with the United countries which have sympathized with the United States Government and people in this rebellion, stand unshaken. The finances of Bussia, Sweden, Pras-sia, Jialy, and the minor Powers of Germany are thus far unaffected by the rude blasts sweeping from the British Isles. The leading English press set down "the Americen trade" as the primary cause of these catastrophes, but they studionaly avoid any allusion to the trade with the insurgent States. It is plain that the uneasiness in London is greater than the journals would lead us to believe, and that the leading finan ciers are straining every nerve to avoid a general crash. If the port of Wilmington were to be closed at an early day, it is probable that the panic would be feit with much more pressing severity in England than at

The Chicago Tribune of Wednesday says :

The Chicago Tribune of Wednesday says: "There has been an increased demand for money to-day, coming mostly from packers which is the great in-terest which now secures recognition from bankers Fortunately our bankers have plentry of means, and can respond to almost any legitimate domand for money. No packing season was ever inaugurated with brighter prospects than this birangely encough, this condition grows out of the recent paric which swept over our monetary interests with such fury. Had not that event become historic, immense sums of money now at liberty would have been buried up under immense piles of grain, barrels of whisky, pork and lard, &c., and the prospects of packers would have been anything but en-conaging. The maxim is apt that good irequently completely unsettled the produce market, but most ar-ticles seatled into a decline—say 5066 cents on wheat, &c. Operators who have any reputation at stake could not be rash enough to follow the vascillations of the good market."

The Boston Post of Thursday says: The Boston Post of Thursday says: The money market is well supplied with capital, which is readily furnished to approved borrowers, for prime collsteral loans on demand, at the standard bank rate of six per cent. The discount market is easy for paper of the first clars, at about eight per cent.; and for the lower grades at from nine to tweive per cent. ac-cording to strength, amounts, and cates, preference being given to short maturities over those having a longer time to run. With the exception of notes given for accommodation, by forestallers, the offerings in the street are limited to a moderate amount. There is no abatement in the demand for currency certificates, or for the different classes of the funded securities of the United States, which are steadily inquired for by a large number of investors. The call for high-priced local stocks is limited to the retail trade, but ithe best of the more fluctuating kinds are scarce, and in pretty active request, both for permanent holding and for speculative account.
