J. B. MCCREARY, President.

DIRECTORS,

SAMUEL P. FERREE, Sec'y and Treas.

The property belonging to this Company consists of One Hundred and Fifty Acres in fee simple, of valuable Lubricating Oil Land, situated on Sugar Creek, about two miles from its nouth, which empties into French Creek. Venango county, Ps.

This property has been selected with a view to its Veluable Location, betving its lines extended along and on both sides of the Creek over Three Hundred Rods, which, tegether with the large amount of Fist or Bottom Land, gives it superior advantages for drilling a large number of Oil Wells. At least One Hundred Wells can be located, with ample room for Tanks, Engine Houses, and Iwellings.

A good Well, giving Twenty Barrels per day, is within one fourth of a mile above it; also, several good producing wells on the Creek below it.

The Oil obtained on this Creek is the Lubricating Oil, which commands in price one hundred per cent. above of the Oils, and is more in demand.

The Company can obtain a large revenue by parties wishing to sink wells, reserving from one-fourth to one-half of the Oil free of expense to the Company, Independent of the revenue from their own Wells, there being a large sufficiency of land for both purposes.

It is designed to give the contract to drill several wells in the best location at once. The title to the preperty is perfect and free of incumbrance.

Subscription Bocks are now open at the office of

J. SIMPSON AFRICA, Secretary and Treasurer. THEODORE TILTON. Esq., Books to receive subscriptions to seven welllocated and desirable tracts of LAND, situated in the
VENANGO OIL REGION,
will close on MONDAY next.

All of these properties have been selected for their
eligibility, and all are continuous to, adjoin, and are
between lands of the "Ferrar." "President," "Germania," "Phonix," Bull Creek," and "Tionesta
Oil and Lumber" Companies, having in the aggregate
a capital of seven millions of dollars.
These seven several tracts, embracing 400 acres, will
cost the subscribers on an average only \$250 per acre,
220 of these 400 acres are within gunsh of Oil Territory (no better, if as good), held at \$375 per acre (or
\$75,000 for 200 acres), while one tract of 60 acres, which
the subscribers also got, lies midway between two
properties, one of 22% acres, which, within the last few
days, edd for \$1,500 per acre; and the other, of 100
acres, which, since the commencement of this enterprise, sold for \$2,000 per acre, or \$200,000 for 100 acres.
In connection with this 60-acre tract it might be said
that it is uclose proximity to a well which commenced
flowing 150 barrels a day in July last.

[These statements are made to indicate that if these
lands, in bulk, were now put upon the mark-t, more
might be realized from them than by the pressut plan 1.

As the purchase of cither of these tracts would raquire more money than the majority of persons have at
command, it is proposed to divide them into one hundied interests of one thousand dollars cuch, thus affordthe man of limited means, as well as the capitalist, an
opportunity to recure an interest in this truly wonderful as well as money making region.

As all are aware, the neual plan adopted for the deveograment of such a property is to form a company, and
issue crufficates of stock. The plan here proposed may
be considered preliminary to the organization of one or
more companies, elect officers from among themselves, each
and are subject to no royalty, leases, or mortgages whatseeven but will be got with an unquesti O.I. SUBSCRIPTIONS. - VIIE OF THE NEW YORK "INDEPENDENT," Will deliver a Lecture on this Subject, in CONCERT HALL, On TUESDAY EVENING, Nov. 29, at 8 o'clock. Tickets 50 cents. companies, elect officers from among themselves, each subscriber being equally eligible to the position of an officer of the company.

In order that handsome returns may be speedily realized, these subscriptions are based upon the proposition that when the list is full (notice of which will be duly given), the subscribers immediately organize a company, with a capital of 100,000 shares, at five dollars each, which will entitle such subscriber to an original interest of 1,(00 shares, or \$5,000 in the capital stock of the company, of which is reservation of ten per cent will give the company a stock capital of 10,000 shares, or \$5,000 for the immediate development of their estates.

If this reserve stock, at the opening of the books of the company, were sold at half its face (\$5), or at but \$2 per share, it would be seen that the stock of those who now subscribe to SHARES would at once be handsomely enhanced in value.

Turther, when their wells commence flowing, the stock must rapidly increase in value. And again, so much of the land as may be retained by the company, which they do not themselves mean to develop, may be leased on a "toyalty" for one-third of the oil produced, or otherwise disposed of, the dividends received from which source would also greatly increase the value of the original stock.

Considering the perfectly satisfactory price at which subscribers get their property, costing no more than it might. NOW in a body be sold for; also, hearing in mind that the subscribers themselves organize the company, manage its affairs, and that by the plan proposed, if carried out, handsome returns may be realized, and also recollecting that the merit of this enterprise has been investigated by cautions business men, who have endorsed their opinion of it by subscribing or when the list is made up; if desired, two or more persons car club together and take a share.

As the books will gostively close on MONDAY next, November 28th to secure one or more of the few remaining shares address or apply at once to November 25th to secure one or more of the 16W remaining shares address or apply at once to BUNGAN 81. MITGHESON, N. E. cor. FOURTH and WALNUT Streets, Phila. Subscriptions by mail or otherwise also received by mo24-ths 2t No 327 WALNUT Street, Phila. DUNKARD OIL COMPANY. CAPITAL. \$500,000.

100,000 SHARES—\$6 Far Value.

The following is extracted from the Phitadelphia Inquirer, of Settember 17th, 1864, prior to the organization of "The Dunkard Oil Company:"

On almost all the streams in Greene county the lands I ave already been leased with a view to explorations for Coal Oil; and on one particularly, called Tunkard's, the developments have been of the most encouraging character. The editor of the Waynesburg (Penna.) Messenger, in referring to the subject, after a careful personal inspection of the region and the operations that are now taking place there, says:

"We are honestly of opinion that when capital and enterprise shall have developed the lands along the creek, that locality will be found to compare in the extent of its Oil production with the Venango district, while in the purity, gravity, and value of the Oil, it is acknowledged to be infinitely superior. Our convictions on this subject are based upon actual knowledge and observation of both regions, and of the geological formations and surface indications. We are ratified to learn that we are not alone in these favorable impressions and auguries

"Eigentific men and experienced and practical Oil learn that we are not alone in these favorable impressions and auguries.

"Ecjentific men and experienced and practical Oil operators concar in them, and are investing liberally of their own means, and directing the attention of capitalists to the promising character of the Dunkard country. Already several large companies have been organized in Pitteburg and the East, which will soon commence operations on an extensive scale. In the meantime, individual energy and local enterprise are doing much to develop that favored locality. New derricks spring up every few days, and the process of sinking wells goes on in many instances without interruption night or day."

HOOP SKIRTS,
THE DUPLEX ELLIPTIC (OR DOUBLE) STEEL
SPRING.

J. I. & J. O. WEST, NO. 97 CHAMBERS STREET,
NEW YORK,
Are the owners of the patent and exclusive manufacturers of this,
I. W. BRADLEY'S
PATENTED DUPLEX ELLIPTIC STEEL SPRING

PATENTED DUPLEX ELLIPTIC STEEL SPRING
Steel springs, ingeniously braided tightly and firmly together, edge to edge, making the toughest, most elastic, flexible, and durable spring ever used, enabling the wearer, in consequence of its great elasticity and flexibility, to place and fold the skirt when in use as easily and with the same convenience as a silk or musin dress. It entirely obviates and silences the only objection to hoop skirts, viz; the annoyance to the wearer, can be only objection to hoop skirts, viz; the annoyance to the wearer carriages, railroad ears, church pewsyor in any crowded assemblies, carriages, railroad ears, church pewsyor in any crowded described to the parties entitied to the same convenience of the Company, for the year leaded to the lat the lat December proximo, free of National and State taxes.

The lat lat lead of the Company, for the year lead, ending of the Company, or and after the lat December proximo, free of National and State taxes.

The results of the Company, for the year lead, ending of the Company, or and after the lat December proximo, for the year lead to the same on the difficulty and firmly be redeemed in CASH, at the office of the Company, on and after the lat December proximo, for the year lead to the same on the difficulty and firmly be redeemed in CASH, at the office of the Company, on and after the lat December proximo, free of National and State taxes.

The redeemed proximo, the office of the Company, for the year leading of the Company, for the year leads to the same on the difficulty and firmly be redeemed in CASH.

This invention consists of Duplex (or two) Elliptic to the defendent of the Company, for the year leads to the lat December proximo, free of the Company, for the decimes.

The national PATENTED DUPLEX ELLIPTIC STEEL SPRING SKIRTS.

This invention consists of Duplex (or two) Elliptic Steel springs, ingeniously braided tightly and firmly together, edge to edge, making the toughest, most elastic, flexible, and durable spring ever used, enabling the wearer, in consequence of its great elasticity and flexibility, to place and fold the skirt when in use as easily and with the same convenience as a silk or muslin dress. It entirely obviates and silences the only objection to hoop skirts, viz: the annoyance to the wearer as well as the public especially in crowded assemblies, carriages, railroad ears, church pews, or in any crowded place, from the difficulty of contracting them to occupying a small space. This entirely removes the difficulty, while giving the skirt the usual full and symmetrical form, and is the lighest and most stylish and graceful appearance for the street, opera, promensade, or house dress. A lady having enjoyed the pleasure, comfort, and great convenience of wearing the Duplex Elliptic Spring skirt for a single day, will never afterward willingly dispense with the use of them. They are the best quality in every part, and by far the ligitasts, most durable, comfortable, and economical skirt made. Merchants will be supplied as above, and ladies in most first class retail stores in this city and throughout the different States. Thomas C. Hand,

BOARD.—A LARGE SECOND STORY together with Board, may be obtained at 269 South FIFTH, Street. EDUCATIONAL. THE QUAKER CITY BUSINESS COLLEGE. TENTH AND CHESTNUT STREETS. Young men wishing to obtain that preparation which will really qualify them to enter intelligently upon the discharge of the duties of "business life!"—precisely that knowledge of the routine of business which they will be required to practice in the busy marts of trade and commerce, the workshop, the manufactory, the bank, the store, or the counting-house, embracing every formality of ACTUAL BUSINESS,

and the modes and customs of trade, and the science of accounts in its nost complete developments, will, by all means, give the preference to an institution which has been, and is, foremost in all the modern improvements, and offers, both as regards the value of the plan and course of instruction, the experience and ability of its teachers, and the elegance and convenience of its accommodations, inducements such as have never before been presented to the citizens of this city.

How many go blindly to Commercial institutions, without ever stopping to inquire into their comparative merils? without ever stopping to inquire into their comparative merits?

Let those who have followed the old Copying Systems, and found themselves, upon being put to the test incompetent book-keepers, and totally deficient in the simplest things, such as every business man must be perfectly familiar with, answer.

The best class of young men—those who have enterprise enough to investigate the comparative merits of different schoole—may, as an almost invariable rule, be found at the

QUAKER CITY COLLEGE.

Office, Ground Floor,
