It is an interesting document, made so by the historical position the road occupies in relation to the robellion, since the breaking out of which it having been continually subject to the raids of rebel armies and guerills gangs-its tracks torn up, its bridges destroyed, its culvert and tunnel; ren-dered useless by the explosion of gunpowder, its depose burned, and its locomotives and cars disabled and broken. Notwithstanding all this, the report states that the company has been enabled to pay its usual semi-annual dividends and to fully main and the sink-ing fund established for the extinguishment of its funded abbt. THE ENGLISH MOVENENT TOWARDE INTER-contronton. - The London R. cord skys: It is stated that several eastern ecclestations are expected in England in the early part of next year. They come, commissioned by the Synod of Moscow, to make definite inquiries regarding the present position of the Church of England, with a vlow to restored in-tercommunion. At Rome the tractarian movement for fraternization does not appear to find favor. The Pope has addressed a letter to the Roman Catholic Hishops of this country, condemning the Association for Frimoting the Unity of Caristendom. The, ground taken by the P-op is exactly what might have been expected. The Greek Church is schis-matic, and the Protestant Church is hereits, and therefore they have no part in the Onersigningment, on the false notion that " the true Church of Jesus Obriet consists partly of the Roman Oatholic Ohnrohy propagated and diffused through the world, partly of the Photian schism and the English heresy, to which equally with the Roman Oatholic Ohnrohy propagated and diffused through the world, partly of the Photian schism and the English heresy, to which equally with the Roman Oatholic Ohnrohy propagated and diffused through the prism."
