OIL SUBSCRIPTIONS—NOTICE

TO SUBSCRIBERS—The undersigned with pleasure informs subscribers that the 100 subscriptions have been secured, that the Books closed yesterday, and that orders have already been issued to at ogce get out deeds, searches, and papers of the seven tracts.

As it has, after due radiation, bean considered that the most eatisfactory plan to subscribers would be to have each of their names entered in the deeds for the respective amount of their subscriptions, thus plan has been determined upon.

As there is a postability that some of the subscribers, when the funds are required, may not be prepared, and as it would be doing injustice to the others to enter rught names, to avoid such a contingency, in the interim, white the deeds, &c. are being got ready (which will take at least a fortnight), the Trustee will collect the subscription, and I will open a "Reserve List;" those first entering their names on it to take the place of any subscribers whose arrangements are such as will not permit them to comply with the terms.

By this plan it will be seen that those only who are entitled to will have their cames inserted in the deeds. It will also be observed that the opening of the Reserve List avoids any delay in the organization of the Company, which it is desired shall take place as early as proposable.

Familiar as I am which the marits and advantages of this enterprise, now that the Books has closed, in may with propriety say that, when it Company gets started and open their Books for the sale of their Stock, in my opinion, the shares which the subscribers now get will command a handsome premium.

Cfice, N. E. cornor FOURTH and WALNUT Sts.

P. S. Any checks sent to me for the payment of subscriptions, to be in form, should be drawn to the order of the Trustee, Mr. E. BOKDA. conceded to be in the heart of the oil territory, new
wells being struck nearly every week. It is attnated
upon the great upheaval, now proven to be the beatdication of oil territory in that region. Horse Neck,
Burning Spring, and the oil territory in Ohio, are all
upon the upheaval. It is a well proven fact that it is
necessiry to strike a "insure" in the prock in order to
obtain a paying well, although in passing through the
rock a show of oil may be obtained. It is this fact
which makes a volcapic upheaval of importance, as it
croases many fissures or breaks in the strats.

GREAT LECTURE OF THE SEASON. THE RUSSELL FARM OIL COMPANY, is acknowledged to be one of the best-producing farms in the whole region.

The following remarks are taken from the financial columns of the Philadelphia Press of Kov. 16. 1864:

"The following remarks are taken from the financial columns of the Philadelphia Press of Kov. 16. 1864:

"The excitement in oil stocks is still increasing, and the price of some of the producing companies has materially advanced. We notice the companies situated on the Hyde and Egbert Farm, which is considered one of the best on Oil Creek, having rapidly advanced within the last few dark. This is owing to some large wells having been lately struck on this property, one flowing about a thousand barriels per day, and one flowing about a thousand barriels per day, and one flowing two hundred barriels per day. The entire yield of this farm is now between fitteen hundred and two thousand barriels per day, and some of the companies located on the 'Maple Shade,' Hyde Farm,' Rocks, 'Eghert,' and 'Miretal,' have had their incomes doubled by the abova new wells going down on this farm, on one of which the largest oil crevice yet found is said to have been struck; V.

REED WELL.

now producing some 310 barriels per day. This well is one of the most reliable, and has been daily increasing, and the striking of it has proved the fact that the Cherry Run, property is among the most reliable and productive in the oil region.

The entire land interest in 12 acres on Cherry Run, about hree-fourths of a mile above the Reed Well. This property is well located, being all boresble, and FIVE WELLS ARE NOW SEING DELIED ON IT, TWO OF WHICH ARE REAR COMPLETION. and, according to the least sgranded, FIVE MORE WELLS ARE TO BE COMMENCED ON THE PROPERTY WITHIN ONE HUNDRED DAYS FROM NOVEMER 1, 1864. This interest is expected to intrease the yield of the Company to a large amount.

The property belonging to this Company consists of One Hundred and Fifty Acres in fee simple, of valuable Lubricating Oil Land, situated on Sugar Creek, about two miles from its mouth, which empties into French Creek; Venango county, Fa.

This property has been selected with a view to its Valuable Location, having its lines extended along and on both sides of the Creek over Three Hundred Rods, which, tegether with the large amount of Flat or Sottom Land, gives it superior advantages for drilling a large number of Oil Wells. At least One Hundred Wells can be located, with ample room for Tanks, Engine Houses, and Dwellings.

A good Well, giving Twenty Barrels per day, is within one-fourth of a mile above it; also, several good producing wells on the Creek below it.

The Oil obtained on this Creek is the Lubricating Oil, which commands in price one hundred per cent. above of or Oile, and is more in demand.

The Company can obtain a large revenue by parties wishing to sink wells, reserving from one-fourth to one-half of the Oil free of expense to the Company, independent of the revenue from their own Wells, there being a large sufficiency of land for both purposes.

It is designed to Faive the contract to drill several wells in the best location at once. The title to the property is perfect and free of incumbrance.

Subscription Books are now open at the office of not? 12t and wells drilled. Two derricks are now being erected, and the development of this property will be prosecuted vigorously.

The following extract is from an editorial of the Public Ledger, November 19, 1884:

"One of the motypemarkable features about the present oil excitement is that, while the territory known to possess oil is to rapidly extending in area, the older settled portions, where most oil has been drawn off, are daily raising in price. The price, too, of the oil is higher than ever, being eleven dollars and a half per barrel at the wells now. Yet, all around oil Creck new hears have been added of far greater extent than those before known. The whole of Cherry Run may be said to have come into the market since the beginning of the year, and is now considered the most valuable territory and is now considered the most valuable territory and is now considered the most valuable territory in the company are now receiving, from the producing interests, Afty, four (64) barrels of oil daily, which will enable them to pay a handsome and prompt dividend on its capital; also, an interest in eighteen wells in various stages of completion.
