Mrs. Ball, whose fireproof and contents were stolen from her saloon on Thanksgiving night. Among the first selections the from was is billy, or black jack. A weapon of this kind was found upon the person of Dowd, altas. Reddy, by Officer. Robinson. It was identified by Mrs. Ball as the one taken from her house. She also identified Benjamin Diok from her house. She also identified Benjamin Diok son and John Gallagher as the two persons in her select on the fireproof, and tried to lift it. Thus it will be seen that, by a chain of circumstances, made the stronger, by positive facts, the prisoners are implicated in at least three robberies. In addition to this, Tom Holiand, the keeper of the McClellan House, on Dook treet, and Lizzle Hart, one of the bosrders, are also implicated in the safe robbery—that is, if the evidence is to be believed. The principal witness, however, against him is Emma Holland, the easilor flow, his wife. It is not legal, in cases likeths, for a wife to testify against her husband. The detectives, however, state they have additional evidence that holds him "dead to rights," but it will not be developed until the day of trial. One thing is certain—this is the pretitest case of police work that has been done in this city for some time.

Referred to a special committee.

Mr. Zane (U.) presented two petitions similar to those presented by Messrs. Marous and Spering, and also an ordinance repeating the sections 10 and 17 of the ordinance relating to nuisances. These are the sections objected to in the petitions.

Mr. Brightly (O.) said that the existing ordinance merely gave the police an easy method of removing what was a violation of an act of Assembly. He urged a consideration of the subject before the repeal of the ordinance. He said that the occupancy of the sidewalk is always fliegal, and that, if the proposed ordinance be passed, the sidewalks would be completely at the disposal of storekeepers.

Mr. Zane (U.) defended the ordinance. He said that a general cepreciation of property would ensue if this ordinance were not passed. The property-owners of Market street represent that if the sections objected to be repealed their property will suffer a depreciation of from twenty-five to fitty per cent. Express. 3 00

The latter resisted, wrenched defendant's billy from his hand, choked him, otherwise maltreated him, and when called upon to desist after they were separated, and after the prisoner had warned deceased that he would shoot, Mayborrycontinued to advance upon him, when the prisoner fired. A number of witnesses, policemen and others, were called in support of the allegation that the prisoner was acting in self-defence, and that he had just cause to be alarmed for his personal safety. It was also in evidence that some of the boys attached to the Hand-in-Hand Engine Company were unruly, and had caused the police in that neighborhood much trouble; that much difficulty existed to make an arrest of one of the members at night a rescue by others of them being generally effected. The evidence on both sides peaks and belaware Canai, containing 78 acres, with a Dwelling House, Granary and Stable, thereon.

H. F. KENNEY, Sup't. Mr. Loughlin (O.) spoke in favor of the bill.
There is a bill before the Chamber providing for taxing personal property, and that bill would probably be passed. Real estate had heretofore borne the entire burden of taxation, and he thought it proper that personal property should bear its part. The ordinance passed. FOR SALE.—THE SUBSCRIBER
offers for sale his country seat, within half a mile
of Wilmington, Delaware, on the Newport pike, containing eightacres of good land; in the centre of which
is a large lawn with a fine variety of shade trees, maples, lindens, evergreens, etc., in all over a hundred
full-grown trees. The improvements consist of a large
and commodious Manston, flanked on the west by two
towers, one of which is four stories in height. There
are four large rooms on a floor, with a hall eleven by
forty-two feet. The house has the modern improvements. A hydraulic ram forces water from a spring
into the upper story of the tower. There is also an
iron pump and bydrant under a covered area at the
kitchen door. The out-buildings consist of a carriagehouse and stable sufficient for four horses and several
carriages; also, a hen, ice, and smoke houses. The
stable has a hydrant in it.
Good garden, with several varieties of dwarf-pear and
grape vines, in full bearing. There are also several varieties of apple, cherry and chestnut trees.

There is no disposition to enter into speculations great or small, and theire will probably not be until after the meeting of Congress, and the transmission to that body of the report of the Treasury. There is no little auxiety to know what is to be the future course of the Department in reference to loans and currency. It is argued that, in view of our military successes, and the present plethoric condition of the money market, that the Secretary might well inaugurate a new system, looking to the early withdrawal of a portion of the greenback currency, and an entire dependence upon loans and taxes for the future maintenance of the Government. We have to notice a very dull market, and prices nominal. There seemed to be no demand for any article, nor was there any pressure to sell that we could find. New Mess Pork is held at \$37, and Lard at 22½. Green meats nominal; no demand, owing to the weather. We did not hear of any inquiry for old Bacon or Pork.
