## FINANCIAL AND COMMERCIAL.

Saturday was another dull day at the Stock Board. Prices were generally lower. Government bonds again declined. The 1881 loan sold at 108¼, a decline of ½, and the 5-20s at 108, a decline of ¼. The 10-40 bonds were steady at 102. State securities were unchanged, the coupon 5s selling at 95¼. There was nothing doing in City 6s. The railway share list was very dull. Reading sold at 68; Pennsylvania Railroad at 67¾; Catawissa preferred at 37¾, and Little Schuylkill at 44½—the latter a decline. North Pennsylvania Railroad sold at 30—a decline of 1. The sales of Company bonds were very light. Union Canal sold at 23, and Elmira 7s at 106. A lot of Harrisburg 6s sold at 100, and Spring Garden 6s at 96. The only sale of Passenger Railroad stock was West Philadelphia at 70, an advance; 26 was bid for the Thirteenth and Fifteenth; 34 for Spruce and Pine; and 15¾ for Arch street; 63¾ was asked for Second and Third; 52 for Fifth and Sixth; 48 for Tenth and Eleventh; 48 for Chestnut and Walnut; 12¾ for Race and Vine; and 26 for Green and Coates. There was little doing in Bank shares. Philadelphia Bank sold at 157; 182 was bid for North America; 69 for Farmers' and Mechanics' (old stock); 90 for Kensington; 51 for Girard; 32 for Manufacturers' and Mechanics'; 57 for City; 45 for Consolidation; and 49 for Commonwealth. Canal stocks continue dull. There were sales of Schuylkill Navigation at 33, and Lehigh at 73¾. The Oil stocks were quite neglected, but prices show no material alteration.

The quotations of gold were as follows:

The late accounts from Europe by the Hansa report an advance on the continent in our 5-20 year bonds of 2@4 ℔ cent. At Frankfort, the leading German market for American securities, the immediate supply of these bonds had been pretty well exhausted by investment purchasers, and the impression obtained that the re-election of Mr. Lincoln, when confirmed, would strengthen confidence in Federal stocks, on the principle that peace would soon follow such a verdict of a united North than a contrary result, implying divided counsels and a hesitating policy. The London *Times'* money writer, in thus quoting the substance of his Frankfort advices, takes occasion to traverse the conclusion arrived at in regard to our election news. But the fact of increased confidence among those most nearly interested as holders and buyers of United States stocks in Europe is not less candidly reported, and we accept it in all its practical importance.

The quantity of coal sent by railroad from Pottsville last week was 45,051 06, by canal 32,325 13; for the week 86,377,19, against 82,489 tons for the corresponding week last year. The present snap of cold weather will stop shipments by canal, except for the line, unless it should be moderate again, but even if it should the season may be considered as closed by the canals.

The whole quantity sent for the week is 209,117 tons, against 202,319 tons for the corresponding week last year.

The increase for the year about closing has dwindled down to only 428,036 tons over the year 1863. This is much less than was anticipated. The loss from all the regions for the three months, commencing with the first week in September, reached about 260,000 tons.

NOTICE TO MARINERS.

Ireland—South Coast.—Cork Harbor—Change of light on Roche Point. The port of Dublin Corporation has given notice that the fixed light now exhibited from the lantern of the light-tower on Roche Point, the east point of entrance of Cork harbor, will, on and after the evening of the 1st December, 1864, be changed to a *revolving red* light, showing its greatest brilliancy once in *every minute*.

Additional light to mark position of Daunts Rock.—Also, that on and after the evening of the 1st October, 1864, a *fixed white* light will be shown from the base of the same light-tower on Roche Point, to mark the position of Daunts Rock.

The lights will be visible between the bearings of N. E. by E. and N. E. ½ N., or between Roberts Head and a distance of half a mile to the eastward of Daunts Rock. Mariners are therefore cautioned, when approaching Cork harbor at night, to keep eastward of the limits of the *fixed white* light until they have passed the rock.

Fog-bell.—Also, that the Fog-bell lately erected at Roche Point will in future be sounded *eight* times in a *minute* during thick or foggy weather.

CYCLOPEDIA OF COMMERCIAL AND BUSINESS ANECDOTES. 2 vols. octavo.

The work is entertaining as light reading, but it serves a higher and a nobler purpose. It lays before the young men of our country numberless instances of the success which always attends honesty, integrity, and perseverance. It shows to them how those men whom they are always taught to look up to as models of a life well spent, started in their career of honor, penniless but honest, as shop boys or cabin boys. How by diligent attention to business and strict honesty in every transaction, they gained the confidence of their employer, and so rose from poverty to wealth, from social nullity to the highest places in society. "The work does not speak to them in these words, but by adducing instance after instance, lays before them the most powerful argument of which the human mind is susceptible—an argument based upon *example*.—*Ev. Tel.*

The book is beautifully printed; it is embellished with fine steel portraits of eminent business men, and capital illustrations of the text. It is a book which every merchant should have, and which every citizen who desires to have his library complete cannot do without. *Sunday Dispatch.*

FERNON'S REGISTER FOR 1864!

TO INVESTERS IN ROADS AND MINES!

The U. S. Railroad and Mining Register

Contains the latest intelligence on all matters relating to roads and mines, to the transportation of products, and to the manipulation of the metals in all parts of the commercial world, but most particularly in the United States and Territories.

And as the rail lines now stretch out West from Bangor, and East from San Francisco, with a prospect that the Pacific Railroad will soon supersede the Overland stage route, and as mines of coal and iron, oil and quicksilver, copper and silver and gold, are scattered throughout the States and Territories, yielding an annual product worth hundreds of millions of dollars, and exhibiting an increase which surpasses estimate and is beyond example, it will be perceived, where the matter is appreciated, that the mining and carrying investments of the whole country have enlarged into stupendous totals and expanded over vast areas.

Of developments and results touching and pertaining to these special interests, the *Register* keeps current record in more variety and wider scope than any other weekly newspaper.

The *Register* was first published in May, 1856, is in its ninth year, and is an established institution.

As an advertising sheet for mining machinery, railroad equipments, the metals, engineering, etc., the *Register* offers unsurpassed attractions through the ramification of its continental and international circulation.

TREASURY DEPARTMENT,
OFFICE LIGHT-HOUSE BOARD,
WASHINGTON CITY, Nov. 19, 1864.

SEALED PROPOSALS will be received at this office until 1 o'clock P. M., on THURSDAY, the 29th day of December, 1864, for supplying the Light House Establishment with thirty thousand gallons of the best quality pure winter strained lard oil, and twenty thousand gallons of the best quality pure winter strained sperm oil, to be divided into four lots, and to be delivered at the times undermentioned, alongside of the Government supply vessels, or at the warehouse or other place of deposit, to be designated by the Inspecting Officer, or other authorized agent of the Light-House Board, in strong, tight, iron-bound, well-made casks, suitable for shipping, in good order, of a capacity each of from fifty to eighty gallons; not to exceed the latter. The lard oil may be delivered at Boston or New York.

Either lot of sperm oil, or both of them, may be delivered at New York, New London, Sag Harbor, Boston, New Bedford, Edgartown, or Nantucket, at the option of the bidders. The place of delivery in each case must be distinctly stated in the bids, and will be embraced in the contracts.

The four lots will be delivered as follows, viz:

Lot No. 1. Ten thousand (10,000) gallons sperm oil on the 6th day of April, 1865, or as soon thereafter as the proper tests and gauging can be completed.

Lot No. 2. Fifteen thousand (15,000) gallons lard oil on the 16th day of April, 1865, or as soon thereafter as the proper tests and gauging can be completed.

Lot No. 3. Ten thousand (10,000) gallons sperm oil on the 1st day of June, 1865, or as soon thereafter as the proper tests and gauging can be completed.

Lot No. 4. Fifteen thousand (15,000) gallons lard oil on the 1st day of August, 1865, or as soon thereafter as the proper tests and gauging can be completed.

No bid will be considered unless from a manufacturer of the article.

No part of the oil proposed for, and to be embraced in, the contracts under this advertisement will be accepted, received, or paid for, until it shall have been proved, to the entire satisfaction of the person or persons charged with its examination, test, and inspection, to be of the best quality pure winter strained or bagged oil, and free from mixture with other or inferior oils and adulterations.

The usual means for determining the character and quality of the sperm oil will be employed, viz: specific gravity, burning, the amount of residuum, and any other proper tests to arrive at correct conclusions that may be deemed necessary.

The lard oil will be subjected to special tests, and will be rejected unless found to be, in regard to burning and fluidity under reduction of temperature, and in every other respect, equal to that of the standard adopted by the Board, of which a sample will be furnished on application to the Light-House Engineer at Boston, Mass.

The casks must be gauged under the direction and personal supervision of the inspecting officer, by a custom-house or other legally authorized and sworn gauger, according to the United States standard, and the quantity, in gallons, must be thus ascertained and be marked and accepted before they are removed from the cellar or warehouse of the contractor. The temperature of the oil will be accurately noted, and the measurements reduced to the standard temperature of 60 degrees Fahrenheit by tables prepared for the purpose.

Proposals will be received and considered for each lot separately, or for all of the lots, at the option of the bidder; but no bid will be considered for a less quantity than that specified as one lot, to be delivered at one time and place. Each bid must state explicitly the rate per gallon, in writing, the number of the lot or lots bid for, and the place of delivery, conforming to this advertisement.

Bids submitted by different members of the same firm or copartnership will not be considered.

The Light-House Board, under the authority of the Department, reserves the right to reject any bid, although it may be the lowest, for other considerations than the price.

No bid will be considered for any other kind or description of oil than those specially called for in this advertisement.

A bond, with security to the satisfaction of the Department, in a penalty equal to one-fourth of the amount of each contract made under these proposals, will be required of each contractor, conditioned for the faithful performance of the contract, to be executed within ten days after the acceptance of the bid.

Each offer must be accompanied by a written guarantee, signed by one or more responsible persons, and known to the Department by such, or certified by a United States district judge, attorney, navy agent, or collector of the customs, to the effect that, if the bid be accepted, the bidder will duly execute a contract in conformity, according to the provisions and terms of this advertisement, within ten days after acceptance; and that in case the said party offering shall fail to enter into the contract as aforesaid, he or they guarantee to make good the difference between the offer of the said party and the next lowest bidder. All bids must be sealed and endorsed "Proposals for oil for light-houses," and then placed in another envelope, and directed, prepaid, to the Secretary of the Light-House Board, Washington City.

All bids will be opened publicly at the hour and on the day specified.

Payments will be made for the several lots of oil within thirty days after they shall have been received by the United States.

By order of the Light House Board.
