PRESIDENT WANTED-BY JANUARY 1st, A. J. W. BRADLEY'S PATENTED DUPLEX BLLIPTIC STEEL SPRING SKIETS. PATENTED DUPLEX RILIPTIC STEEL SPRING
SKIETS.

This invention consists of Duplex (or two) Elliptic Steel Springs, ingeniously braided tightly and firmly together, edge to edge, making the toughest, most elastic, fiexible, and durable spring ever nied, enabling the wearer, in consequence of its great elasticity and fieribility, to place and fold the skirt when in use as easily and with the same convenience as a silk or muslin dress. It entirely obviates and silences the only objection to hoop skirts, viz: the annoyance to the wearer as well as the public, especially in crowded assemblies, carriages, railroad ears, church pews, or in any crowded place, from the difficulty of contracting them to occupy, while giving the skirt the usual full and symmetrical form, and is the lightest and most stylish and graceful appearance for the street, opers, promenade, or house dress. A lady having epioyed the pleasure, comfort, and great convenience of wearing the Duplex Elliptic Spring Skirt for a single day, will never afterward willingly dispense with the use of them. They are the best quality in every part, and by far the lightest, most durable, comfortable, and economical skirt made. Merchants will be supplied as above, and ladies in most first-class retail stores in this city and throughout the different States.

HENRY WARNER, 702 Franklin street.

The following valuable Oil Lands constitute the basis of the Company:

Tract No. 1—Known as the "Berry Farm," containing 164 acree, owned by the Company in fee simple, situated in Wood county, West Virginia, directly upon the Ohlo river. Several comptent judges have visited this property, all of whom agree in the opinion that it prevents unusual evidences of large subterraneous reservoirs of oil

Tract No. 2 consists of a tract of land in Washington county, Ohio, also on the Ohio river, about 1½ miles above Rewport, containing 134 acres. It presents the most extensive ravines, and certain evidences of the presence of Oil; also, innumvable sites for Wells, with several large Oil Springs on one of the runs. There is also in the bluff avaluab even of Coal, fully developed (say six to eight feet thick).

Tract No. 3, containing 20 acres, adjoining the above, with similar developments.

The lengthy river front gives to these properties many advantages, avoiding expensive land carriage for their oil and coal.

No 4 is a tract in fee of 100 acres, near Franklin, Venango county, Pennsylvania, on French Greek.

In addition to the above, there are belonging to the Company two superior twelve horse engines, with beillers. &c., complete; also two substantial derricks, with comp etc. sets of boring tools.

The Company are now engaged in developing the property, working with double sets of hands, under the superink indepee of their efficient President.

The property of the above Company consists of over
450 (four hundred and staty) acres of Land in fee
simple, situated on the Sngar Camp Branch of Staart's
Run, Venango county, Fa., lying between Oil Creek
on a line between the Hyde and Egbert, Story, and McRihenny Farms and the Allegheny river, in the heart of
the oil region, nearly two miles on each side of the
run, of borable territory, with room for the sinking of
hundreds of wells: and is considered by exparienced
persons in the oil business as most invaluable as oilproducing territory. There are oil wells in every direction from this property, producing large yields.
The utmost energy is being, and will be, directed to
the development of this property to make it productive
and remunerative to the stockholiders.
The Company own a lease of one and a quarter acres
on the Culbertson tract, on the Allegheny river, nearly
adjoining continuous pumping wells of forty barrels
per day. This well has just been put in operation; is
420 feet deer, from which they are now receiving
ten (10) barrels of oil per day and increasing. It is
within a few hundred y ards of the celebrated Hussey
and McFride and Heydrick wells, and others which
have and are producing largely. There is room on this
tract for three or four more wells, and on the which
made for the slinking of several other wells.
A harge portion of the stock having already been subscribed the books will remain open for a short period
for the remaining shares at the subscription price, \$2.50
