J. W. BRADLEY'S

PATENTED DUPLEX ELLIPTIC STEEL SPRING SKIETS.

This invention consists of Duplex (or two) Elliptic Steel springs, in geniously braided tigbtly and firmly logother, edge to edge, making the toughest, most classic, flexible, and durable spring ever used, enabling the wearer, in consequence of its great elasticity and fexibility, to place and fold the skirt when in use as easily and with, the same convenience as a silk or muslin dress. It entirely obviates and elleness the only objection to hoop skirts, viz: the annoyance to the wearer as well as the public especially in crowded assemblies, carriages, railroad cars, church paws, or in any growded place. From the difficulty of contracting them to occupying a small space. This entirely removes the difficulty, wille giving the skirt the usual full and symmetrical form, and is the lightest and most stylish and graceful appearance for the street, opera, promenade, or house dress. A lady having enjoyed the pleasure, comfort, and grace to remove the street, opera, promenade, or house dress. A lady having enjoyed the pleasure, comfort, and grace to remove the street, opera, promenade, or house dress. A lady having enjoyed the pleasure, comfort, sand great convenience of wearing the Duplex Elliptic Spring Skirt for a single day, will never afterward willingly dispense with the use of them. They are the best quality in every part, and by far the lightest, most durable, comfortable, and economical skirt made. Merchants will be supplied as above, and ladies in most first-ciass retail stores in this city and throughout the different States. 4 e16-2t if - -AMUSEMENTS. A CA DEMY OF MUSIC.
