This invention consists of Duplex (or two) Elliptic Steel Springs; ingeniously braided tightly and firmly together, edge to edge, making the toughest, most elastic, flexible, and durable spring ever need, enabling the wearer, in consequence of its great elasticity and firmly and with the same convenience as a silk or musin dress. It entirely obviates and silences the only objection to hop skirts, viz; the annoyance to the wearer as well as the public, especially in crowded assemblies, earriages, railroad cars, church pews, or in any crowded place. The entirely removed the assemblies, earriages, railroad cars, church pews, or in any crowded place. The entirely removes the discounty, while giving the skirt the usual full and symmetrical form, and is the lightest and most stylish and graceful appearance for the street, opera, promenade, or house drees. A lady haying enjoyed the pleasure, comfort, and great convenience of wearing the Duplex Elliptic Spring Skirts for a single day, will never atterward willingly dispense with the use of them. They are the best quality in every part, and by far the lightest, most durable, comfortable, and economical skirt made. Merchants will be supplied as above, and ladies in most first-class retail stores in this city and throughout the different States.
