Excellent indications within a hundred yards of this lease have been discovered. 4 A lease of one and a quarter acres on the MAPLE Farm, on Dunkard Creek, some two or three hundred yards from the cele brated Wylie Well, the first pumping well found on the creek, yielding forty barrels per day; there are also the St. Clair and Floneer Wells, three wells at the depth of 600 feet, and all producing a supply of oil. The Company have erected an engine near these wells, and are now boring with every encouragement of success 5 A lease of two thirds of an acre of bottom land on Dunkard Creek, adjoining the village of Mount Morris. This lot is nearly opposite the Patrick Donly farm, on which there is an Oil Spring, affording the best oil indications in the county. An engine is about being placed on this lease 6. A lease of three acres oil land of P. L. Tygard, adjoining the village of Blacksville, on Dunkard Creek, adjoining the syllege of Blacksville, on Dunkard Creek, in the neighborhood of a fine surface show. The Greene county amber oil is the clearest and purest Carbon yet discovered, and commands from eight to ten cents per gallen more than the Kanawha and Venango oil, and it is confidently expected this will become the most important oil region of the State. A fund is reserved in the treasury for developing the land, and improvements will be carried on with the greatest energy. The property is not incumbered with any reservation to the original owner, and the prospect of early securing a large oil product, which the natural position of the land, the surface indications and the successful flow of oil in the immediate neighborhood, give most unmistarable evidences that success will follow our efforts—there can scarcely be a doubt but that our Company will at an early day be enabled to make as fair returns to the stockholders for the amount invested as any other yet formed. Excellent indications within a hundred by and sof this lease have been discovered. 4 A lesse of one and a quarter acres on the MAPLE FARM, on Dunkard Creek, some two or three hundred yards from the cele brated Wylie Well, the first pumping well found on the creek, yielding forty barrels per day; there are also the St. Clair and Pioneer Wells, three wells at the depth of 600 feet, and all producing a supply of oil. The Company have erected an engine near these wells, and are now boring with every encouragement of success. 5 A lease of two thirds of an acre of bottom land on Dunkard Creek, adjoining the village of Mount Morris. This lot is nearly opposite the Patrick Donly farm, on which there is as Oil Spring, affording the best oil indications in the county. An engine is about being placed on this lease. 6. A lease of three acres oil land of P. L. Tygard, adjoining the village of Bloadwille, on Dunkard Creek, in the neighborhood of a fine surface show. The Greene county amber oil is the elearest and purest Carbon yet discovered, and commands from eight to ten cents per gallen more than the Kanawha and Venango oil, and it is confidently expected this will become the most important oil region of the State. A fund is reserved in the treasury for developing the land, and improvements will be carried on with the greatest energy. The property is not incumbered with any reservation to the original owner, and the prospect of early securing a large oil product, which the natural position of the land, the surface indications and the successful flow of oil in the immediate neighborhood, give most unmistakable evidences that success will follow our efforts—there can scarcely be a doubt but that our Company will at an early day be enabled to make as fair returns to the stockholders for the amount invested as any other yet formed.
