## THE PRESS.-PHILADELPHIA, THURSDAY, JANUARY 5, 1865.

delphia: Sig: Un my arrival to day. I found the heautiful sword which your letter of the 28th instant informs me is presented to me in the name of the people of Phila-delphia, in memorial of my defence of Pennsylvania. In accepting this sword, permit me to return through you, to the authorities and people of Philadelphia, my most heartfelt and grateful thanks for this distinguished.

you, to the authorities and people of Philadelphia, my most heartfeil and grateful thanks for this distinguished honor, which, I am led to belleve, is more due to the efforts of the brave officers and men whom I led to vic-tory than to any personal merit on my part. To be thus honored and distinguished by my fellow. To be thus honored and distinguished by my fellow. To be thus honored and distinguished by my fellow. To be thus honored and distinguished by my fellow. To be thus honored and distinguished by my fellow. To horeact in the future taz scale and didlity with which I have cancestly endeavored, so far as my ability per-milited, to execute the high trust which the Government has deemed me worthy of. For the kind and complimentary terms in which you have conveyed this gift. I ber you to accept my thanks, and to receive the regret I feel that the exigencies of the public service prevented my receiving from your Major General United States Army. The following is the insoription on the sword : "Uty of Philadelphia to Major General George G. Meade, U. S. A., February 22, 1864, in grateful ac-Inowiedgement of the deliverance of Peinspirania from the rebel invasion, by the matchless valor of the army which heled to signal victory on the memo-rable field of Gettysburg, July 3, A. D. 1863." AGBRCULTURAL SOCIETY. The property consists of one hundred and thirty (130) acres, in fee simple, of valuable Lubricating Oil Land, comprised of three tracts, situate upon the right bank of Sugar Creek, Venango connty. Fennsylvania. Sugar Creek runs on a course nearly parallel with Oil Greek, at a distance of about seven miles from it. It rises near the headwaters of Oil Greek, and empites into French Greek, above Franklin. The Company's property has been carefully selected, and has all the usual surface indication of good oil. territory. One hundred acress of the land are flat or bottom Land, with a front on the Greek and Hastings Run of aboutane mile, giving an aboundant space for drilling a large number of oil wells. Wells of Lubricating Oils have been struck on adjoining farms both above and below, upon the creek, and a well yielding twenty barrels per day is within one-fourth of a mile above the Company's lands are situated immediately opposite this tract upon Sugar Greek. The Russell Oil Company's lands are diversed. ever; the watchmen assorted, in the presence of a Allen, that no man could have entered the building Mr. Collector Thomas recalled.—I have had very little to say to him in regard to his private affairs; I think he said he was about to purchase a factory in Delaware county; he has stated that he owned very considerable stock in different oil companies. George H. Smith sworn.—I have been at the custom house, and have examined the premises well; in company with Mesers. Blackburn and Tagger made many experiments; we went there for that express purpose; the entrance doors from the vestibule to the main room, that must be en-tered in order to get to the apartment where the vauit is located, are arranged with pulleys, and they make a very peculiar noise when the doors are opened or closed; either swift er alow movements, the noise made is very singular; I make no mistake about this effect of the opening or closing the doors; these are doors that must be opened to get into the unaccustomed, it is rather startling; while I was looking at and examining the windows, Mr. Black-burn and one of the watchmen either closed or opened due to dor; state startling; while I was looking at and examining the stinding noise startled me; I turned quickly, and said, "What the devil is that "" the noise sounded like the groan of a person; never heard such a singular noise made by a door. The watchmen and several other witnesses were The wells in medicalely opposite this tract upon Sugar Creek. The wells in this vicinity yield the Lubricating Oil, worth per barrel double he price which is paid for the Oil Creek Oil; and although the wells are smaller, yet it is believed that oil is more certainly obtained as the result of the drillings. The large frank upon the creek, to be owned by the Company in fee simple, will of course prevent any interference with the wells. It is proposed to lease to responsible parties small lots upon the Company's lands, the leasees paying all the experies of drilling, &c., upon the neual terms, viz. Delivering to this Company one haif of all the oil pro-duced free of expense. The Company will retain a large working taplial to be employed in drilling a number of wells. All necessary machinery will be at trates by the bart of these operations. large yields of oil will be obtained, paying handsome divi-derds to the subscribers. A limited number of shares may be had at the off eo of GEORGE HENDERGON, JR., Stock Broker, No 223 DOCK Street, where the prospectus and all necessary information can be obtained det 61.64\*

the field of Gettysburg, July 3, A. D. 1863," AGRICULTURAL SOCIETY. The Philadelphia Society for Promoting Agricul-re held their stated meeting yesterday. A sample [oats, seven feet sight inches in height, and a sam-le of barley, consisting of about 70 stalks from one rain, raised in the Santa Cruz Valley, Oalifornis, ere presented to the society by Fred. McCirellish. The annual election of officers resulted in the hoice of the present incumbents, except P. R. reas, assistant secretary, who declined, and Dr. A. McCires was chosen in his place. It was resolved that the usual spring sale of stock, inder the auspices of the society, be held by Mr. Herkness.

The Executive Committee was instructed to re-port upon the propriety of offering prizes for essays. Adjourned.

THE MAN OF ICE.

The members of the Fairmount Engine Company have made of ice a very fair representation of a-man, the size of life, and placed it in a niche in front of their elegant house. The well-arranged monatache, gracefully adorning the lip, and the fob-chain and seal, show that considerable talent and patience have been exercised in the construc-tion of the figure. An innocent amusement has thus been afforded to Young America, who gaze with pleasure upon the stately figure of the Fairy boys' handlwork. handlwork.

The watchmen and several other winesses were called, but not being present, a further investiga-tion was postponed, the magistrate asking that ball to the amount of \$\$0,000 be given. Mir. F. O. Brewster, for defence, was surprised at such a demand. In the case of the Pennsylvania Bank, where there was a deficit of \$250,000, only \$10,000 ball was required. We are ready to give ball to the amount of \$5,000 or \$10,000. Mir. Mann remarked that the ball ought not to be fixed at less than \$25,000. Mir. Brewster. The Constitution requires that ex-cessive ball shall not be required. Mir. Mann. A person in a case like this might readily pay \$5,000 or \$10,000 ball. Mir. Brewster.
