Blood, fever, kleptomania, hidcous orgasm, are satiating in our midst, and seemingly we have no power to crush these devilish incubi. Our magistrates are meeting and solemnly affirming that they will inflict the heaviest penalties upon those who carry concealed weapons. The press is

calling for some means whereby this mad amuck of desperation may be impeded, if not absolutely In New Orleans and San Francisco vigilance committees have been found to be singularly efficacious. The number of divorces is said to have increased 22% per cent. during the past year. The literary and artistic circles have just been shocked by the most scandalous moral obliquity of a well-known and talented individual in connection with that of a Washington authoress of certain glittering inde-cencies, which have been freely copied by the press, and have given to her a questionable poetic fame. Altogether we emulate Rahvlon finely and non sibly hold a candle to Sodom and Gomorrah.

One of our great sugar refineries has just recommenced work, after having been idle since May last. The proprietor at that time conceiving that sugar would undergo a very marked decline, refused to purchase any stock, and, discharging all the hands closed his doors. A week or two since he went into a calculation which developed the very indelectable fact that he had lost nearly half a million of dollars by his mistaken policy of inaction. He is now going to press matters in his refinery, "hit or miss," to em-OPYDYKE VERSUS WEED. The unsatisfactory termination of this suit, through the failure of the jury to agree upon a verdict, does not seem to have produced any marked impression upon the public mind. Judging from the conversation which one hears, the public is profoundly careless as to which way the case may ultimately terminate. Among politicians the exact mately terminate. Among politicians the exact converse of the proposition holds true. Our merchants and mechanics refuse to admit it as one of the causes celebres, earing nothing for either of the gentlemen, desiring to see libel punished if committed, but having no personal preference whatever. Moreover, they are heartly sick of the interminable thing, and very justly, too. How fortunate if, like Jarndyce v. Jarndyce, it might be baried in a fog, and nover reach the world at large!

BAVANNAH is to be aided. Such is the decision arrived at by the Produce Exchange. The New York and Washington Steamship Company have tendered the use of the steamer Rebeca Clyde, and a particite and charitable firm has offered to do the lading. So it seems after all the absurdity and burlesquerie which have unfortunately attached to the matter hereto-fore, that we are to deposit our mite in the bread-treasury of the recovered city. Curious this ne-cessity for so much debate, for so many wild specu-lations, for such stern suspiction of Ool. Allen—in short the necessity for so much corporate stupidity as a section of the Chamber of Commerce evinced.

THE CALL OF LAST JULY.

Mr. RIDDLE, 'f Delaware, offered a resolution instructing the Secretary of Was to report to the Senate the number of men furnished by the loyal States under the call of the President in July last for 500,000 men. He said the bformation called for is very auxicusly looked for by thousands of cittzens in all the loyal States, and more perticularly in those States which border upon the States in rebellion, and which have responded to every diaft made upon their people by the greed mations of the President.

On the 19h of December last, it appears that but two sundred and forty thousand of the five hundred thou said all: dor were chiained, leaving a deficiency of two hundred and sixty thousand in consequence of this, a draft of three hundred thousand has been ordered by the President. By the consus of 1850, the States mentioned in my resolution contained in round numbers twenty-tire millions of people, including the District of Columbia. This number is doubtless, greater new, but I will assume it to be the same. The State which I in part represent here had a population of one hundred and sixty thousand two hundred and sixty the out of this population Delaw are furnished two thousand four hunered and sixty the mount a little more than her quota of the 600,000. But an idea has gone abroad that the small States, where the drafts are enforced with case and rapidity, must be taxed to fill up the deficiency created by the failure of the draft in the larger States. I think the senate will gladly gives he Secretary of War the opportunity to give the information, for it is called for in the kindest spirit to that discept and I think he will cheerifully to give the information, for it is called for in the kindest spirit to the total control of the Committee on Military Affairs, and it was so referred. Mr. SHERMAN was opposed to the increase unless it could be shown that it was actually necessary.

Mr. CHANDLER presented a letter from the Secretary of state recommending the increase

He thought the consulat Halifax ought to the better paid than he is, and he should you for the proposition to increase his salary.

Mr. CONNESS, of Galifornia, was in favor of the resolution, and spoke at length upon its merits.

Mr. RICHARDSON, of Illinois, believed the whole fault was with the Governor of Colorado, who acted no dcubt upon the bid of the Administration. He was opposed to the resolution because it held private soldiers for the fault of their commanding officers. He believed the Indians to be the most treacherous and perficience of people, but he did not think Government had a right to pursue such a mode of warfare as Col. Chevington did.

Mr. DOOLITTLE, of Wisconsin, denied that a private soldier was bound to kill women and children if commanded to do so by the superior officers. No court martial would convict a soldier for refusing to obey such orders. He was in favor of the resolution.

Mr. POMEBOY moved to strike out so much of the resolution as relates to the sur pension of pay, and make it apply to private; because the laws of the army wrievers sirict, and compelled privates to obey orders.

Mr. POMEBOY accepted Mr. Wilson's amendment in place of the one proposed by him.

Mr. POWELL, of Kentucky, opposed the resolution because he did not believe in punishing men without a fair trial. If the facts alleged against Colonel Chevington were true, he ought to be tried by a court-martial and shot to death.

Mr. POWELL, of Kentucky, opposed the resolution in the amendment of Mr. Hendricks, of Indiana, the Senate proceeded to the conspicuous crime, which the Senate ought to be swift to putish.

RELIGIOUS INTELLIGENCE. AN ERROR CORRECTED.—The chapel at the corner of Eleventh and Wood streets has been merely sub let for the partial use of the Second Congregational Church. The original lease is held for the Church of the New Testament (T. H. Stockton, pastor), which has occupied the house for more than two years past, and will do so hereafter, except at the times assigned to the other Church. According to

A YEAR'S WORK.—Bishop Stevens, assistant Bishop of the Diocese of Pennsylvania, reports that, during the last year, he held 83 confirmations at. which 807 persons were confirmed, preached 153 sermons, and delivered 77 addresses, conscorated 1 church, reopened 2, and laid the corner-stone of 2, held 11 ordinations, attended 18 communion services, and travelled 6,805 miles. Bishop Potter, the

chief Bishop of the Diocese, although in frail health; has nevertheless performed considerable Episcopal MEMBERSHIP.—According to the statistics of the annual Minutes for 1864, the total membership of the Methodist Episcopal Church for 1864 is 927,316, against 923,894 for 1865—an increase of 3,992. The Advocate and Journal says this increase is only apparent, as the two Colored Conferences, Delaware and Washington, which report 13,158 members, are mainly composed of societies embraced in the returns of the Baltimore and Philadelphia Conferences, which met in the spring, before the organization of the Colored Conferences.

STATISTICS OF THE UNITARIAN DENOMINATION—
The Monthly Journal, published by the American Unitarian denomination, gives the following information of the number of ministers and societies belonging to the body: The whole number of societies is 250, an increase of three over last year. In 1830 there were 193 societies; the increase for thirty-five years has therefore been about thirty per cent. Of these 259 societies 67 have no pastors. The whole number of ministers is 326. This includes professors in colleges, chaptains, &c.; 150 of these are unsettled, 190 settled. Last year there were 348 ministers; loss 17. There are two theological schools in the denomination; in Cambridge, and in Meadville, Pa, The Illness of Bishop Brownell,—The Hartzation of the Colored Conferences.

THE LLINESS OF BISHOF BROWNELL.—The Hartfold papers announce that Bishop Brownell still lingers, though his death may be expected at any moment. For days he has been unable to partiake of load. Once in about twelve hours he experiences an unremittent attack of spasmodic heart affection, from which he rallies, though each time evidently weaker than before. His case is a singular one, for his physicians have repeatedly thought he could not survive.

MAXIMILIAN AND THE CHURCH PROPERTY IN MEXICO.—The Emperor Maximilian announced on the 27th ult. his intention to "revise the operations of the mortmain and nationalization or ecclesiastical property, shaping it on the basis that legitimate tranactions executed without frand, and according to the laws which decreed such amortization, shall be ratified, according to the principle of free and ample toleration, keeping in view that the religion of the State is the Roman Catholic and Apostolic."

American Bible Society.—At the monthly meeting of the managers, Dr. De Witt offered prayer. Encouraging statements were made from agents in Buenos Ayres, Lima, Milan; Persia, China, and Turkey. Among the books presented to the library were diffeen volumes in the languages of Northern Europe, brought from St. Petersburg by Rev. Walter H. Bidwell. The books granted at this meeting were 89,000, mostly for the military hospitals, for prisoners of war at Fort Delaware and Elmira, and for freedmen. Of these, 56,000 were for the United States Christian Commission; several grants to feeble auxiliaries; 266 to captains of vessels sailing for foreign ports, and four volumes, in raised letters, for the bind. During eight months the society has received \$407,891, issued ten millions of volumes, 412,000 in grants, of which 227,000 were to the U. S. Ohristian Commission.

"Books are now being printed in behalf of this society in various parts of the world, as in Turkey, India, China, Italy, Germany, and Russia.

"We have now in preparation electrotype plates for a Hawaiian Family Bible, and for the Dakota Testament; while the plates of the Arabic Bible alone are estimated to cost about \$55,000; and to these are to be added plates for the old Slavic Testament, and the Slavic and Bulgarian Testament. The expense of these works will necessarily be very great, while the works themselves are of immense importance to the religious interests of mankind.

"The agencies of the society to Mexico, South America, and the Levant, are still successful, as well as the work of colportage abroad, but they are now carried on only by heavy expenditure."

A PRESENT FOR THE POPE.—The Paris Siècle says that "a handsome piece of furniture, intended to contain spiendidly-bound translations in all languages of the papal bull 'Ineffabilis', promulgating the dogma of the Immaculate. Conception, is at the present moment being constructed in Paris for presentation to his Hollness. The bindings are to be executed by Paris houses, and the whole will probably be exhibited before being sent off to Rome. The Monde has expressed a hope that the work would be terminated this year; but, whatever activity may be displayed, there are doubts as to whether the exhibition can so take place; the bull has still to be translated into Arabic, Turkish, Turcoman, Coptic, and Abyesinian; there are also wanting translations in the languages of Mexico, California, the Republics of Central and Southern America, the Republics of Central and Southern America, the Empire of Brazil, the Guyanas, the Antilles, Hayti, and the Philippine and Sunda Islands; as to the Iroquofs, Algonquin, and Oeage tongues, several lit guists have undertaken them. But the Tyrolean, the Ruthenian, Magyar, Circassian, and Finnish are not yet represented, nor the different dialects of Italy and Spain. The bull 'Ineffabilis' is also awaiting translations in the Gitana, the Norman, and the Savoysian."

A SHADOWN HOST.—A correspondent of the Staunton Specialor (rebel newspaper), writing from Lewisburgh, Greenbrier county, Va., gives a description of a remarkable atmospheric phenomenon witnessed in that town. It was an apparent procession of shadowy forms like those of human beings—thousands upon thousands in number—moving through a deep valley, in clear view of the spectators, and finally ascending a teep mountain and disappearing. They were moving North as fast as their serial legs could carry them, and were probably the North Carolina Quakers, who are said to be quitting that commonwealth for more peaceful be quitting that commonwealth for more peaceful aboass in the free States.

The annual message of the Governor of New Jersey, which was delivered to the Legislating of that State on which was delivered to the Legislature of that State on Wednesday, states that the receipts into the State treaeury from all sources during the year ending Nov. 30 amounted to \$421,028, which, added to the cash on hand, made a total of \$535,683. The disbutements during the

The Governor estimates the receipts during the present year far above the ex-penses, and he, therefore, feels authorized in saying that no tax will be levied in 1805 for State purposes. He thinks before the close of the present fiscal year the State debt will be reduced to \$2,000,000.
