This time Erlanger, who has heretoiore been the engineer, is to be lett out in the oold, Messre. Hotse and Williams undertaking the businees themselves. The first of these is the editor of *The Index*, the London rebel organ, a cle-verly conducted paper, sustained entirely, by South-ern money, and curlously well-adapted to English offend John Buil's self-love. Mft. Hotze is an Americabled Europe in 1857 as an attaché ta Gen. Thayer, of Alabema, when United States Minitaet to Brus-sels. As the law of our country prohibits any such office, he remained but a short time, travelled, re-turned to America, and utimately turned up in his present capacity. Increased softwiry is manifested among the blockade-running business at present, no less than dive steamers having been recently is unohed in the Olyde for that purpose. MAGNIFICENT PROVISION FOR THE ORPHAN CHILDREN OF SOLDIERS AND SAILORS.

The donation of three thousand shares of stock in the Jerrey Oil Well, by Dr. Albert G. Egbert, to Mrs. Rev. E. W. Huiter, for the founding of a Home for the orphan children of our soldiers and sailors, proves to be of far greater value than the first notices had led the public to suppose. The Jersey Oil Well is located on the celebrated Egbert Farm, and the present market value is \$2 per share, making

and the present market value is a per share, making the actual present value of Dr. Egbert's donation \$6,000, with a isrge prospective increase. It yields, besides, a dividend of three per cent a month, equivalent to \$1.200 per annum. The ait is hence a truly munificent one. An institution for the mainte-nance and education of the orphan children of sol-diers and ealiors is about being established in Morcer county. Pa., with an end/wmenn of \$200 000. on-
