Mr. Zane (U.) thought that the bounty was not the difficulty in the way of recruiting, but the knowledge of how many men each ward had to contribute was the impediment. As soon as that was determined the people would awaken to their interests and enlistments would be rapid. He hoped the ordinance would be withdrawn for a week.

Mr. Brightly (O) moved to refer the bill to the Committee on Defence and Protection.

Mr. Van Olevu (U.) said he had been informed that the draft had been made on the basis of 450,000, as the Government wanted 300,000 men for the field. The quota for this city would certainly not be less than 8,000. AEOUS. ATHUSIASTIC MEETING ORKING-WOMEN.

The the upper saloon at Jefferson Hall, by the women who have been working on the aremal work. It was orderly, and very enthusiastic. The women have entered into the work with a degree of earnesiness that almost inspires success. It was an adjourned meeting from the year 1861. The president, Mrs. Martha Yeager, took the chair at 7½ o'clock, and called the meeting to order.

The call having been read, Mrs. Yeager said that the subject which has called us together this evening is of more importance than it was in the year 1861, when we met in Temperance Hall, on Second Street. We find that, in consequence of the contract system, that our work is gradually diminishing, and we are likely to be left to the mercy of heartless contractors. [Applause.]

Some of these are aliens, and should they bedrafted uncer the military law they would claim exemption on the plea of alienage, while our husbands, fathers, sons, and brothers have to go, in henor and duty, to fight the battles of our country, while these very aliens would grow rich upon their ORKING-WOMEN. The quots for this city would certainly not be less than \$0.00.

Mr. Cattell (U.) hoped the bill would not be postponed. Mr. Rosengarten, one of the commissioners, had called upon him and inquired if any resolutions were to be presented relative to the bounty fund. The printer faving under a mistake in the blanks, he was delayed in printing others until it was seen whether this meeting of Council would make any change.

The motion to refer to the Committee on Defence and Protection was not agreed to—yeas 4. nays 16.

Mr. Cattell moved to smend the bill by inserting that the substitute must be furnished prior to the draft; in order to obtain the \$300, and to serve three draft, in order to obtain the \$300, and to serve three draft, in order to obtain the \$300, and to serve three years.

The bill, as amended, was passed.

A communication from the Uniof Engineer of the Department of Surveys was read, in which the delay of phacing the iron structure on the Chestnutstreet bridge was charged to the contractors. It was the opinion of the Engineer that all of the castings could be completed in three months.

Mr. Gran, chalrman of the Committee on Water, reported a bill making an appropriation of \$16,000 to supply additional water, to the Twentieth ward. It proposes to lay a 30 inch main along Poplar street from the Spring Gardon reservoir. The bill was passed. bands, fathers, sons, and brothers have to go, in honor and duty, to fight the battles of our country, while these very altens would grow rich upon their very blood. It is not necessary to expatiate. We must be brief when "traitors brave the field." [Rounds of applause.] Our business is to make a direct appeal to the President of the United States, who will listen to us. As the presiding officer of the meeting in 1861, I have called you together this evening. I have invoked a reunion, for in union there is strength, and all that is necessary at present is to pass resolutions in order to bring directly before President Lincoln our business, and then await he issue. We have no time to lose. Moments are of diamond value, and therefore, in order to expedite our business, the secretary will read the preamble and resolutions prepared for this occasion:

Whereas, There seems to be a very extraordinary and increasing desire on the part of contractors to monopolize the work of making up the army clothing for the Government of the United States; and Whereas, it is impossible for some of the said contractors to do full justice to the Government, but must necessarily reduce the rate of wages for labor to starvation prices, and to curtail the measure of the material used in making up the work; therefore,

\*Resolved\*, That we respectfully call the attention of the Inited States Government, the fact that the con-It proposes to lay a 30 inch main along Poplar street from the Spring Gardon reservoir. The bill was passed.

Mr. Gray (U.) also reported a bill making an approportation of \$5,525.71 to the Department of Water Works, to pay bills incurred in the years 1861, 1863, and 1864. The bill was passed.

Mr. Riche (U.), chairman of the Committee on Schools, make a report, with a bill annexed, appropriating \$1,871.64 to pay certain ground rents, &c., due in 1864. The bill was passed.

Mr. Cattell (U.), chairman of the special committee to whom was assigned the duty of proceeding to Washington, reported that the committee had held a conference with Henry C. Léa, Esq., who had recoived a letter from the Provost Marshal General, stating that in making up the quots of the Eastern district of Penneylvanis the term of service of a great many men was unknown to the Department, and consequently they did not enter into the credits given to the city. The necessary information having since been received, the credits would be given, and the enistments of December, 1864, also added thereto. The committee desired to report progress. Mr. Cattell read in place a supplement to the bill reorganizing the police department of the city. The supplement provides that the Mayor shall appoint one hundred additional men, to be distributed in such districts as the Mayor may deem proper.

Mr. Cattell related several Instances of the old gang of Schuylkill Rangers having committed various outreges on citizens, such as robbing women of their shawls and knocking them down. The Chief of Police had done all he could to stop the outrages, but there was not enficient men to guard the wards lying in the outer districts. need in making up the work; therefore, Resolved, That we respectfully call the attention of the United States Government to the fact that the con-tract system, to rome extent, is arrayed against honest, labor, and that in the immense increase of business the most honest inspectors of clothing, as made under this system, may be deceived. Resolved, As a matter of simple justice, we earnestly solicit that a commarison he made hattern the contract. Resolved. As a matter of simple justice, we earnestly solicit that a comparison be made between the work that we are ever ready and competent to furnish, by obtaining the material directly at the arsenal, and that made in many instances by contract.

Resolved. That the lowest is generally the meanest of all bidders, and requires the most elepoless watching.

Resolved. That we appeal to Abraham Lincoln, the President of the United States, in whom we recognize an honest man, the noblest work of God, and trust and finally believe he will have the arceusl work restored.

Addinguest. filmly believe he will have the arieusi work restored. [Appiause].

Resolved, That the officers of this meeting be requested, and they are hereby instructed, to proceed to Washington at once, and present to President Lincoln a copy of these proceedings.

Resolved, That the president of this assemblage be requested to call a public meeting, as speedily as possible, to announce the result of the interview with the President of the United Sixtes.

These resolutions were unanimously adopted.

Mrs. Brooks delivered a brief though very pointed address, which frequently elicited rounds of applause. This lady said that the work had been diminishing at the arsenal for some time, and now it is all gone except shirts, and these are offered of Police had done all he could to stop the outrages, but there was not sufficient men to guard the wards lying in the outer districts.

Mr. Spreing (U) thought the deficiency in the appropriation for this year would be one million of dollars for municipal purposes alone. He thought that the Mayor could take at least twenty-five men wards.

Mr. OMERLY (U.) moved to strike out 100 and insert; 50. Not agreed to—yeas 6, nays 12. The bill was passed.

Mr. Marue (U.) offered a resolution for the approximation of the special content of the s bill was passed.

Mr. Maruel (U.) offered a resolution for the appointment of a select committee to report whether any of the public buildings owned by the city can, without detriment, be adapted to the purpose of a House of Correction. Adopted.

The bill from Common Council, making an appropriation to the Bosrd of Controllers to the Public Schools for the year 1865, was taken up in Committee of the Whole, Mr. Gray in the chair.

Mr. Richie (U.) moved to postpone the bill one week. Not agreed to.

Mr. Richie (U.) moved the following amendment: "For such increase of salaries of male teachers as may be determined by the Controllers, not exceeding twenty per centum increase on the salaries now paid, the sum of twenty thousand and forty dollars." In advocating the amendment he said that if the schools were closed these teachers could make their fortune. The law requires them to be married men, and he could not see any logical comparison between the increase of the pay of these gentlemen and that of policemen, watchmen, and others. A school teacher should be an educated gentlemen, and the pay now given them was wholly inadequate to their support.

Mr. Barlow (U.) said there were about 1,300 teachers, of. whom chout ninety were males. If this amendment passes, let the money be given to those (some nine hundred in number) who receive from \$300 to \$350, and under, and not to those who now get from \$1,800 to \$2,250. If the amendment was to increase the pay of assistant teachers, he would cheerfully vote for it.

The schiect was discussed at considerable length, and the amendment sustained on the ground that inthishing at the arsenal for some time, and now it is all gone except shirts, and these are offered to us at the expense of the poor old shirt makers. The women on military clothing can make up all the shirts in two or four weeks that are now to be made up, and then there will be no more work for anybody. Must we first starve the poor old shirt women, and then ourselves? How has it been at the arsenal? When application is made for work, we are first asked. Have you a sewing machine? If we reply no, then we are rejected. Why is this? Are men there interested in sewing machine? Let me give you a list of the jected. Why is this? Are men there interested in sewing machines? Let me give you a list of the prices paid by the contractors and those paid by the Government: Cont'rs prices. Arsenal prices. Trousers 17@20 "
Blouses 13@16 "
Davalry jackets 40@10 "
Infantry coats 50@75 "
Great coats 40 " These are the two rates. Now, the Government makes nothing by the contractors. Now, what are we going to do in such a case as this? The women who can do four or five times the work that is given out, are supplied with a bundle of shirts which yields us \$1.44 per week. Will that keep you? It will not keep me, I can assure you. Who are some of the contractors? They skimp their work, they cut the capes short, the weists short, and cut the capes short, the waists short, and then if anything is said, they blame the women who make up the work, and are ready to swear that they stole it. Yes, that's it. Now, let us make the Government know who we are, by appealing to its Executive in person; I'll warrant you that our old Uncle Abraham will not turn a deaf ear to us. Our would cheerfully vote for it.

Yes, that'st it. Now, let us make the Government know who we are, by appealing to its Executive in person; I'll warrant you that our old Uncle Abraham will not turn a deaf ear to us. Our relatives in any of them are killed; but there are many poor women, may-be, who have no relatives in the war; they ought to have work, and there will be plenty for all if the arsenal is only put to the fullest capacity. We had Colonel Crosman there once, who was our friend; now we have a New York colonel who would like to take the whole arsenal to hooks af the arsenal. Many of them are the names of mothers of nine-fulldren—I suppose that we night asy four children—I suppose that we night asy four children—I suppose that we night say four children—I suppose that we night asy four children—I suppose that we night thousand men either in the field or killed in battle. What must we do? Why, go to the superiors of the arsenal men. We will go to the President of the United States, and from him down to the very lowest officer, until we get our just lights. We ask for nothing more. [Applains.] General Jackson was the friend of the women. [Laughtor and applains.] General Jackson was the friend of the women. A communication was received from Strickland Kness, Chief Engineer and Surveyor, in reply to a resolution instructing him to report the reason why the iron superstructure of the Chestnut-street Bridge has not been completed, as per terms of contract. The communication sets out that there have been many unavoidable delays, and, amongst others, the inclement weather has rendered it impossible to make the castings, which can only be done in the open air. The contract also requires that the work should be done by Philadelphia mechanics, and it has been found difficult to get the work done as speedily as desired by reason of nearly all Philadelphia mechanics being engaged upon Government work. All the work will be ready for putting together about the first of April next, and in from three to four months after that time it is thought the bridge will be ready for public use.

DIVISION OF A PRECINCY. work, but we want our share. We don't want contract work.

Mrs. Brooks said: No! we want arsenal work, and that we will have, or die in the attempt to get it. [Applause.] We don't want contract work; we don't want to starve by inches, while contractors are loading themselves down with bushels of greenbacks. I am glad to see such a big meeting as this. It shows we are not dead. [Applause.] We are not contractors; we are not of those women who take contracts. This we want everybody to know. We don't want to take work out by the thousands, but we want it regularly, and as fast as we can make it; this we have a rightto, and will, in the name of our soldier husbands, sons, and brothers, demand or die in the attempt. [Great applause.]

Mrs. Yeager, Mrs. Brooks, Mrs. Davison, and Mrs. Alexander, were appointed as the committee to get to Washington. DIVISION OF A PRECINCT. . . Mr. Marces (U.) presented a communication from the citizens of the Third precinct of the Twentleth ward, asking for a division of said precinct. Referred to Committee on Law.

Mr. Brady (U.) offered an ordinance for the macadamizing of Broad street, from Columbia avenue to Germantown road. Referred to Committee on Highways. The meeting was a very large one, the stairway leading to the saloon being filled. It adjourned to meet at the call of the president, Mrs. Yeager. FRANKLIN INSTITUTE MONTHLY MEETING.
At the regular monthly meeting of the Institute, held last evening, the yearly report of the managers was read, which showed a gratifying increase in the interest of the public in the Institute. The election for officers resulted in the choice of the following: President, William Sellers; vice presidents, J. H. Towne, Fairman Rogers, and J. F. Frazer; secretary, H. Morton; treasurer, Frederick Fraley.
Mr. Thos. Shaw exhibited his patent lubricator for engine cylinders, which is so constructed that by a single revolution of the cock the oll will be transferred from the cup to the cylinder without a possibility of the escape of steam. Mr. S. also exhibited specimens of glass tubing for steam ganges, made by Mr. Gillender, and Mr. Blackwood's hydraulic jack, which has a chamber on the outside of the harrel for the reception of a plunger, operated by a FRANKLIN INSTITUTE MONTHLY MEETING. Highways.

Mr. Everman (U.) offered a resolution instructing the Department of Surveys to have surveyed the property belonging to the city at the northeast corner of Beach and Shackamaxon streets, extending from Beach street to the Delaware river, and including the wharf at Shackamaxon street, and that copies of such survey be deposited in the office of the Department of City Property. Passed.

The fire Department. THE FIRE DEPARTMENT. THE FIRE DEPARTMENT.

The order of the day, being the appropriation to the Fire Department for the year 1865, having arrived, the ordinance was taken up.

Mr. Simpson (U.) moved to strike out the item making an appropriation of \$400 to each of the following companies: Columbia, Friendship, Reliance, Spring Garden, and Western Engines: These hand engines were of no use to the city, and were never even used. barrel for the reception of a plunger, operated by a lever. This jack can be used both vertically and ever even used. The motion was lost. Prof. Vanderweyde exhibited a number of fine A motion to strike out the hose companies was also voted down.

Mr. Simpson opposed such a large apprepriation as was contemplated. There were too many fire companies. The damage done by water was in most cases larger than that done by fire, and it had been found, over and over again, that if there were fewer fire companies the loss at fires would be considerably diminished; and if any one were to attempt to interfere with the firemen at a fire, it was well known what kind of a reception he would get. Our Fire Department was called a volunteer fire department, but the expense of maintaining it was four times as much as a paid fire department could be maintained for.

Mr. Wolder (O.) defended the Fire Department; the expense of maintaining it was less than in the city of Boston, where there were fewer companies. photographs.

J. J. Field's improved candle was exhibited. On the lower end of this candle, is a conical enlargement, so that the candle will fit in any sized socket. A motion to strike out the hose companies was L. Saarbach's improved pipe was also exhibited.
Mr. Vidal's improved car spring and apparatus

Mir. J. H. Meissner exhibited his improved bolt for securing armor plates to vessels. The centre of this bolt is composed of strands of wire, and the point is a screw which penetrates the wood at the back of the armor. These bolts have proved to be very successful under source trials. HOSPITAL STATISTICS. HOSPITAL STATISTICS.

The statistics of the Cuyler U. S. Army Hospital, Germantown, Pa, during the year 1864, are as follows: Number of patients remaining in hospital December 31, 1863, 422; number admitted during the year 1864, 2,174; total number of patients, 2,603; returned to duty, 1,290; transferred to other hospitals, 413; discharged from the U. S. service, 82; descried, 83; died, 25; transferred to the Veteran Reserve Corps, 178; absent on furlough December 31, 1864, 161; total number discharged from hospital during the year, 2,202; number remaining in hospital December 31, 1864, 401. The number of men sent to duty during the year were equal to twice the capacity of the hospital. The population of the house is changed entirely every three months. Rate of mortality less than one per cent. Total capacity Mr. Wolbert (O.) asked why that motion was made.

Mr. Evans (U.) I make that motion because I consider that company a rowdy, ruffianly set of men and a disgrace to the fire department.

Mr. Wolbert (O.) There is not a company which the gentleman who has just sat down would rather trust with the safety of his home and family than that very Independence Fire Company. The gentleman has attacked this company, not to-day, but often before, and he will find that the oftener he attacks them the stronger they will be. He differed with some of the companies in politics, but he never opposed any of them. He did not expect to gat that company differs from him in politics he gets up here to deprive them of the appropriation made to them by the committee on the subject.

The sum of \$101,626 is apprepriated to the Fire Deof mortality less than one per cent. Total capacity for patients, 646 beds. RELIGIOUS MEETINGS. RELIGIOUS MEETINGS.

Mr. RITCHIE (U.) presented a communication from a convention of representatives of the several wards, held on the 18th inst., praying Councils to increase the bounties to volunteers, so as to avoid a draft. The document sets forth that agents in our midst are paying from five to six hundred dollars for men to be credited to different counties and to mines are bying from the to six hundred dollars for men to be credited to different counties and to New Jersey.

On motion, the rules were suspended, and Mr. Van Cleve (U.) presented in place an ordinance supplemental to the ordinance making appropriations to volunteers. The bill provides as follows:

To men enlisting and credited to the city quota—
\$400 for one year, \$450 for two years, and \$500 for three years. It also provides that \$300 be paid to enrolled citizens who furnish a substitute.

Mr. Van Cleve said that Bucks county had filled its quota by paying \$400 bounty to one-year nen. In this city but few enlistments were being hade, the average not being one a day. He considered conscription as a last resort in a republican government, and was in favor of paying sufficient to induce veterans to recollett.

[Before Mr. Recorder Eneu.] BHAMEFUL BUSINESS.

Joseph Pulty, a young man, was arraigned yesterday, on the charge of conspiracy and malicious mischief. The following facts were elicited: 'Two aged malden'ladies named Moore, of very respectable character, cocupy a portion of the house at No. 2000 Brandywine street. They have a parlor and two rooms in the second story. The lower and third story part of the building is occupied by a family named Pulty, consisting of Hiram Pulty, whie, and mother, and Joseph, the defendant. It seems, as is alleged in the complaint, that the Pulty family desire to force the two Misses Moore to abdicate, and to effect this end have resorted to the meanest kind of work. At unecasonable hours, when complainants had retired for the night, there would often be a great rattling of things on the fisor above them; such as stamping, jumping, or throwing down things; moving heavy articles from one part of the room to the other, thus disturbing the peace and quietness of the ladies. At other times some one of the Pulty family would put cayenne pepper in a heater known as a Baltimore stove, down stairs, and, the room occupied by the complainants would become filled with the effluvium emanating from the combustion. The ladies thus so meanly annoyed were compelled to open the windows of their room to let in the fresh air, to keep themselves from suffocation. On other coassions assafeetida would be thrown into the stove, and thus the aged ladies were more greatly annoyed than before. Of course it was almost impossible to catch BHAMEFUL BUSINESS. 1864. NEW YORK LINES. 1864. THE CAMDEN AND AND PHILADELPHIA
AND TRENTON RAILROAD COMPANY'S
LINES, FROM PHILADELPHIA TO
NEW YORK AND WAY PLACES, themselves from subcation. On other occasions assascetida would be thrown into the stove, and thus the aged ladies were more greatly annoyed than before. Of course it was almost impossible to catch the perpetrators in the act, and therefore evidence up to the legal requirements was difficult to obtain. Fortunately, however, for the cause of justice, a witness was brought to the stand. She testified that on New. Year's night she visited the Pulty family, and while there saw Joseph, the defendant, take the cayenne ipepper cruet and throw the conflects into the stove. In a few minutes the two old ladies up stairs commenced sneeding, first one and then the other. The sneezing was quite frequent, and presently she heard one of the window-sashes being raised. Witness remonstrated with Joseph, and said it was a great chame to do so.

The complainants testified that on Sunday last, on returning from church, they could not enter their room because of its being filled with a noxious smoke or vapor. One of them on inhaling it was seized with a violent pain in her head and breast, and became very sick. The windows had to be raised, and thus the room became cold and comforters. The defendant was bound over in the sum of \$800 to answer the charge of conspiracy and malicious mischief. at L. F. M., via Camden and Amboy, C. and A. Rrpress.

Francis Blake, a poor, miscrable, whisky-soaked fellow, was arraigned yesterday on the charge of being a "professional bummer." He was sent below as a vagrant. It seems that on Wednesday, evening he entered a yard of a house on Delaware avenue, near Pine street, where a number of wash clothes were hanging frozen upon the line. Francis proceeded to divest himself of the remnants of a shirt he had worn for some time, and, after sundry gyrations, incident to a person in his drunken condition, succeeded. After some trouble, he got a frozen shirt from the line, but he found it no easy matter to put it on his person. He tried first one way, then another, but all in vain. He was taken into custody, and disposed of yesterday as above stated. STORY OF A FROZEN SHIRT. J. E. Summer vs. Jacob Monk, S. E. Foulke, and Frederick E. Swope, trading as Monk, Foulke, & Swope. This was an action brought by plaintiff to recover on a bill of exchange for ten thousand dollars, the same havingsbeen given by defendants as hand money on an agreement or contract for the purchase of certain oil lands in Venango county. The defence allege that the contract was procured and [made by misrepresentation and deception, as to the yield of oil of the well or wells on such tracts of land, the flow being much less than stated, and that therefore they were not bound by their agreement to buy nor to pay for the bill of exchange in suit. Jury out. McMurtrie for plaintiff; B. H. Brewster and Crawford for defendants

Wm. Edgar Hatfield vs. John Shields. This suit was brought under an old act of Assembly, passed 1728, to recover from defendant, who is a minister of the Gospel, a penalty of £50 for having performed the ceremony of marriage, wherein plaintiff's daughter was one of the parties, she being at the time a minor of about it years of age, without the consent of the father, and without the names having first been published. For the defence, it was not denied that defendant performed the marriage ceremony, but it was shown by the girl herself that she and her husband imposed upon him, in falsely representing that he was from Maine, and of age, and she representing that she was more than 17 years old, and was from New York; and, under this state of facts, it was contended that plaintiff should not recover. Judge Stroud charged, however, that the provisions of the act of Assembly are plain, and could not be disregarded. The jury rendered a verdict for plaintiff of £50, or \$133.33 Pennsylvania currency. jais-12t T. W. BRAIDWOOD, Principal. XX FLINT GLASS LAMP CHIMNEYS. The world wide reputation which these Chimneys have acquired is due to their acknowledged superiority over all others. This superiority is derived from three sources:

Jet. Being fifty per cent. heavier than the common Chimney, they may be handled with much less care.

2d. The oval shape is an adaptation to the flat flames, the Chimney heing at all points the same distance from the heat, so that the danger of cracking by unequal expansion is avoided. MRS. A. R. DUNTON CONTINUES to receive Pupils in PENMANSHIP, in all its branches, at her rooms, 1304 CHESTNUT St. jail-6it the Chimney being at all points the same distance from the heat, so that the danger of oracking by unequal expansion is avoided

3d. The material of which these Chimneys are manufactured is unequalled by any other glass as a rapid-conductor of heat; and, practically, it is found that the combination renders them almost entirely free from liability to destruction by the heat of the flame. Hence the obstacle in the way of the universal use of Carbon Oil, found in the unreasonable expense for Chimneys, has been met and removed by the introduction of DITHRIDGE'S FIRE-PROOF CHIMNERS.

The popularity of these Chimneys has induced some unprincipled persons to make use of our name and trademarks, and their reputation has been partially impaired by the worthlessness of spurious Chimneys sold as ours. Parties who have been sunoyed with the cracking of some glass Chimneys would do well to call and try the XX Flint.
