"ROBERT HONNER, Esq " The Boston Advertiser says: "Frequent allusion has been made to the lectures on Public Law which Mr. Everett was preparing to deliver at the law school at Cambridge. It was his intention to have delivered them during the term which has just closed; but his progress in their preparation was slower than he had hoped, and six weeks ago he had finished but one of them. He had been steadily engaged on them during the winter, however, and declined almost all invitations, that he might com- plete this work." Livring in Riomond.—The Examiner of the 17th says: The restaurants and drinking ssloons advanced their prices on Saturday, putting the rates a peg higher. The advance, they allege, is ne- cessitated by the great rise in the prices of flour and provisions in the market. "The bill of fare in saloons that formerly cost \$10 now cost \$16, and wo the the sulf is are to be had urder \$5. Perhaps it is well that the price of living has come to be defined at last. The thermometer can go no higher than 90; the curren- oy may go to zero, but the charge cannot go above	from small-pox. So much for kook leand. Before us is a letter from an officer at Johnson's Island: "I am taking a descriptive list of the company of which I am 'roll caller' (10 rebs.), and the lightest weight of any one man is 130 pounds, and he is only 18 years of age. I wonder whether as good weight can be shown in the reb's prisons? They are all comfortably olad in good clothing, mostly furnished by the United States; and some of the men have three to six blankets in their bunks." Now, will the News Boknowledge that it has been misled, and give a place to this swidence in its columns? There are a great many people, and se- pecially those who have friends doomed to a linger- ing death in Southern prisons, who would rather re- joice that the News were correct in its statements, and that our Government would mete to rebel, pri- soners precisely that measure of suffering which is inflicted upon our own man.
