Is the entire fee simple interest in 181 (one hundred and eighty-one) acres, situate on the Allegheny river, nearly opposite the "Hoover" Farm, and a little nearer Franklin, at the mouth of Mill Run, having a front of 95 rods on the Allegheny river, and one mile on both sides of Mill Run, with ample boring surface for one CHARLES E. MERKLEE.

The Keyser Oil and Mining Company has been chartered by the Stare of Pennsylvania, for the production of Oil, Salt, and Coal, in the States of Pennsylvania and Western Virginia.
The lands of the Company in Western Virginia, consist of 107 aures of Oil Lands in fee simple, located on the east bank of Monongahela river, about two miles northward from Morgantown, in Morongalia county, and have about 5, of a mile of liver front, and about the same length on each side of Mill Ruu; thus making two miles in length of what is called bottom lands; they also contain two veins of Coal—the Bitminous and Cannell Coal—one being three and a half and the other supposed to be elever feet thick.

In Pennsylvania we have a 25-year lease on the bottom lands of Ira H. Keyser's farm, on the west bank of the Cheatriver, about one and three quarter miles from its mouth, in Fayetta county It is 40 rods on the river and 30 rods deep; thus affording room for at least 12 wells, loget er with the right to mine all the Coal needed from the large Coal veins cropping out on other parts of this farm.

The property of this Company comprises one hundred and seventy (170) acrea of the best Oil Land in West Virginia It is situate in Wirt county, on the Little Kanawha river, and extends along the river about three-quarters of a mile. To this land the Company have an undisputed "fee simple" title. The town of Elizabeth, the county seat, is about three and a half nilles below this property, and about the same distance above are the ceebrated Burning Springs. This land possesses rare advantages from its peculiaristication, being upon the river front. affording, at least, one hundred and thirty acres for boring purposes, besides a large tract covered with valuable timber.

There is a natural Oil Spring near the centre of the tract, presenting unmitatable signs of the existence of large deposits of Petroleum beneath the surface. One of the most experienced Geologists in Panneylva nia has carefully surveyed this land, and it is his epinion that it is equal if not superior to any in the Kanawha Valley for the production of Oil.

It has been purchased solely with a view to its immediate development, and one of the Directors, Mr. Casper L. Rehn, is on the ground superintending the operations of the Company.

All the machinery necessary for boring is constantly of Government, State, and other Stocks and Loans on sommission. the year, this would make the Compa-SEORGE W. HEWES. EDWIS MILLER. 308. L. ROUSTOS HEWES, MILLER, & CO., ASEMBLY BUILDINGS, TENTH
