LAMP CHIMMERS. The world wide reputation which these Chimneys have acquired is due to their acknowledged superiority over all others. This superiority is dorived from three sources: Ist. Being fifty per cent. heavier than the sommon Chimney, they may be handled with much less care. .2d. The ovai abape is an adaptation to be flat fame, the Chimney being at all points the same distance from the heat, so that the danger of sracking by unequal ex-pansion is avoided .3d. The material of which these Chimneys are manu-factured is unequalled by any other glass as a rapid conductor of heat; and, practically, it is found that the combination randers them almost entirely free from liability to destruction by the entroduction of DITHRIDGE'S FIRE. PROOF CHIMNERS. The popularity of these Chimneys has induced some marks, and their reputations thus been partially impaired by the worthiersness of springs for discours. Parties who have been annoyed with the cracking of some gives chimaters would do well to call and try the XX Flint. We have appointed Messrs. PERFINE & DHYDEN, No. 102 South SECOND Street.
