The present and prospective value of the stock of this Company may be inferred from the fact that it owns a fee simple interest in 473 (four hundred and seventy-three) acres of the richest-tested oil territory in Venange county, believed by the most experienced oil men in that region to be expable of producing a net annual in-come to the Company of one and a half million dollars, or three times the entire cost of the stock, which would be equivalent to twenty five per cent. a month on its subscription price, or one hundred and Kity per cent. per annum on the par value.

The following is a description of the Company's pro-One-fourth fee simple interest in the celebrate "Hoover" Farm, situate on the Allegheny river, about two and one-half miles below Franklin, con-taining 292 (two hundred and ninety-two) acres, with 532 rods (or over one mile) front on the Allegheny river, on which there are now twelve leases, each ten rod quare, and from which the owners of the fee simple ge one half the oll, free of all expense. Besides this, there are two wells owned by the owners of the fee, from which they get all the oil.

On this Farm there are now ten wells in operation. producing an average of ten barrels per day, and several others are about being tubed. There are also on it ist (eighty-seven) more lots surveyed, and more than fifty Ont of the twelve wells on this Farm eleven are new paying handsomely; a fact which sufficiently demon-strates the great richness and reliability of the terri-tory. In the entire fee simple interest in 181 (one hundred and eighty-one) acres, situate on the Allegheny river, nearly opposite the ""Hoover" Farm, and a little nearer Franklin, at the mouth of Mill Run, hving a front of 66 rods on the Allegheny river, and one mile on both aides of Mill Run, with ample horing surface for one hundred wells, or Lots of ten rods square. This treat is known as the "Stewart Farm," and is clear of all leases or incumbrances of any kind.

There is now in operation a fifty-barrel well (beside several smaller ones) on the Cochran Farm, which adjoins this on the south. In fact, the "Stewart" Farm is surrounded with good-paying wells, and within a short time a single lease of 80 rods front, on the imme-

is burrounded with good-paying wells, and within a short time a single lease of 80 rods front, on the immediate opposite side of the river, sold for \$165,000 (one hundred and sixty-five thousand dollars.) On this lease a good well has been siruek within a few days. In addition to the territory of the "Stewart" Farm, which is believed to be equally as good as the "Hoover," there are on it a three-story Grist Mill, with fine water-power, a good farm house, and other buildings, hat will be of use to the company.

The durability of this immediate oil section is illustrated by the fact that some of the wells on the "Hoover rated by the fact that some of the wells on the "Hoovrated by the fact that some of the wells on the Monte of the er'. Farm have been pumping for over four years, without any material diminution in their yield, while the oil here produced, from its greater convenience for ranaportation and superior gravity, always commands from one to two dollars per barrel more than the oil at Oll Creak. The officers of the Company feel justified in presenting the following estimate of what, with vigorous management, the above lands can be made to yield for the benefit of the stockholders in a comparatively short time. Bolwithstanding, at the present prices of cil, the Company's annual receipts (without any further development) would be forty thousand dollars, or eight percent, on the cost of the stock.

The President, Mr. Stewart, is one of the most practical and experienced oil operators in the State, and his residence near the Company's property and general oversight of its management is the best guarantee that no efforts will be spared to make the investment profitable. fitable.

The developmentenew being made it his locality, combined with the late strikes on Pit Hole Greek, and other tributeries of the river, show and establish conclusively the fact that time and labor are the only necessary requisites to the obtaining of large paying wells on this territory. The land is subject to two leases of one-half acre each, the Company receiving one-half the oil, and being at no expense.

Second. One quarter lease hold lots Nos. 43 and 49, ALLEGHENY PETROLEUM COMPANY, On the Allegheny river, about one-fourth mile above Horse Ureck, and about thirty rods from a well now said a be producing 40 barrels of oil per day.
