MONDAY, MARCH 20, 1865.

The Wail of Jefferson Davis. JEFFEBSON DAVIS has spoken to the peo-

ple of the South in the language of prophecy and penitence. He may not have intended it, but he plainly predicts the quick-coming overthrow of the rebellion, and as plainly repents of his part in it. Such a document as this would, in ordinary times, stir the dullest people to revolt. The confession of DAVIS must now impel the Southern population to a speedy surrender to the National authority. He asks impossibilities and he recommends impossibilities. And he knew this when he sent his wail into the so-called Confede-New Orleans. rate Congress. The farmers refuse to give their produce to the despots for the wretched paper money of the rebels. To demand this is not only an insult to them, but a robbery to boot. And in order to get food for the army, DAVIS asks for "two millions of dollars in coin !" How is he to get it? One of the Richmond papers urged, a few weeks ago, that the specie should be got out of the Richmond banks; in other words, that these banks should be plundered for the sake of keeping up the rebellion. In fact, DAVIS proposes a grand scheme of spoliation upon the private property of the people of the South. To this end he further proposes that the law should be repealed which prohibits the officers of the army from impressing provisions without making payment at the time they are impressed. His excuse for this is that the limit for issuing treasury notes is nearly reached, and that these notes cannot furnish prompt payment for these supplies; and he coolly adds that the law to raise revenue from taxes is useless, and has only been signed by his ragged Majesty ! And then he utters this most dismal groan : " In this condition of things it is impossible to supply the army, although ample stores may exist in the country." But take the remainder of this forlorn and heart-broken

passage : "Whenever the owners refuse to give credit to the public officer it is necessary that this restriction on the power of impressment be removed. The power is admitted to be objectionable, liable to abase, and unequal in its operation on individuals; yet all these objections must yield to absolute need It is also suggested that the system of valuation now stablished ought to be radically changed. The lerislation requires in such cases of impressment that the market price be paid; but there is really no market price in many cases, and then valuation is made arbitrarily, and in a depreciated currency. The result is that the most extravagant prices are fixed, such as no one ever expects to be paid in coin None believe that the Government can ever reduce in coin the obligation to pay fifty dollars a bushel for corn, or seven hundred dollars a barrel for flour. It would seem to be more just and appropriate to estimate the sopplies impressed at their value in coin-to give the obligation of the Government for the payment of the price in cola, with reasonable , or, at the option of the creditor, to return in kind the wheat or corn impressed, with a reason-able interest, also payable in kind, and to make the obligations thus issued receivable for all payments due in coin to the Government. Whatever be the value attached by Congress to these suggestions, it is hoped that there will be no hesitation in so changing the law as to render it possible to supply the army in case of necessity by the impressment of provisions for that purpose.

It is upnecessary to point out other portions of this message. The whole case is given up. All that we have ever contended would happen to the authors of this conspiracy has already happened, and now the witness is the chief of the conspirators himself. How long can such a rebellion last? endure who are de

hietery submitted even in the barries of the suburbs. At Middletown, Dauphin county, and the villages along the chore clear to Columbia, in Lancaster county, the destruction of private property and the suffering among individuals is immense. The fires in several iron furnaces have been quenched, and, of courte, the furnaces will chill. Thousance of dollars' worth of lumber, usually stocked at Marieta, Columbia, and Middletown, was swept away. The bank in front of the clip has been lined all day with thousands of people, watch-ing the progress of the flood. Families are being removed from the streats in the lower section of the clty, which was not approached by the waters of the great flood of 1846, but which are now considered in imminent danger of being overflowed. Our clty water works are completely submerged, and all the pubps stopped. ABBIVAL OF THE MONITOR MONTAUK. The monitor Montauk, which was recently engaged at Fort Fisher, and struck by over 200 shot, was towed up to the navy yard, on Saturday, where her fighting material will be exchanged for 15 inch guns, and some slight repairs be made to her turret

and machinery. A VERDICT SET ASIDE.

The proceedings in the case of FRANKLIN and BENJAMIN W. SMITH, of Boston, who were tried by court-martial for frauds upon the Government, found guilty, and each sentenced to two years' im. nt and \$20,000 fine, have been set aside by the President.

It exceeds by thirty has never falled to yield a handsome revenue to the companies fortunate enough to own it. The oil is of a superior quality, and readily commands a high freshet of 1846. Thousands of timber logs, with millions of feet of sawed lumber, have already price in the market.

The other tracts are on leases. The one on Oher-ry Tree Run, in Venance county, is a most valuable property. A one-hundred barrel well has been struck on this run, a half a mile from the property leased by the Aurora. The Big Tank Company's leased by the Aurora. The Big Tank Company's land is close to the property, and here again a well said to yield one hundred and thirty barrels. per day has been struck. Wells are going down above and below this property with fine show of oil. This tract is not over one and a half miles from the Eg-bert Farm, upon which are the celebrated Maple Shade, Jersey, and Coquette Wells, all of which have produced over five hundred barrels per day, and are now yielding from two hundred and fifty to five bundred barrels. Books for subscription will be opened this morning at the office of the Combe opened this morning at the office of the Com-pany. No. 128 South Sixth street. A limited number of shares will be sold.

PINE GROVE PETROLEUM COMPANY .- Directly in the heart of Venango county, where the soil it-self exhales the odor of petroleum, and where old women in times gone by used to gather the viscous liquid for medicinal purposes, is situated the tract of land purchased by the Pine Grove Betroleum Company. The Company have purchased eighty-five acres, in fee simple, directly in the centre of the nve adres, in fee simple, directly in the centre of the olesginous clay. P. Janney, a citizen known and esteemed by everybody, is the president of the Com-pany, and Col. John K. Zeilin, of the Commonwealth Bank, is the secretary of the Company. The Com-pany has a great deal of valuable territory. The simple fact is that they are in luck.

On the Graff and Hassem tract, which adjoins them on the south, they are now developing, and have two wells, one of 108 and one of 90 barrels per day. To the north they have the Oorn Planter water works are completely submerged, and all the pumps stopped. It is conceded on all hands, alike by our oldest it habitants and experienced river men, that this is the most immense flood that has taken place in the Sucquehanna within the memory of man. DANVILE, Pa., Maroh 18.—The most destructive flood ever heard of is now rating on the north branch of the Susquehanna. The railroad is sub-merged, and all ravel suspended. All the bridges on the west branch as far as Wil-liamsport are gono. The Lacka wanna and Blouss-burg Railroad is under water in places the feet. The caral in many places is completely destroyed. Half of Danville is under water, and the river is ratidly rising. Company. Their 150 barrel well is close to us. At the low price of the stock, being offered at 25 cents per share, every one will have the opportunity of securing an interest in most valuable land lossted in Venango county, which, with the proper energy in developing, can be made to prove as remunorative as the lands of the most favored companie now in operation in Venango county.

Mr. J. Massey Martien, a prominent geologist, reports that this tract promises more righly than the fabled El Dorado. There is no company extant offering corresponding inducements for investment

Half of Danville is under water, and the river is rapidly rishy. The wires south have been broken by the cables scross the Surquehanna, at Havre de Grace, being carried away. We are consequently without de-spatches from Baltmore and Washington. BALTINORE, March 19.—The break in the tele-graph at the Surquehanna is not yet repaired, and all messages have to be sent across the river by the boat. This necessarily causes considerable delay, but it will probably be remedicid in the coule of to morrow. It is not certainly known as yet to what extent the cable is damaged. It is probably only broken loose on one side, and as soon as the high water passes off can be under run and readjusted. The weather continues clear and pleasant. GOLD GOING DOWN .- With gold the ory is still down it goes. It is confidently believed that it will not go below 100, and holders may console them-selves with the reflection that it will touch bottom at that figure. Money is, at best, a slipp modity to deal in, and the best possible way to invest a portion of one's surplus revenue is to purchase a new spring outfit at the Brown Stone Clothing Hall of Rockhill & Wilson, Nos. 608 and 605 Chestnut street, aboye Sixth.

WASHINGTON. WASHINGTON, March 18, 1865. INDIAN SAVAGES ARMED AGAINST US. BY THE PRESIDENT OF THE UNITED STATES, A PROULANATION: Whereas, reliable information has been received that hostile Indians within the limits of the United States have been furnished with arms and muni- tions of war by persons dwelling in a foreign terri- tory, and are thereby enabled to prosecute their savage warfare upon the exposed and sparse settle- ments of the frontier: Now, therefore, be it known that I, ABRAHAM INWOOLN, President of the United States of Ame- rics, do hereby proclaim and direct that all persons detected in that nefarious traffic shall be arrested and tried by court martial at the nearest military post, and, if convicted, shall receive the punleh- ment due to their deserts. CAIRO, March 18New Orleans dates of the 12th have been received. The steamship Evening Star, from New York, had arrived. The trimes correspondent at Mobile bay reports that our fiest had crossed Dog-fiver bar. The rebeis are unusually strict in guarding their lines. A copy of the Tribune has been obtained. It con- tains a report that the commanding general had or- dered all able-bodied men into the ranks, and all others, with the women and children, to be sent out of the dity. The steamer Mobile City, from Memphis, has passed up with 400 bales of cotton and other freight for St. Louis. 17 bales and 74 sacks of cotton have come into Memphis through the lines since they were reopened. Six guerillas were captured on the 13th by dti- zens cutside of the lines, near Memphis, and were brought in to day and lodged in Irving prison. The vickaburg Heraid has information derived from persons lately arrived in that city, to the ef- fect that a few days ago a regiment of Texans moved on the prison pen at Jackson, and literally demolished it, telling the prisoners confined there is to younde for by a robel officer, who stated that he was in Jackson on the day the stockade was destroyed. The Heraid also learns from parties who ran the gauntiet and came in from beyond the Big Black fiver, that the lines of communication between us had been closed by order of Forrest, and no ootton 	Gould's plano forte warerooms, before a select au- dicnee, composed principally of the clergyman of the city, with a sprinkling of ladies and professional gentlemen. Master Richard Coker, principal so- prano of Trinity Church, New York, assisted by Dr. Cutler, organist of Trinity, gave the entertain- ment. Master Coker is a boy of 12 years, and sings like Malibran. We can, perhaps, understand where he gets his volce—that was the gift of na- ture—but whence came the musical sentiment, the erpression, the airs and graces of a prima donna, the technical knowledge and cutivation that would do honor to a woman of thirty? He sang two sa- ored pisces, a ballad, Gottschalk Lullaby, and the grand aris from "I Lombardl," eliciting the entu- slastic admiration of all who heard him. Our citi- zens will have an opportunity of hearing him on the occasion of the forthooming choral festival to be given by Trinity Choir, of New York, at St. Cle- ment's Church, Twentieth and Cherry streets, some time in Easter week. WASHINGTON, MACHINGTON, MACHINGTON, March 18, 1865. INDIAN SAVAGES ARMED AGAINST US. BY THE PRESIDENT OF THE UNITED STATES, A PHOOLAMATION: Whereas, reliable information has been received that hostile Indians within the limits of the United States have been furnished with arms and muni- tions of war by persons dwelling in a foreign terri- tory, and are thereby enabled to prosecute their savage warfare upon the exposed and sparse settle- ments of the frontier: Now, therefore, be it known that I, ABRAHAM Inwooln, President of the United States of Ame- rics, do hereby proclaim and direct that all persons detected in that nefarious traffic shall be arrested and tried by court martial at the nearest military post, and, if convicted, shall receive the punish- ment due to their deserts. In witness whereof I hereunto' set my hand and cause the seal of the United States to be affixed. Done at the City of Washington this the seven- teenth' day of March, in the year of our Lord one	PANIO IN MOBILE-TEXAN SOLDIERS TIRED OF THE WAR, AND LIBERATING UNION PRISONERS AT JACKBON. OATRO, March 18New Orleans dates of the 12th have been received. The steamship Evening Star, from New York, had arrived. The Times correspondent at Mobile bay reports that our fiest had crossed Dog-river bar. The rebeis are unusually stick in guarding their lines. A copy of the Tribune has been obtained. It con- tains a report that the commanding general had or- dered all able-bodied men into the ranks, and all others, with the women and children, to be sent out of the dity. The steamer Mobile City, from Memplis, has passed up with 400 bales of outon and other freight for St. Louis. To bales and 74 sacks of cotton have come into Memphis through the lines since they were reopened. Singuerillas were captured on the 13th by dti- zens outside of the lines, near Memphis, and were brought in to-day and lodged in Irring prison. The Vicksburg Herald has information derived from persons lately arrived in that city, to the ef- fect that a few days ago a regiment of Texans moved on the prison pen at Jackson, and literally demolished it, telling the prisoners confined there to go home, that they themselves had had enough of the war, and were going to Texas. This story was also vouched for by a rebeloffer, who stated that he was in Jackson on the day the stockade was destroyed. The Herald also learns from parties who ran the gauntiet and came in from beyond the Big Black fiver, that the lines of communication between us had been closed by order of Forrest, and no cotton or people are allowed to come within the Union lines. Also, that a goody number of the late Gene- ral Hood's command are scattered through the gounty from Bodney to Yacoo Otty, and that they are levying black mail on all cotton coming in gamb	Gould's plano forte warerooms, before a select au- dicnee, composed principally of the clergyman of the city, with a sprinkling of ladies and professional gentlemen. Master Richard Coker, principal so- prano of Trinity Church, New York, assisted by Dr. Cutler, organist of Trinity, gave the entertain- ment. Master Coker is a boy of 12 years, and sings like Malibran. We can, perhaps, understand where he gets his volce—that was the gift of na- ture—but whence came the musical sentiment, the expression, the airs and graces of a prima donna, the technical knowledge and cutivation that would do honor to a woman of thirty? He sang two sa- cred pisces, a ballad, Gottschalk Lullaby, and the grand aris from "I Lombardl," eliciting the entu- slastic admiration of all who heard him. Our citi- zens will have an opportunity of hearing him on the occasion of the forthooming choral festival to be given by Trinity Choir, of New York, at St. Cle- ment's Church, Twentieth and Cherry streets, some time in Easter week. WASHINGTON, MACHINGTON, MACHINGTON, March 18, 1865. INDIAN SAVAGES ARMED AGAINST US. BY THE PRESIDENT OF THE UNITED STATES, A PHOOLAMATION: Whereas, reliable information has been received that hostile Indians within the limits of the United States have been furnished with arms and muni- tions of war by persons dwelling in a foreign terri- tory, and are thereby enabled to prosecute their savage warfare upon the exposed and sparse settle- ments of the frontier: Now, therefore, be it known that I, ABRAHAM Inwooln, President of the United States of Ame- rics, do hereby proclaim and direct that all persons detected in that nefarious traffic shall be arrested and tried by court martial at the nearest military post, and, if convicted, shall receive the punish- ment due to their deserts. In witness whereof I hereunto' set my hand and cause the seal of the United States to be affixed. DAIRO, March 18New Orleans dates of the 12th have been received. The steamship Evening Star, from New York, had arrived. The rebels are unusually strict in guarding their lines. A copy of the Tribune has been obtained. It contains a report that the commanding general had off-deter dail able-bodied mon into the ranks, and all others, with the women and children, to be sent out of the city. The steamer Mobile City, from Memphis, has passed up with 400 bales of cotton and other freight for St. Louis. 77 bales and 74 sacks of cotton have been broughed of the city. Gould's plano forte warerooms, before a select au- dicnee, composed principally of the clergyman of the city, with a sprinkling of ladies and professional gentlemen. Master Richard Coker, principal so- prano of Trinity Church, New York, assisted by Dr. Cutler, organist of Trinity, gave the entertain- ment. Master Coker is a boy of 12 years, and sings like Malibran. We can, perhaps, understand where he gets his volce—that was the gift of na- ture—but whence came the musical sentiment, the expression, the airs and graces of a prima donna, the technical knowledge and cutivation that would do honor to a woman of thirty? He sang two sa- cred pisces, a ballad, Gottschalk Lullaby, and the grand aris from "I Lombardl," eliciting the entu- slastic admiration of all who heard him. Our citi- zens will have an opportunity of hearing him on the occasion of the forthooming choral festival to be given by Trinity Choir, of New York, at St. Cle- ment's Church, Twentieth and Cherry streets, some time in Easter week.
