The Peace Democracy a Failure. GOOD ADVIOR FROM ME, JEWETT—LETTER PROM A STATE-RIGHTS-ANTI-COERCION DEMOCRAT. STATE-RIGHTS-ANTI-CORRCION DEMOGRAT.

[From the New York Tribune.]
Subjoined to a missive from Mr. Wm. Cornell
Jewett, we print a letter from Mr. William M.
Corry, a leading "State-Rights-anti-coercion Democrat," of Onto, which seems to us descriving of the
gravest consideration. How far or in what respect
the principles and views of Mr. Corry differ from
those of Messre, Jefferson Davis & Company does
not appear by the letter.

We have so little sympathy with "State sovereignty" in any of its phases that we cannot assume
to judge imparitally in the premises; but we warn
Mr. Corry and those who propose to unite in his
proposed Convention that war exists in our country,
and that the Federal Constitution is very clear, as
to the criminality of "adhering to the enemy, giving him aid and comfort," Beware!

THE PEACS DEMOCRACY. THE PRACE DEMOCRACY.

The Peace Democracy.

To the Editor of the New York Tribune:
SIR: Having been identified with the late Cincinnati Peace Convention, having in view independent nominations for President and Vice President of the United States upon "Peace and State Rights principles," and having withdrawn from all co-operation in a proposed National Convention at Philadelphia the 6th of March, and tendered my resignation as chairman of the committee for Pennsylvania, I deem it but just to myself and parties connected to furnish for publication the following letter from the President ci the Cincinnati Convention—more particularly from the fact that said Convention was not held, and my resignation has not been accepted. President of the Cincipant Universition—more particularly from the fact that said Convention was not held, and my resignation has not been accepted.

While appreciating the noble and patriotic purpose Mr. Long and Mr. Corry have in view, I must thus publicly insist upon the acceptance of my resignation: first, to resume my independent national position; secondly, to avoid a position in direct heatility to the Government. Independent of these grounds, one more important in connection with the preservation of our Republic exists—that of a fature unity of the people, upon Democratic principles, in legitimate opposition to the party now ruling under whatever cannor they may hereafter march for renewed power. A peace party at this time based upon an ism, is not only fatal to this result, but disastrous to the security of the Republic from its tendency to provoke revolution. I therefore not only insist upon the acceptance of my resignation, but do most carnestly on behalf of the country, and as a means more than any other to promote pasce, urge upon the members of the Peace Committee to accandon the idea of a convention in April, and instead, to naite with the Democracy, they in harmony, to act with the Administration in a speedy pacification of points at issue between the North and South, thereby not only inserve the Republic and secure returning prospective, but obeck the, at present, purpose of Europe to descroy our nationality. There is but one course now left for the true Liemcorat, that is to maintain his principles for future power and support the Government.

WM. CORNELL JAWETT.

LETTER OF WM. M. CORNELL JAWETT.

resation.

The first is but one course now left for the true Democrat, that is to maintaid his principles for future power and support the Government.

WM. CORNELL JAWETT.

LETTER OF WM. M. CORNELL JAWETT.

MY DEAR MR. JEWETT: I was disappointed in the dispersion of the Peace party were I got to Washington, where I expected to have met S. and yourself. Your letter acvises me of the rupture between you, and it showed that it was on serious grounds. I did not presume to be able to heal it but I meant to hear both sides. As it was I heard neither, both parties being absency, Mr. Long was of course absorbed in his duties at the close of the session, and I was left to my own reflections which I pursued continually. If I had arrived at a conclusion, and I was left to my own reflections which I pursued continually. If I had arrived at a conclusion, and I was left to my own reflections of the session, and I was left to my own redections which I pursued to the collesques. They decided what to do, and thosefore I write in justice to you as well as myself and other collesques. They decided what to absorbed in the lidea of calling a National Convention of the S. R. and Peace party, becauses of the demonination of five dollars, six public house in the Fifteenth ward. The prisoner was committed to find the sciences while Grantis reported to be holding Lee like a vide and Sherman is successfully advanting. Another reason for not making a general movement exists, which is that more good case be done by States, beginning with the State of Ohlo as the most advanced Northern State. For many years several of our leading young men have been instructed in the scientific view of our Federal system as the most advanced Northern State. For many years several of our leading young men have been instructed and the scientific view of our Federal system as the most advanced Northern State. For many years several of our leading young men have been instructed and the scientific view of our Federal system as the most advanced Northern State. F

movement exists, which is that more good can be done by States, beginning with the State of Onto as the most advanced Northern State. For many years several of our leading young men nave been instructed in the scientific view of our leaders! system as laught by the great lights of Virvinia and South Carolina, and they are now it fluential and contageous. I have not otherved the same proparation in any of the States above Madon and Dixon. Pennsylvania has always been colicited by her interests in the wrong direction of consolidation and corporations. She has been, even her Democrats, for banks and tariffs, and of course for a corresponding deformity of the Federal system. New York and New England are worse. New Jersey Democracy is in the fix of Laccoon, the Camden and Amboy Railroad Company being its serpent of Tenedos. Onto, therefore, must lead, and the States west will soon follow her radical Democracy. They have lately been bedeviled by secret semi-military organizations, and for many years inave been instructed by Jackson's physical-force admirers and backers. The vestal fire of pure principle has been kept alive only among us. It shirty years we have asserted the right of militication and secession to be clearly warranted by our Federal system; and just now the disciples begin to multiply in spite of the apparent Southern overthrow. And so we have founded for three months our State Sovereignty Society at C. and have generally discussed the subject throughout the State at large. I spent Sunday at Columbus as I was going on, and found the leaders there in readiness to cooperate. I perceive that The Crisis responded. The Enquirer is not hostile, nor is any other organ. The peace proceedings are helping us.

The elegation, to the right of secession and the wrong of coercion. We hope to succeed by a majority; but, if not, we will split the body and make our own nominations and platform. We will not radies a hand nor give a dollar for the Sotts, but will oppose them a Pourrance. You shall have the report of the

OINGINNATI, St. Patrick's day, 1865.

The Secretary of State has sent to the Legislature of this State his report on crime for 1864, giving the results of information transmitted him by the sheriffs and county clerks.

The convictions at Special Sestions have increased both in counties and cities (particularly the former) during the past year. The charges tried in these courts consist of minor offences, as petit larceny, assault and battery, disorderly conduct, breaches of the peace, vagrancy, and intoxication. The whole number of convictions in courts of record in 1863 was 1,644; in 1864, 1,430; decrease in 1864, 214.

The following are the classes of crimes in which the increase and decrease in counties occur:

A New Gunrowder.—The explosion at Erith has led to the manufacture of a new gunpowder, the discovery of Mr. L. H. G. Ehrhardt, a German. It consists of tannic gallic acid, or the resin of commerce, and chlorate or nitrate of potash. The new gunpowder is said to be of three times the explosive force of that now in use, and one half cheaper. It leaves no residuum when exploded. It can also be kept in megazines with safety, by the resin and preparation of potash being kept separately, and mixed as wanted, both the articles named being incombustible by themselves. If it bears the test of actual experiment a saving of one third will be effected; and, the combustion being entire, it will remove all objections to rifled firearms, such as the fouling of Enfield rifles and Armstrong guns.—
London Times.

THE CITY.

THE STH UNION LEAGUE REGIMENT.

The regiment is now nearly filled, and will pro-bably leave for the seat of war during the present week. The following is a list of its officers: Colonel, David B. McKibbin; lieutenant colonel, William H. Harrison; major, William M. Wor-rall. C. Stokes.
Company E.—Captain, — Cadwalader; first Heutenant, E. W. Croll; second lieutenant, — Company I—Captain, Mark Walter; first lieute-lant, J. F. Sweeton; second lieutenant, Thomas OFFICERS OF THE SCOTT LEGION. OFFICERS OF THE SCOTT LEGION.
The following persons were elected officers of the Scott Legion last Saturday evening: Onarles A. Jones, precident; Col. Casper M. Berry, vice president; Wm. O. Haines, recording secretary; J. Runble, corresponding secretary; Ald. George Moote, tressurer; trustees, Captain John Spear, chairman, Lieut. Col. A. H. Reynolds, and J. J. Isvandel; directors of the manument, Messre. J. Rumble, W. A. Schultz, and L. A. Lorrillard.

Mrs. Gerrett; I feel under great obligations to her for the interest which she has taken in trying to instruct me. When I came here I was unable atmost to read a verse, and now I enjoy that inestimable bleesing of both reading and writing. And now once more I return you my thanks and pray that God may prosper you in your labor of love, which you unceasingly bestow on erring, but not irreclaimable women. M. I. THE TRACT AND MISSION SOCIETY.

THE TRACT AND MISSON SOCIETY.

The thirty-seventh abnual report of the Tract and Mission Society has been received. This society has been steadily progressing in its work, numbering five hundred and thirty-three distributors, and circulating monthly through the city forty thousand English and seven thousand German tracts, with one hundred and twenty french, aided by a generous gift of temperance tracts, from the American Tract Society, accompanying the regular distribution. But, one distributor has died during the vear; some have withdrawn, while others have taken. year; some have withdrawn, while others have take their places. Many have been persuaded to atten the house of God on the Sabbath. Children not be their places. Many have been persuaded to attend the house of God on the Sabbath. Children not belonging to any school have been added to the Sabbath School from month to month. A number of Bibles (from the Philadelphia Bible Society) have been furnished to those destitute and unable to purchase one. The siek and dying have been visited, while intemperance and Sabbath breaking, and other public evils have become alarmingly prevalent in these days. This society has endeavored, through the printed page and personal convered, through the printed page and personal convered though the space. The society has issued four page tracts for the past two months, and have also increased their missionary operations. Weekly meetings have been held on Sabbath evenings during the past year; among the evangelical charches of the city; by this means the cause in general has been promoted, distributors and fun's to add incarrying on the work obtained. Tract distributors monthly meetings have been held in the different districts for prayer and exhortation. It is intended to hold small meetings have been held in the different districts for prayer and exhortation. It is intended to hold small meetings in the courts and alleys of this great city, to be conducted by male members of the churches, aided by tract distributors.

Rev. Mr. Hammond's meeting for children, in Dr. Adams' church, yesterday atternoon, was one of very great interest. The house was well filled, many being seated in the aisles. We noticed silling the ministers present on the platform and through the house, Drs. Adams, March, Brainerd, Stockton, Messrs. Simmons, Henson, W. W. Taylor, Shepherd, Hamner, Robbins, Hawes, Mears, of the American Presbylerian, and Mr. J. N. Baker, of the Sunday School Times. Deep impressions were made upon the minds of all, and several hundreds of the congregation remained for prayer and conversation.

UNION TEMPORARY HOME.

GREENHORN FLEECED.

Three women named Mary Foster, Alice Sullivan, and Catharine Meyers were arraigned yesterday on the charge of robbing a man of all the money he had. The defendants reside on Trout street (alias Pine alley). On Saturday night, it seems, the individual from the rustic scenes of New Jersey visited a house in that classic thoroughfare, imbibed several drinks, and became oblivious to thugs terrestial. Upon restoration to something like consolousness he found himself minus his mouey. The tro of women denied the charge made against them. They were committed to answer.

DISORDERLY BOYS. DISORDERLY BOYS.

The police, under direction of Chief Ruggles, arrested about one hundred boys on Sunday. These precoclous youngsters often indulge in the cangerous pastime of stone-righting; often, while ladles, gentiemen, and children are returning from church. Other squads of boys congregate at street corners; ripe at a moment for mischief. So great a nuisance was complained of to the authorities, and finally Chief Ruggles has perfected an arrangement to rid the city of the annoyance. The boys upon first arrest have been held to keep the peace. Any one of them arrested for the second time will probably be sent to the House of Refuge.

SERIOUS CHARGE. A sergeant of the Provost Guard was placed in the custody of Provost Marshal Palmer, yesterday morning, by the police, on the charge of enticing a soldier of the 5th Connecticut to desert, for purposes of re-enlistment. It seems, that on Saturday night, the sergeant of the guard, having a soldier in custody, called at the Eighth-ward station-house, asking that his prisoner be locked up as he was a deserter. The lieutenant properly refused. Application was made at another station-house and was successful. The prisoner then stated that the servers of the Company feel justified in presumant of the following estimate of what, with vige management, the above lands can be made to yiel the benefit of the stockholders in a comparatively at time:

There is room on this for one hundred lots of ten square, all of which can be leasef immediately for hair the oil, free of all expense to the Company.

Estimating one well to each lot (one hundred well as the content of the content

THE COURTS. Court of Oyer and Terminer—Hon. James R. Ludlow and Hon, Joseph Allison,

Associate Justices.

[William B. Mann, Esc., prosecuting atterney, assisted by T. B. Dwight, Esc.]

The trial of Mary Ann Strine, charged with infanticide, in throwing her child out of a window, was proceeded with.

J. Alex. Simpson, Esc., appeared for the prisoner.

The selection of a jury was proceeded with, resulting as follows: Alexander Russell, grocer; Charles Schnaitman, optician; W. H. Slever, merchant; Benjamin Pennypacker, tinsmith; Themas J. Martin, brick-maker; Louis Brown, grocer; Abram Detwiller, tobacconist; Henry E. Esting, ——; Edw. Frailey, bock-keeper; Chas. Freeston, stone-cutter; Abner Jones, plasterer; John Ashmore, carpenter. Mr. Dwight opened the case for the Commonwealth, saying the case was of a peculiar kind, and none feldem brought before a court. He then stated the law of homicide, and the various distinctions thereof; also the facts of the case, which we publish, as detailed by the witnesses.

Wm. Taylor sworn.—I am the coroner of Philadelphia, and held an inquest on the body of a child on the evening of the 24th June, 1864, at the house of Mr. Shock, at Obestunt Hill; there were no outward marks of violence on the child; did not see the defendant.

Dr. Shapleigh, the coroner's surgeon, testified to having made a post mortem examination on the body of the child. The various medical tests were applied with a view to ascertain if the lungs had been infiated.

Upon opening the scalp; clotted blood was found between it and the bones of the skull; these bones

Dr. Shapleigh, the coroner's surgeon, testified to having made a post mortom examination on the body of the child. The various medical tests were applied with a view to ascertain if the lungs had been inflated.

Upon opening the scalp, clotted blood was found between it and the bones of the skull; these bones were extended through the entire length of the parietal bones; underneath the bones, pressing, upon the brair, I found a clot of blood; in my opinion death was caused by the violence to the head; the child have been inflicted by violent contact with any smooth surface; I could not form an idea of how long the child lived.

We omit the cross-examination, as it was of a purely medical character.

Mrs. Susan Shock sworn.—I live at Chestnut Hill, and have known the prisoner since April 20, 1884; she told me she was a single woman when she came to live with me; after she had been there a short time, I noticed and spoke to her of her condition; she declared she was innocent, and appealed to her Maker to sustain her statement; the child was born on the 23d of June at my house; she came into my room in the morning and told me she was sit; I told her to lie down and rest; I accused her of being about to become a mother and she denied this; I sent for Mrs. Christy and a physician; I first saw the child in the sard between 10 and 11 clotck A. M.; the prisoner salted and acknowledged that she had a child and throw lied the inquest on; there were evidences in the room to skow she had given birth to a child; the child was on which had given birth to a child; the child was on when had given birth to a child; the child was on when had given birth to a child; the child was on when had given birth to a child; the child was on when had given birth to a child; the child are one when had given birth to a child; the child are one when he had given birth to a child; the child was on the had given birth to a child; the child was on the had given birth to a child; the child and child and for the came of the prisoner who the father

minded girl had thrown it from the window through
malice, or in the extremity of her deep agony.

JAMES DUFFY, Marietta, Lansaster co., Pa. tee simple interest in 473 (four hundred and seventy-three) acres of the richest-tested oil territory in Venango county, believed by the most experienced oil men in that region to be capable of producing a net annual income to the Company of one and a half million dollars, or three times the entire cost of the stock, which would be equivalent to twenty five per cent a month on its subscription price, or one hundred and fifty per cent. per annum on its par value.

The following is a description of the Company's pro-

One-fourth fee simple interest in the selebisted One-fourth fee simple interest in any temperature. Hoover'l Farm, situate on the Allegheny river, about two and one-half miles below Franklin, containing 292 (two hundred and ninety-two) acres, with 552 rods (or over one mile) front on the Allegheny river, and the state of the rods. on which there are now twelve leases, each ten rods square, and from which the owners of the fee simple get one half the oil, free of all expense. Besides this, there are two wells owned by the owners of the fee, from which they get all the oil.

On this farm there are now ten wells in operation, producing an average of ten barrels per day and several others are about being fubed. There are also on it is (eighty-seven) more lots surveyed, and more than fifty pplications are now standing to lease the latter for one Ont of the twelve wells on this Farm eleven are new paying handsomely; a fact which sufficiently demon strates the great richness and reliability of the terri-tory.

IS. 18 the entire fee simple interest in 181 (one hundred and eighty-one) acres, situate on the Allegheny river, nearly opposite the "Hoover" Farm, and a little nearer. Franklin, at the month of Mill Bun, having a front of \$6 rods on the Allegheny river, and one mile on both sides of Mill Run, with ample boring surface for one hundred wells, or Lots of ten reds square. This tract is known as the "Stewart Farm," and is clear of all leases or innumbrances of any kind.

There is now in operation a fifty-barrel well (beside several smaller ones) on the Cochran Farm, which adjoins this on the south. In fact, the "Stewart" Farm is seurrounded with good-paying wells, and within a is currounded with good-paying wells, and within a short time a single lease of 80 rods front, on the immediate opposite side of the river, sold, for \$166,000 (one hundred and sixty-five thousand dollars.) On this lease a good well has been etruck within a few days.

In addition to the territory of the "Stewart" Farm, which is believed to be equally as good as the "Hoover's the area of the three properties they good as the "Hoover's they are a the tree to the story Grist Mill with the

which is believed to be equally as good as the "Hoover," there are on it a three-story Grist Mill, with fine water-power, a good farm-house, and other buildings, hat will be of use to the company.

The durability of this immediate oil section is illustrated by the fact that some of the wells on the "Hoover" Farm have been pumping for over four years, without any material diminution in their yield, while the oil here produced, from its greater convenience for transportation and superior gravity, always commands from one to two dollars per harral wore than the oil afrom one to two dollars per barrel more than the oil a

The officers of the Company feel justified in presenting the following estimate of what, with vigorous management, the above lands can be made to yield for the benefit of the stockholders in a comparatively short time:

There is room on this for one hundred lots of ten rods square, all of which can be leasted immediately for one-er '' Farm, in which the Company owns one-fourth in fee of the land interest, the annual net receipts from the latter would

> et Annual Income of the Company..... if it is deemed expedient, at a royalty of one-half the Dil, with covenants binding lessees to sink wells, with A FEW PLAIN WORDS TO SUBSCRIBERS.

You are not asked to subscribe to this Stock with the Hotwithstanding, at the present prices of oil, the Company's annual receipts (without any further development) would be forty thousand dollars, or eight persent, on the cost of the stock. The President, Mr. Stewart, is one of the most practical and experienced oil operators in the State, and his residence near the Company's property and general oversight of its management is the best guarance that no efforts will be spared to make the investment profitable.

Adam D. Williamson, Newtown, Delaware co., Pa.
The property of this Company consists of 337 acres of land in fee simple.
No. 1—Contains 250 acres, situate on the Hocking Hiver, about four miles east of Attens, the county town of Athens county, and about thirty four miles west of Marietts. The Marietts and Cincinnai' Ealived goes through the premises; Sixond's But flows through the entire tength of the farm, and forms a junction with the Hocking Kiver on the property, affording nearly two miles of boring territory.
No. 2—Contains 97 acres, situate about 2½ miles northwest of No. 1. Strond's Run also passes through the tract, upon which there is a large amount of land suitable for boring poroces.

The well known as the "Stalder Salt Well" is on west of No. 1. Schools and a sind a passes through the tract, upon which there is a large amount of land suitable for boring purposes.

The well known as the "Stalder Salt Well" is on Tract No. 1, which, at the time of horing, discharged oil in such quantities that it was found necessary to tube it off.

There are surface indications of oil on Tract No. 2; also, 0il fprings from which Petroleum flows in small quantities at all times. Both of these proporties are in the immediate vicinity of several wells, which are now producing the best quality of landricating Oil.

The amount of boring territory, the convenience of trarsportation which the rairond and river afford, the large deposit of valuable coal which underlies both tracts of land together with the pledge which the managers make that no reasonable cost shall be spared to thoroughly develop the property, render it worthy the attention of those who are desirous of investing money in what promises a rich return.

Subsciption for a limited amount of the stock can be made by application to any of the officers, or at the Office of the Company,
