The present and prospective value of the stock of this Company may be inferred from the fact that it owns a fee simple interest in 478 (four hundred and seventy-three) acres of the richest-tested oil territory in Venango county, believed by the most experienced oil men in that region to be expable of producing a set annual inthat region to be eapable of producing a met annual in-come to the Company of one and a half million dollars, or three times the entire cost of the stock, which would be equivalent to twenty five per cent. a month on its aubscription price, or one hundred and fifty per cent. per annum on its par value. Que-fourth fee simple interest in the celebrates "Hoover" Farm, situate on the Allegheny river, about two and one-half miles below Franklin, containing 292 (two hundred and ninety-two) acres; with 500 con which there are now twelve leases, each ten rod square, and from which the owners of the fee simple get one half the oil, free of all expense. Besides this, there are two wells owned by the owners of the fee, from one nair the oil, free of all expense. Besides this, there are two wells owned by the owners of the fee, from which they get all the oil.

On this Farm there are now ten wells in operation, producing an average of ten barrels per day, and several others are about being tubed. There are also on it [87] (eighty-seven) more lots surveyed, and more than fifty applications are now standing to lease the latter for one-ball the oil to the owners. applications are now standing to lease the latter for one half the oil to the owners.

Out of the twelve wells on this Farm elevers are now paying handsomely; a fact which sufficiently demon strates the great richness and reliability of the terri-tory. is the entire fee simple interest in 181 (one hundred and eighty one) acres, situate on the Allegheny river, nearly opposite the "Hoover" Farm, and a little neares eighty-one) seres, shutto on the Aliegheny fiver, neartry opposite the "Hoover" Farm, and a little nearFranklin, at the mouth of Mill Run, having a front of

hundred wells, or Lots of ten rods square. This tract
is known as the "Stewart Farm," and is clear of all
leases or incumbrances of any kind.

There is now in operation a fifty-barrel well (beside
several smaller ones) on the Cochran Farm, which adcides this on the south. In fact, the "Stawart" Varne joins this on the south. In fact, the "Stewart" Farm is surrounded with good-paying wells, and within s short time a single lease of 80 rods-front, on the immediate opposite side of the river, sold for \$165,000 (one hundred and sixty-five thousand dollars.) On this lease a good well has been struck within a few days. In addition to the territory of the "Stewart" Farm, which is believed to be equally as good as the "Hoover," there are on it a three-story Grist Mill, with fine water-power, a good farm-house, and other building hat will be of use to the company,

The durability of this immediate oil section is illustrated by the fact that some of the wells on the "Hoeyer" Farm have been pumping for over four years, with-out any material diminution in their yield, while the oil here produced from its greater convenience for transportation and superior gravity, always commands from one to two dollars per barrel more than the oil at oil Greek. The officers of the Company feel justified in present-ing the following estimate of what, with vigorous management, the above lands can be made to yield for the benefit of the stockholders in a comparatively sho THE "STEWART FARM." There is room on this for one hundred lots of ten rods square, all of which can be leased immediately for one-half the oil, free of all expense to the Company. If it is the company is the only Company owning so large
an amount of territory on Slippery Rock Creek, which
promites to rival Oil Creek in its production of oil.

If me recent strikes on Slippery Rock Creek have
caused as intense excitement in that locality, and lands
are consequently rapidly increasing in value. Mr. Gill,
of Lawrence county, arrived in the sity from the new
Oil Dorado yesterday, and reports that the new well
was flowing fity barreds per cay, the oil being of the
most excellent lubricating quatity.

The new well has been struck on Slippery Rock Creek,
near the Butler-county line, which proves beyond a
doubt the existence of Oir in that section. Lands are
greatly increased in value. Ten acrea are said to have
sold for ten thousand dollars.

The lands of this company are situated near the lands
