	AGRIOULTURAL SOCIETY. The stated meeting of the Philadelphia Sosiety for Promoting Agrialture was held yesterday morning. A donation of a book entitled "The Cotton Trade," was made to the society. Dr. Konnedy made a skatement in regard to the National land granted for encoational purposes. This State, he said, is divided into three agricul- tural districts, one of which has an agricultural college. The grant should not be given to one in- stitution. An amendment to the bill relating to the matter, to give the proceeds of one-third to the trus- tees of the Agricultural College, and the balance to remain in the treasury until further orders, was passed in the Sanate, but was not resched in the House. There was another proposition in the	THE NEW 7-80 U. S. NOTES FOR SALE. IN SUMS TO SUIT FUEDHABEES. BY	#400,068 71         Worth si present market value	and the Canada. 	AGRIOULTURAL SOCIETY. The stated meeting of the Philadelphia Soliety for Promoting Agriculture was held yesterday morning. A donation of a book entitled "The Ootton Trade," was made to the society. Dr. Kennedy made a systement in regard to the National land granted for estcational purposes. This State, he said, is divided into three agricul- tural districts, one of which has an agricultural college. The grant social not be given to one in- stitution. An amendment to the bill relating to the matter, to give the proceeds of one-third to the trus- tees of the Agricultural College, and the balance to remain in the treasury until further orders, was passed in the Senate, but was not reached in the House. There was another proposition in the House. If out up in this way it will be of no value to the farmers of Pennsylvania, and Dr. Kennedy thought that before the next meeting of the Legis- lature some section ought to be taken to prevent that course. After some remarks on this subject by other mem- bers, the subject of corn sown broadcast was dis- cussed at some length. The Society then adjourned. NATIONAL EDUCATION.	THE NEW 7-BO U. S. Mules must be over two (2) years oid, not less than fourteen (14) hands high, in tull fits free from every blemish or defect which would unit them for is severe work, and must kive, she due fur front is oil' seeth and doveloped the corresponding four permanent teeth, work and must have a head the four front is oil' seeth and doveloped the corresponding four permanent teeth, work and must have she due four permanent teeth,	Phale Br milder a form of m		
	AGRIOULTURAL SOCIETY. The stated meeting of the Philadelphia Soslety for Promoting Agrialture was held yesterday morning. A donation of a book entitled "The Cotton Trade," was made to the society. Dr. Konnedy made a statement in regard to the National land granted for concessional purposes. This State, he said, is divided into three agricul- tural districts, one of which has an agricultural college. The grant scould not be given to one in- stitution. An amendment to the bill relating to the matter, to give the proceeds of one-third to the trus- tees of the Agricultural College, and the balance to remain in the treasury until further orders, was passed in the Senate, but was not reached in the House. There was another proposition in the House. There was another proposition in the dof siz. If out up in this way it will be of no' value to the farmers of Pennrylvalis, and Dr. Kennedy thought that before the next meeting of the Legis- lature some remarks on this subject by other mem- bers, the subject of corn sown broadcast was dis- cursed at some length. The Society then adjourned. NATIONAL EDUCATION. Dr. Charles Heermann will lecture next Mon- day evening in this outy, on the subject of "Na- tional Education." His proposition is to have one uniform system of public education throughout the whole Union, in place of the separate plans and or- manniced sites on the subject of an and or- maniced sites on the subject of the separate plans and or-	THE NEW 7-BO U. 	AGRIOULTURAL SOCIETY. The stated meeting of the Philadelphia Soliety for Promoting Agrialture was held yesterday morning. A donation of a book entitled "The Cotton Trade," was made to the society. Dr. Konnedy made a statement in regard to the Mational land granted for ecucational purposes. This State, he said, is divided into three agricul- tural districts, one of which has an agricultural college. The grant should not be given to one in- stitution. An amendment to the bill relating to the matter, to give the proceeds of one-third to the trus- tees of the Agricultural College, and the balance to remain in the treasury until further orders, was passed in the Senate, but was not reached in the House. There was another proposition in the House to cut this land up into fitteen parts instead of six. If out up in this way it will be of no value to the farmers of Pennsylvalia, and Dr. Kennedy thought that before the next meeting of the Legis- lature some aremarks on this subject by other mem- bers, the subject of corn sown broadcast was dis- cussed at some length. The Society then adjourned. MATIONAL EDUCATION. Dr. Charles Heermänn will lecture next Mon- day evening in this oty, on the subject of "Na- tional Education." His proposition is to have one uniform system of public education throughout the whole Union, in place of the separate plans and or- panized college of Pennsylvania. He has travol- led extensively through the United States and Ev- mentions as resident of Philadelphia, being Dean and Professor of Physiology at the Homeopathio Medical College of Yennsylvania. He has travol- led extensively through the United States and Eu- prope, and is a gentlemen of education and ability. We have no doubt his lecture will be thoroughly and that his views on the subject will be thoroughly explained.	THE NEW 7-30 U. S. NOTES FOR SALE. IN SUMS TO SUIT FURCHABBES. 	AGRIOULTURAL SOCIETY. The stated meeting of the Philadelphia Soliety for Promoting Agriculture was held yesterday morning. A donation of a book entitled "The Ootton Trade," was made to the society. Dr. Kennedy made a systement in regard to the National land granted for estoasional purposes. This State, he said, is divided into three agricul- tural districts, one of which has an agricultural college. The grant social to the pilledelphic to the matter, to give the proceeds of one-third to the trus- tees of the Agricultural College, and the balance to remain in the treasury until further orders, was passed in the Senate, but was not reached in the House. There was another proposition in the House. There was another proposition in the House. There was another proposition in the House to cut this land up into fifteen parts instead of six. If out up in this way it will be of no value to the farmers of Pennsylvania, and Dr. Kennedy thought that before the next meeting of the Legis- lature some remarks on this subject by other mem- After some remarks on this subject by other mem- After some remarks on this subject of "Na- tional Education." His proposition is to have one uniform system of public education throughout the voto Bulon, in place of the separate plans and or- panizations now existing in the several States. The and Professor of Philadelphia, being Dean and Professor of Philadelphia, being Dean and Professor of Philotopix and ashility, and that his views on the subject will be thoroughly explained. LABOR, INCOME, AND REVENUE. As will be scen in another column, this committee of the great Central Fair make, as we presume, their final acknowledgment. Their aggregate re- cepts amount to the princely sum of 2860 000. Mr.	THE NEW 7-BO U. S. NOTES FOR SALE. IN SUMS TO SUIT FURCHABBER. 	AGRIOULTURAL SOCIETY. The stated meeting of the Philadelphia Soliety for Promoting Agrialture was held yesterday morning. A donation of a book entitled "The Cotton Trade," was made to the society. Dr. Konnedy made a systement in regard to the Mational land granted for ectoastional purposes. This State, he said, is divided into three agricul- tural districts, one of which has an agricultural college. The grant should not be given to one in- situation. An amendment to the bill relating to the matter, to give the proceeds of one-third to the trus- tees of the Agricultural College, and the balance to remain in the treasury until further orders, was passed in the Senate, but was not reached in the House. There was another proposition in the House to cut this land up into fifteen parts instead of six. If out up in this way it will be of no value to the farmers of Pennsylvalia, and Dr. Kennedy thought that before the next meeting of the Legis- lature some atom and to be given to one reac- meters, the subject of corn sown broadcast was dis- cussed at some lengt. The Society then adjourned. MATIONAL EDUCATION. Dr. Charles Heermähn will lecture next Mon- day evening in this outy, on the subject of "Na- tional Education." His proposition is to have one unior mystem of public education throughout the whole Union, in place of the separate plans and or- mand Professor of Philadelphia, being Dean and Pro	This-imity THE NEW 7-BO U. 	AGRICULTURAL SOCIETY. The stated meeting of the Philadelphia Sosiety morning: A donation of a book entitled "The Cotton Trade," was made to the society. The Konnedy made a systement in regard to the Mational land granted for ectoasticnal purposes. This State, he said, is divided into three agricul- tural districts, one of which has an agricultural college. The grant should not be given to one in- situation. An amendment to the bill relating to the matter, to give the proceeds of one-third to the trus- tees of the Agricultural College, and the balance to remain in the treasury until further orders, was passed in the Senate, but was not reached in the House. There was another proposition in the House to cut this land up into fifteen parts instead of six. If out up in this subject by other mem- bers, the subject of corn sown broadcast was dis- tate some remarks on this subject by other mem- bers, the subject of corn sown broadcast was dis- ussed at some lengt. The Society then adjourned. Matronale Heermänn will lecture next Mon- day evening in this city, on the subject of "Na- tional Education." His proposition is to have one in the science of public densition faroughout the world education." His proposition is to have one in the science of the separate plans and or- mand Professor of Philadelphia, being Dean Medical College of Pennsylvania. He homeopathio Medical College of Pennsylvania. 	AGRIOULTURAL SOCIETY. The stated meeting of the Philadelphia Soliety for Promoting Agrialture was held yesterday morning. A donation of a book entitled "The Cotton Trade," was made to the society. Dr. Kennedy made a statement in regard to the Mational land granted for ecucational purposes. This State, he said, is divided into three agricul- tural districts, one of which has an agricultural college. The grant should not be given to one in- situation. An amendment to the bill relating to the matter, to give the proceeds of one-third to the tras- tess of the Agricultural College, and the balance to remain in the treasury until further orders, was passed in the Senate, but was not reached in the House. There was another proposition in the House. There was another proposition in the House to cut this land up into fifteen parts instead of six. If out up in this way it will be of no' value to the farmers of Pennsylvalia, and Dr. Kennedy thought that before the next meeting of the Legis- lature some aremarks on this subject by other mem- bers, the subject of corn sown broadcast was dis- cussed at some length. The Scotety then adjourned. MATIONAL EDUCATION. Dr. Oharles Heermänn will lecture next Mon- day evening in this otly, on the subject of "Na- tional Education." His proposition is to have one uniform system of public education throughout the whole Union, in place of the separate plans and or- mand Professor of Physiology at the Homeopathio Medical College of Yennsylvania. He has travel- led extensively through the United States and Eu- opes and is a genilemen of education athory but while whave no doubt his lecture will be thoroughly explained. 	AGRIOULTURAL SOCIETY. The stated meeting of the Philadelphia Soliety for Promoting Agriculture was held yesterday morning. A donation of a book entitled "The Ootton Trade," was made to the society. Dr. Kennedy made a systement in regard to the National land granted for ecucational purposes. This State, he said, is divided into three agricul- tural districts, one of which has an agricultural college. The grant scould not be given to one in- stitution. An amendment to the bill relating to the matter, to give the proceeds of one-third to the trus- tees of the Agricultural College, and the balance to remain in the treasury until further orders, was passed in the Senate, but was not reached in the House. There was another proposition in the House to cut this land up into fifteen parts instead of six. If cut up in this way it will be of no value to the farmers of Pennsylvania, and Dr. Kennedy thought that before the next meeting of the Legis- lature some schon ought to be taken to prevent that course. After some remarks on this subject by other mem- bers, the subject of corn sough to be taken to prevent that course. The Society then adjourned. NATIONAL EDUCATION. To Charles Heermänn will lecture next Mon- day evening in this city, on the subject of "Ma- tional Education." His proposition is to have one uniform system of public education throughout the vector Unlon, in place of the separate plans and or- anizations now existing in the several States. The Octor is a resident of Philadelphia, being Deen and Professor of Physiology at the Homeopathic Medical College of Pennsylvania. He has travel- led extensively through the United States and Eu- media Contral. Fair make, as we presum, Methods College of Pennsylvania. He has travel- led extensively through the United States and Eu- merous to mention, have reason to congratulate Oleghorn, and others of this column, this loot, Mr. Methods College of Pennsylvania.
