THE CITY.

THE LATE GENERAL COOK.

At the annual meeting of the stockholders of the Camden and Amboy Railroad Company, at Bordentown, April 26, 1865, on motion of J. F. Bradley, Esq., the following resolutions were adopted:

Whereas, The stockholders of the Camden and Amboy Railroad and Transportation Company have learned with sorrow of the recent death of General William Cook, for many years the Chief Engineer of the Company, Director, and member of the Executive Committee; therefore

Resolved, That in General Cook's death the Company has sustained a severe loss. He was an able engineer, deservedly ranking high in his profession devoted to the best interests of those he served; practical, economical, and efficient. His services to this Company have been of great use to us for the entire period of its existence. His integrity, urbanity, and tact, and his general high-toned character, gave him great influence with his fellow citizens, as well as his associates, and great power as an advocate and defender of the Company's interests. He had the confidence and attachment of a large number of the leading men of this State, and death could hardly strike a blow which could be more extensively felt in New Jersey than in striking at General Cook.

Resolved, That we sincerely condole with his family in this bereavement, and that the Secretary of this meeting send to them a copy of these resolutions in testimony of our sympathies.

M. C. VOORHEES, Chairman.

SAMUEL J. BAYARD, Secretary.

FIREMEN'S ITEMS.

GOOD INTENT HOSE.—The Good Intent Hose and Hook and Ladder Company have resolved to visit Pittsburg on the third Monday in September next. They will be the guests of the Liverpool Engine, No. 5. They will take with them a new carriage and fifty men.

THE HUMANE STEAM FIRE ENGINE.—The new steamer built for this company was tried on Friday morning last, at the large plug at Fifth and Washington streets. It was nine minutes precisely from the time the word was given until the engine commenced to play. The 1¾-inch nozzle was placed on, and one section of hose. The play was excellent. The distance thrown was not measured, but reported by several parties, and as near as could be ascertained, was about 210 feet. The 215 feet was then tried, and water was thrown 215 feet. The average stream was 140 pounds. The trial throughout was considered very satisfactory.

HIBERNIA ENGINE COMPANY.—At an election for officers of this company, held on Friday evening last, the following gentlemen were elected: President, Colonel James Page; Vice President, Robert Tempest; Assistant, John E. Downing; Assistant Secretary, Frederick W. Wade; Treasurer, Everhart Paul; Recorder, William Powers; Directors, Andrew Casey, James C. Whalley, Frederick W. Wade, Edward Casey.

HOSPITAL ITEMS.

Hugh Slavin, aged twenty-four years, was admitted into the Pennsylvania Hospital on Saturday morning, with one of his legs badly fractured just above the ankle. He jumped from a moving train on the Valley Railroad, near Tuscarora, to regain a shovel that he had dropped. In so doing the wheels of several cars passed over his leg. The mangled limb was amputated.

George Roch, a little boy of seven years old, while playing on a fence in Twenty-second street, above Master, on Saturday afternoon, last, fell to the pavement and fractured his arm at the elbow joint.

CORONERS' INQUESTS.

Coroner Taylor, on Saturday, held an inquest on the body of Richard Hartman, aged 21 years. The deceased was employed as upper part of the mast of the sloop Hope, at Vine street wharf, on Saturday morning. The rope broke which held him, and he fell from a height along to the deck, breaking his head. His skull and neck were horribly fractured. The unfortunate man resided at Camden, N. J. He was the brother of the captain of the sloop.

A CHANGE GRIEVING TO CONDUCTORS.

The conductors on the Pennsylvania R. R. who have been heretofore running over the entire distance between this city and Pittsburg, will to-day assume command of new division trains. The conductors will hereafter run only upon three separate divisions, viz: the Philadelphia, Mountain, and Pittsburg. This will make their work regular, and afford them an opportunity to take a night's rest, as well as enjoy that relaxation which is so necessary to the maintenance of good health. The conductors are indebted for this change to the Superintendent, Mr. Col. Francisus, superintendent of the Philadelphia division.

ADVANCE IN THE PRICE OF LAGER.

We have been informed that with two exceptions all the brewers of the city have formed a union to advance the price of lager beer, and that the 5-cent beverage sold at four cents for large-sized glasses. The size of the glass has since been reduced and the price raised to five cents. This has caused a fall in the sales of lager, and considerable grumbling. In view of the increased cost of all articles used in its manufacture, was not objected to. But at this time the additional advance of one cent per glass is believed by those competent to judge to be entirely uncalled for.

PENNSYLVANIA HOMS FOR INVALID SOLDIERS AND SAILORS.

We are informed that a new institution has lately been organized in this city, the object of which is to establish a home for invalid soldiers and sailors of Pennsylvania, and the widows of those Pennsylvanians who have died while in the service of their country. It is to be inaugurated by a meeting and musical festival, in the Academy of Music, on Tuesday evening, 16th instant. This is a noble and benevolent enterprise, and claims the co-operation of all our fellow-citizens.

WAR FLEET.

About thirty vessels, used for blockading purposes on the coast, are expected to arrive at our naval station, where they will probably be laid up in ordinary. Several picket-boats arrived on Saturday. There is quite a display of war vessels now at moorings near the Navy Yard, the St. Louis, with her lofty masts and heavy spars, and her guns projecting through the portholes, presented a warlike appearance yesterday morning. Quite a large number of gunboats are along the river front, below the navy yard, yesterday afternoon, to get a good view of the steamers.

TONAWANDA AND IRONSIDES.

These great war steamers will be ready for active service in the course of ten days, when both will start for parts unknown.

THE CAPTURE OF BOOTH.

It has been erroneously stated that the detective officers of this city, who went to Washington to assist in the capture of the assassin Booth, acted under the orders of General Augur. The heads of the case are, Joshua Lippincott, Edward G. Carlin, and George H. Smith, of the detective department of this city, reported to Col. Lafayette Baker immediately on their arrival, and promptly and diligently acted in connection with him up to the time his well-laid plans were successful in taking the wretch.

PHILADELPHIA AND LIVERPOOL STEAMSHIP LINE.

Sometime during the present month the first of a line of steamships to steam between this port, Liverpool, and Queenstown, will arrive here. The dock of the Pennsylvania Railroad Company at the foot of Washington street, is being dredged to give a sufficient depth of water to admit of the erection of additional sheds for the storage of freight will be erected.

STEAM TO RICHMOND.

The directors of the Philadelphia, Richmond, and Norfolk Steamship Company have resolved to recommence operations. New steamships are in course of construction, and the trips between this city and Richmond will probably be resumed about the 1st of July.

SHOCKING ACCIDENT.

On Saturday afternoon, during an alarm of fire, a little boy twelve years old, son of the police officer Hart, of the Eleventh ward, had his head jammed between two steam fire engines in the vicinity of Fourth and Girard streets. The lad had been sent on an errand by his mother only a few minutes before the accident. The lad was insensible from the injury he had received. He was removed to the residence of his parents in the vicinity.

FOUND DROWNED.

An unknown man was found drowned on Saturday at Fairmount locks. He was in the dress of a workman, and had been in the water a long time.

FIRE.

On Saturday afternoon, about five o'clock, a fire broke out in the mirror store, No. 631 North Front street. The damage by fire was small, but that from water was heavy.

THE NATATORIUM.

The Philadelphia Natatorium will be open during the entire day, and until nine o'clock this evening, for public inspection.

THE COURTS.

Court of Quarter Sessions—Hon. James R. Ludlow, Associate Justice.

PERSONS DISCHARGED.

A case was heard on habeas corpus, in which an apprentice asked to have his indentures cancelled, on the ground that his master had given up business and gone to the army. He left a man named Simpson in charge of the business, and assigned his apprentices to him. Simpson also went into the army. The apprentice was discharged.

GIRL REMANDED.

Judge Ludlow delivered a decision in the case of Rosanna Braceland, who was committed to the House of Refuge, and her discharge asked for. He said the child was committed at the instance of her mother, because of violent conduct. After her admission she made confessions which clearly showed that her life had been such as to warrant restraint. The child was remanded.

A BEGGING CASE.

A case was heard on habeas corpus in which the discharge of Kate Hannings was asked from the House of Refuge.

Officer Reeder, a beggar detective, testified that he arrested this girl several times for begging and indecent conduct. The last time he arrested her was at the instigation of an officer, to whom citizens complained. She was peddling at the time.

On cross-examination this witness said he saw the girl on another's premises under an execution, and that was when she used indecent language. He had seen her begging money two or three times. The case went over for additional testimony.

THE NINETY-DAY LAW.

Henry Martine, Michael Walters, John O'Hern, and Thomas Garvey, who were arrested at the Baltimore depot, on Saturday last, on the charges of thieves, and committed, by Alderman Bettler, for ninety days, under the act of Assembly, asked to be discharged.

Detective Henderson testified that the men were at the depot the day of the funeral obsequies, moving around among the crowd in a manner that satisfied him they were pickpockets.

Detective Lamon testified that the men were pushing sideways in the crowd, as is usual with professional thieves, and were dressed in spunks, and a portion of the first squad seen was arrested and taken to the station-house. On the return of the officers to the scene, other gangs were working in a similar manner.

Mr. Richard Ludlow, who appeared for O'Hern, handed a paper to the court, saying that it showed his client was in the Street Department in New York.

M. J. McCloskey was called and sworn.—I am a special police officer, and was duly appointed by Alderman Filon; I reside at 183 Varick street; O'Hern holds a similar position to myself; I never knew of his being arrested or charged with stealing.

Held under consideration.

ALLEGED ABDUCTION OF A CHILD.

Mrs. Cameron claimed the custody of her child from a man named Amos Lippincott, Mrs. Cameron testified that her husband deserted her six years ago, leaving her with four children. A number of letters were received by her father stating that her husband was dead, but he was not dead. Last summer he returned, and she thought it was one from the dead, and was so horrified at the sight that she ran away from him. He was not married with Lippincott and diamonds, but went away from here a beggar; he said he was married again; and showed papers to that effect; he introduced Lippincott to her as Ashbury; that the former was a bill-broker; the uncle and his wife visited her, and, although she did not like them, she treated them civilly; finally the uncle took the child while she was sick in bed and carried it off; she then took out a writ of habeas corpus; she believes the child is in Nashville, Tennessee; she told the uncle if he attempted to take the child she would follow him so far as the law would permit; he replied he would have the child far enough away. The case was continued.

The intent of the court was called to a case where a man was ordered to support his wife and two children. He stated that he sent the money at the end of one week and was whipped the man who took it; the next week she did the same thing to another man who took the money; he was willing to live with her provided her mother and sister left the house and kept away from it.

The court ordered the husband to get a place for his wife and notify her of it. If she refused to come and live with him alone then he was her fault. She must not disturbe her family upon him.

THE CASE OF ASSAULTING A WIFE.

In the case of David Mercer, who was convicted of an assault and battery on his wife, a witness was called who testified that Mr. Mercer had a bad wife; he had known him for four years and never saw him in anger.

Thomas Mercer, sworn.—There was a quarrel down stairs between father and his wife; both of this woman's children went to work and she followed father out to the kitchen and threw hot tea over him; father was kinder a great deal towards her than she was to him; she used to call us all Irishtown trash; her general treatment towards father was bad; she attempted to strike my sister and I jumped between them; she had two children by her first husband and father has two by his first wife.

John Mercer sworn.—I am the daughter of Mr. and Mrs. Mercer by the first wife; the difficulty began about my not drinking tea; I never drank tea, and told father plainly he wondered that I could eat of what he drank anything there; she said, "What did you bring your children here for, if you didn't want them to starve?" and threw a tin saucepan at me to hit him; he had his overcoat on, or he would have been badly scalded.

Judge Ludlow said it was his intention to have sent the accused to prison, but he believed there were faults on both sides.

Mr. Mercer said he did not desire to be separated from his wife. She had a daughter nearly twenty-one years of age who earned six dollars a week, and was the cause of all the trouble. She had a son that he treated as his own child, and believed he would have won his entire love and confidence but for the interference of the mother and daughter. Sentenced to pay a fine of $15 and costs.

THE POLICE.

[Before Mr. Alderman Toland.]

INCITING TO RIOT.

On Saturday a female named Maggie Hanley was arraigned on the charge of using disloyal language in reference to the late President Lincoln. She was charged with assassin, "Useless." She was employed with other females in an establishment in the neighborhood of the magistrate's office. For a short time the evidence went that the missile thrown would be thrown from the window. The prisoner was committed in default of $600 bail to answer.

[Before Mr. Alderman Allen.]

SELF-CONFESSED THIEF.

James Morgan was arraigned on Saturday on the charge of stealing some bed-clothing from the sleeping car at the Pennsylvania Railroad depot, in West Philadelphia. He had the articles in his possession when arrested by the police, and finally admitted that he had stolen them. He said he found a window in the car open; he got through it, and was then accosted by the private watchman was going his rounds. The accused was committed to answer.

[Before Mr. Alderman Bettler.]

ALLEGED FALSE PRETENCE CASE.

Edward Clarke, who claims to be, or to have been a captain in the 21st Cavalry, was arraigned on Saturday, on the charge of obtaining fifty dollars under false pretences from a Mr. Desshamp. In borrowing the money the defendant put up a mare as collateral until such times as he could sell the animal. A due bill to this effect was executed and given, and upon which the money was advanced. Mr. Desshamp, hearing the many virtues of the mare so highly extolled by the defendant, proceeded to the stable to look at her. To his surprise he recognized the animal belonged to another party. Hence the suit. The defendant was required to enter bail in the sum of $700 to answer.

SUSPICIOUS MEN.

William Conner and James Haggerty were arraigned on Saturday on the charge of being two suspicious characters. It seems that on Friday night the defendants and a confederate were in a passenger car; their action towards a soldier attracted the conductor's special attention. The soldier got out of the car at Chestnut and Fifteenth streets, so did the three men. William Taggart, the Baldwin House Hallroad Detective, was in the car; he followed to watch the movements of the suspicious men. The soldier became somewhat bewildered, and while he was in that condition the "confederate" hit him, Mr. Taggart stepped out from a dark place and succeeded in capturing two. The third fellow ran away, and was not arrested. The defendants were committed in default of $1,000 bail each to be of future good behaviour and to keep the peace.

[Before Mr. Alderman Jones.]

ATTEMPT TO ROB A STORE.

Early on Saturday evening two men, giving the names of G. Estelle and J. Whittle, were discovered in the act of breaking into a tailoring store on Market street, above Twelfth. They were taken into custody by a couple of police officers. The prisoners, after a hearing, were committed to answer.

REARRESTED.

Thomas Morton, charged with having committed a violent assault and battery on Mr. U. C. Bishop, the keeper of a store on Market street, near Seventeenth, has been recommitted. This was done after the examination on the fact that Mr. B.'s life was thought, could not survive the injuries he had received. Morton and another man, it is alleged, had stolen a wheelbarrow, upon going in search of it, found it in their possession. In the attempt to recover the property he was knocked down and very seriously injured.

READ THE FOLLOWING REMARKABLE CERTIFICATE, WITH AFFIDAVIT:

BEFORE, January 20, 1865

MRS. M. G. BROWN—Madam: I have been to the city several times, but had not time to call.—I have got to where I can hear a little, and I owe it to you. Before ear I have not heard any with for a number of years, I can now hear some while I sit. My left ear, the hearing of which was entirely lost in the year 1861, is quite noisy in my head, so I could not work, accompanied with a ringing and roaring. I was so bad that it would not hear without they would hallloo at the top of their voices. I first got a prescription from a physician, which consisted of almond oil and something else (I can't tell what). I also tried almond oil alone, but it did me no good; then I got some Homœopathic medicines, but it was the same result. I then tried old women's cures by the score; still no benefit; I went to Philadelphia, put myself under the care of eminent artists; I be bored at my ears with instruments, and run others up my nostrils, for five weeks, and ended by cheating me out of seventy-five dollars ($75); all that they did to benefit I received from him. I then saw one of your advertisements; I got the Metaphysical Discovery; first application I used, and have recovered my hearing, which I had lost for years.

I remain yours, truly, THOMAS B. DICKEY,
Oxford, Chester county, Pa.

Affirmed and subscribed to before me this 6th day of March, A. D., 1865.

W. M. FULTON,
Justice of the Peace.

I certify that I know THOMAS B. DICKEY.
