One of these Leases is on Cherry Run, in Venango county, about half-way between its month and the town of Plumer, close to the celebrated Reed Well, which now produces 300 barrels per day, on which this Association is sichting 8 walls; the contract for which is tasen at Bight Thousand Dollars each, including engines, derricks, tubing, &c. It is proposed to sell Interests in one or all of the wells at this rate, no subscription being taxen for less than one hundred dollars, which may be divided in four different wells. Thus: Gost of each different wells. Show of each different wells. Show or 330th interest, at \$25 each. \$100, will give the subscribert Solt interest in at he will as he may showed, or 4.300th interest in four different wells; thus dividing the risks, or he may take a \$20th interest in as many wells as he may desire at the same rate. A quarter working capital, or interest costing \$3,003, may, with favorable indications of oil, be sold for \$5.000 to \$5.000 before the well is completed, while if held and the well is completed the owner derives from his interest an income of from \$3.000 to \$10.000 per annum, if the well will only yield but twenty barrels per day. This is the greatest opportunity ever offered in the oil speculation. The capital required for eight wells is only sixty-four thousand dollars. The office was opened on Monday, the 5th of June, and \$25,000 was taken the first day. We call the attention of persons who may intend investing in oil stock to take interest in these eight wells on Cherry Enn, and the low capital required. Many companies with tracts of far less value have one or two millious of capital and if no oil is atruck all their capital is sink; should this Association fail to strike oil, which is impossible in that section of country, there would only the third dollar be lost—being the engines, derricks, and 12 tubs, would be worth \$2 out of \$3. THE ONLY LOAN IN MARKET now offered by the Government, and its superior advantages make it the FREAT POPULAR LOAN OF THE PEOPLE. Less than \$280,000,000 of the Losz authorized by longress are now in the market. This amount, at the rate at which it is being absorbed, will all be ubscribed for within sixty days, when the notes will undoubtedly command a premium, as has uniformly been the case on closing the subscriptions to other Loans. In order that citizens of every town and section of the country may be afforded facilities for taking the Loan the National Banks, State Banks, and Private Banker throughout the country have generally agreed to re-ceive subscriptions at par. Subscribers will select their own agents, in whom they have confidence, and who only are to be responsible for the delivery of the notes for which they receive orders. JAY COOKE,
