A SHARP DARRBY.-A case was tried before one of the justices of the peace for the city yesterday morning, in which a cute darkey non-suited a white man pretty cleverly. The complainant, some weeks before the charge in affairs, left with the defendant a mute, sitpainting at the time for only a nominal hire, as the animal was only left with the colored individual to save it from the confiscation that was thought would be universal upon the arrival of the Federal troops. The "must" remained in the ne-gro's possession until Saturday last, when the owner put in a claim of \$40 for hire, saying that that was the arrangement. Cuffee declined "shelling out," when guit was brought against him for the recovery of the money, before a justice of the peace. The defendant histened patiencily until the complainant's averment had been heard, and then offset in whole matter by citing the law, showing that at the time of the transaction of the business no white man could legally make any contract with him, he being a stave. Of course, this was a "deadeuer," and the claim for "\$40 rent for a mule" fell through.-- *Motel News*, June 13.
