Every housekeeper in the city and country should use this excellent Can. It is the most convenient and reliable Can in use, and gives entire satisfaction wherever introduced. It is sealed in an instant, by hooking and spring, thus clamping a tin cap over and around the opening, and pressing it upon a ring of cemented paper. The cement in the paper wells by the heat of the fruit, and as the pressing continues the fruit cools, and the scaling is perfect. The cap is unfastened by unhooking the spring and running a thin knife around under the cemented paper.	The above stock is all new, and of the very best quality.
