                                                                                                                                                             standing the fact that numerous imitations of them have been made they still rank superior to any Collars in the market.

They are the only collars lined throughout with cloth, with a layer of naper on each side, and are shaped upon formers, or moulds, so as to it the neck and allow a space for the cravat. The peculiar process used in their manufacture, makes them resemble linen very closely; when finished the fibres of the cloth give the appearance of linen to the paper. They are very strong and do not tear at the button-holes, and are the only collars made that can be turned and worn on both sides without the button-holes giving way and the paper tearing.

Parties purchasing collars will be careful to see that each collar is stamped upon the inside—Locktoood Myo. Co., Cloth Lined, with the Trade Mark of the Co. and date of Petants. Do not be deceived by the boxes or false representations, but see foryour self. If the collar lisel is not stamped upon the inside as above, it is not genuine.

The enormous demand for these goods (largely exceeding that of any collar made) has kept them sold ahead of production, but with a large amount of new machinery, this Co. is nowable to fill all orders promptly, either in Phihadephia or at any of the Agencies.

The collars are constantly in stock.

The volume is elegantly printed on toned paper, and astefully bound, with an appropriate design in gold. 12mo, muslin, gilt top, with a steel portrait of President Lincoln. Price, $2.

In the preparation of this volume it has been the purpose to preserve, in permanent form, the spontaneous tributes of esteem and affection tendered to the memory of our late beloved President by the poetical writers of our own and other countries. It seems especially fitting that the tender regard which Mr. Lincoln had won for himself during the four eventful years of his Presidency, and which has found so many and such hearfest expressions since his untimely death, should have a lasting record; and both for the gratification of these who have mingled their tears over the remains of the illustrious dead, and as an evidence to future generations of how its, and great, and good we thought him, this volume is now put forth.
