Rich Cambric Edgings and Insertions, French Embroidered Bands, Flouncings, &c., &c.

Hemstitched Hukis., extra fine, 25 cfs. se12-12t BAGSI BAGSI BAGSI have been in general use since 1838, and not withstanding the fact that numerous mitations of them have been made they still rank superior to any Collar in the market.

They are the only collars lined throughout with cloth, with a layer of paper on cach side, and are shaped upon formers, or monitors, so as to fit the neck and allow a space for the cravat. The peculiar process used in their manufacture, makes them resemble linen very closely; when finished the fibres of the cloth give the appearance of linen to the paper. They are very strong and do not tear at the button-holes, and are the only collars made that can be turned and worn on both sides without the button-holes giving way and the paper tearing.

Parties purchasing collars will be careful to see that each collar is stamped upon the luside—Lockwood Mfg. Co., Cloth Lined, with the Trade Mark of the Co. and date of Patents. Do not be deceived by the boxes or false representations, but see foryourself. If the collar itself is not stamped upon the inside as above, it is not genuine.

The conormous demand for these goods (largely exceeding that of any collar made) has kept them sold ahead of production, but with a large amount of new machinery, this Co. is now able to fill all orders promptly, either in Philadelphia or at any of the Ageneles.

In addition to these best standard goods, several lower grades of collars are constantly in stock.

The Lockwood Mfg. Co. are the sole licenses under Hunt's and Lockwood's Patents, (the first on Paper Collars avoid difficulties and lawsuits, which are now being vigorously prosecuted against all dealers in other makes of paper collars, which infringe one or nore of these Patents.

THE TRADE SUPPLIED BY MISS W. L. SANDFORD WILL RE-at No. 1122 WALNUT Street. Applications may be made after is eptember 4th at No. 1222 SPRUCE Street.
