was not well cared for by me, and requesting me to report instantly what treatment he re-ceives, I have the honor to inform you that Captain Wirz is treated in every respect as leai-ently as is consistent with his position and compatible with my duties. He is furnished with a cot and bedding such as are used in the United States Medical Department, furnished with a mosquito bur; if he chooses to eat the prison fare, he is furnished with the same ra-tions allowed soldiers of the United States ar-my, with the addine, such as are used in the prison fare, he is puplied with such diet as may be prescribed by the surgeon of the prison, which is procured from the prison funds. He is also permitted to procure such eatables as he may be able to purchase. He is also al-lowed any books that can be procured. The only restraint to which he is subjected is that placed upon his liberty, and such precautions as will preclude his committing any injury to himself. I think if Capt. Wirz is interrogated he will verify this statement. Yery respectfully, your obedient servant, Genoe W wer, and adding y form mission for trial of Wirz. It will be recollected that Col Chipman, yes-terday, called attention to the fact that Mr. Schade, one of the counsel for Captian Wirz, had received two letters from the prison er for delivery to his wife and had spoken of such provectings as improper. He today of your had also yesterday. God only knows how I wish to see you. Lize, I have one thing to ask of you, and do it immediately, if you can. Send Mr. Schade ten dollars. It is for a certain purpose. I seed you an envelope directed to him. Just put the money in ; you need not to write; all that it requires is to put a post-stamp on it, and send it off. I an some what better. I hope to see you contorw. Yuras, Mr. Schade remarked it was true he took let-ters from the prisoner to be delivered to his wife, but knew nothing of their contents. The court was cleared for deliberation, and The court was cleared for deliberation, and when the doors were reopened Major General Wallace, the president of the court, addressing Mr. Schade, said his conduct in the premises was fully appreciated by every member, but considering the stage of the trial, and fearing that any further action would be detrimental to the prisoner, they had concluded to let the matter drop. "I am of the opinion," he added, "that you are now sufficiently warned." Lieut, John F. Heath, of the 3d Georgia Re-serves, testified that in the summer of 18si Capt. Wirz was sick, and expected to die; he had seen the defendant take from a lot of Federal prisoners one-half of the vegetables which they had bought. Dr. Caslen testified there was a good deal of complaint among the troops about insufficient rations; the clothing was very inferior, and there was no diet suitable for the sick; he had never heard of Capt. Wirz matreating prison-ers, and knew of no cases of starvation, emaeta-tion, and wasting away; there was much com-pluint in North Carolina and elsewhere about impure virus for vaccination. Colonel Persons testified that he was first sent to Anderson ville, as commandant of the post, by General Winder, In February, 1864; Captain Wirz came there in March; the lat-ter's local orders were framed by himself, but the general orders came from General Winder; Captain Wirz urged that the hospital be re-moved out of the stockade; the witness peti-tioned General Winder to permit this to be done, and his impression was that General Winder declined, when the witness assumed the responsibility of having the hospital be re-moved; afterwards General Winder gave the permission; Captain Wirz protested against crowding any more prisoners at Andersonville; General Winder ordered the dogs to be employed; the witness never saw Turner's, but had seen Harris' dogs; they were common rabbit dogs, and sometimes used for catching negroos; Captain Wirz expressed great displeasure of the meagreness of sup-plies and the deficiency of the Quartermaster's burgering furlooghs for shooting Union prisoners; if such had been given he would have heard of it; the witness, as commander of the post, gave furloughs for under seven days, but all over that time were granted by General Winder; if any extraordinary vio-lence had been practiced by Captain Wirz he would have heard of it; there was great diffi-cuty in obtaining lumber for the prison. The commission then adjourned.

A correspondent writes as follows to the Lancaster Express: Entrons Express: The question relating to the recent phenomenon has not yet been an-swered, and we still ask, "What was it?" A number of survises and conjectures have been advanced, both indefinite and unsatis-factory. Having myself experienced a series of earth-quakes, continuing at intervals for nine months, and in a region of country where they may be said to be indigenous, I faney i becauce so tamiliar with their character and effects, as also with the sensations which they produce upon the animal system, that I cannot be unis-taken. That that which we heard and felt in this city and county on Sunday the 17th inst., at3 P. M. and at 11 P. M. was an earthquake, I have not the slightest doubt. It is only necessary to examine a scientific description of an eurth-ther as far as comparison is admissible, with alluded to, to become fully convinced of this allouders about its being arial or subterranean, local, or of an unknown extent. The learned have given us the following de-scription of an earthquake: "A shaking of critien parts of the earth? surface, produced by causes not perceivable by our sense. The motion of the earth? surface, produced by causes not perceivable by our sense. attend. Mr. Muff said that the teachers here thought it too confining to go every Sundayland keep in school and church so long. A different sys-tem was in use in England. There the schools had three sets of teachers and officers, and thus, while the term of each set only came once in three weeks, there was no fatigue. Mr. Allen John thought that the sarvices of the children should be enlisted in the matter, and get them to plague their older friends into attending. The report of the Committee on Resolutions was then read. Seventeen resolutions, all that were presented, were unanimously adopted. The convention then adjourned into the Sunday-schools were assembled. T. H. Thorn-ley was chosen to preside; after which Rev. J. B. McCulloch read the 8th Fsaim, Rev. Mr. McConnel delivered a prayer, and the children sang the hym of Marching Along." Addresses were delivered by Hon. J. F. Williamson, Rev. J. H. Torrance, George Cook-man, Esc., Thomas Perrins, Esq., Rev. Benja-min Schofield, Eishop Simpson, and others. The services were interspersed with singing by the children, under direction of Professor Fisher, of the Nazareth Methodist Church. Adjourned until evening. EXHIBITION OF THE HORTICULTURAL Society.-The annual autumnal exhibition of the Pennsylvania Horticultural Society was opened last evening, at the lot on the south of the Academy of Music, in a pavillion eighty by two hundred feet, which has been used for similar purposes in the Wost. Testerday afternoon, Mr. Harmer, the chair-man of the Committee on Exhibition, in a neat address, announced that the work of prepara-tion injwhichfor some time the committee had been lengaged was most satisfactorily com-pleted. He thanked the committee had been lengaged was most satisfactorily com-pleted. He thanked the committee and the workmen for their untiring efforts, and said that but one thing remained to finish the work; that was the raising of the American flag. He then delivered a soul-stirring eulogy on the flag, which was soon raised, and concluded by calling upon all to give three hearty cheers for it. The committee, a delegation from the Fruit Grovers' Association of Eastern Pennsylvania, and nembers of the press, then sat down to a collation prepared for them. After partaking of the delicacies provided, D. Rodney King, Esq., president of the asso-ciation, welcomed the guests, and expressed his hope that before another autumnal ex-hibition would be given the association would have ready for it a commodious hall, in which the plants, fruits, and flowers could be pro-tected from the weather, and in which the association could hold its regular meetings with every convenience. Responses were made and other speeches followed. I twould be a work of superrogation to at-tempt to describe the beauty the scene pre-sented to our enraptured vision upon enter-ing the immense pavilion yesterday. Fruits, plants, and flowers, form all quarters of the globe, arranged with the highest taste—flowers whose fragrance and beauty carried one in magination to the tales of Italian beauty, of which one had read—fruits, whose luxuriance compelled the breaking of the commandment "thou s Dwelling No. 727 Spruce street, 17 by 130 feet, Dweiling to, 12 optics \$6,750.
