By A. D. Richardson, New York Tribuns Correspondent.

The most interesting and exciting book ever published, embracing Mr. Richardson's unparalleled experience for four years, travelling through the South in the storet service of the Tribuns, at the outbreak of the war, with our armies and fleets, both East and West, during the first two years of the Rebellion; his thrilling capture; his confinement for twenty months in seyem different Rebel prisons; his escape, and almost miracillous lourney, by night, of nearly four hundred miles. It will abound in stirring events, and contain more of the fact, incident, and romance of the war than any other work published.

Horace Greeley 2279:

"A great many books will yet be written conferming this war, in addition to the many already in print; but not one of them, more readable account, entirely from personal obsevation, of the universalities of the Siaveholders' Rebellion than does the unpretending narrative of Mr. Richardson.

Teachers, ladies, energetic young men, and especially returned and disabled officers and oldiers, in wast of profitable employment, will find it peculiarly adapted to their condition. We have agents clearing \$175 per month, which we will prove to any doubting appleants.

We feel satisfied that there are no Planos made in this country superjor to our own.

As a Philadelphia manifacturer we pride ourselves in having achieved a reputation for our instruments unexcelled by any other makers in this country. It is a well-known fact that our Planos have for many years maintained their high reputation, notwithstanding the powerful competition of the Eastern makers.

New York and Boston Planos have been flooded into this mass the only Planos in the country; yet at the land of the planos in the country; yet at the land of the planos in the country is the land of the land of the planos in the country. Yet at the land of the planos in the country; yet at the land of the planos in the country; yet at the land of the planos in the country; yet at the land of the planos in the country; yet at the land of the planos in the country; yet at the land of the planos in the country; yet at the land of the planos in the country; yet at the land of the planos in the country; yet at the land of the planos in the country is the planos of the planos of the planos in the same time such makers have never been known or heard of in their own cifies. The consequence is, that our citizens are often induced to purchase such inferior instruments, without considering their own, or the general interests of their city.

The advantage our citizens have in encouraging home manufactures certainly should not be overlooked, for the following reasons:

First. It is acknowledged that Philadelphia is the great manufacturing city of this country, and celebrated for its superior and skilful workmen.

Second. The purchaser obtains the plano directly from u. the manufacturers, and the purchaser must um the risk. Whereas, on the other hand, we, as the manufacturers are country, and the manufacturers are country. The mounts to not interest to turn out none oth FIFTY MILLIONS OF DOLLARS. V grades, \$1.50. WEDNESDAY, OCTOBER 4, 1865.
MRS. NICHOLS,
oc2-6t\* 102 South EIGHTH Street, are now receiving the commencement of their Fall our interest to turn out noic other than first-class instruments.

Fourth, Admitting that such instruments might be equal to our own when new, they cannot give the same satisfaction, or wear the same length of time, for the reason that the agent depends upon others to keep such pianos as he sells in order, and will, of course, not expend any of his profits to do 50; whilst we, the manufacturers, have our own excellent workinen, who fully indegrated the business, and will promptly give their attention, and the planos be made to wear much longer.

Our establishment is one of the most extensive in this country, and when our new improvements, now in progress, are completed, it will be one of the largest in the world. Our object is to make this hrat ch of Industry one of the great institutions of this city. GOVERNMENT SECURITIES, man—the young girl, the mature woman and the matron.

In the back-ground are seen members of the Christian and Sanitary Commissions taking care of the wounded left on the field.

In the foreground is a box of delicacies sent by one of those noble institutions, "The Ladies' Ald Society."

The whole picture, the grouping, the expressions of the faces, the drapery, and the minor details, are alt made with scrupulous exactness to nature, and makes the picture tinsurpassable as a work of art and beauty, and well flustrates the noble and benevolent character of the loyal and patriotic. Women of America.

This splendid painting has just been engraved on steel by A. B. Walter, Est., in his fluest style, proofs of which will be on exhibition with the original Painting, so that those wishing to subscribe can judge for themselves how artistically Mr. Waltering transferred the design, in all its details, from the canyas to the plate.
