HE WHO has discovered an original idea for a New-Year's Address may well shout Eureka! The Lebanon Courier, living in a Dutch-English atmosphere, started its carriers out on New-Year's morning singing thus:

As I go forth, Woch' ein, Woch aus, Die Zeitung trag to every house, I often feel gans matt und mued; Doch huelft es Nichts, I must proceed. But when I think welch' grosse Freud' The paper gives den guten Leut', I feel refreshed, und muetig geh' Through heat and dust, durch Frost an

A "TIMBER HAT."-Somewhere about the year 1780, so runs the tale, a traveller millwright-in those days the king of mechanicsfootsore, and with the broadest northern Doric accent, stopped at Soho, a locality once indica tive of field sports, but then the engine factory of Boulton & Watt, and asked for work. Mis aspect was little better than one of "beggary and poor looks," and Mr. Boulton had bidden him god-speed to some other workshop, when, as he was turning away sorrowfully, Mr. Boulton suddenly called him back: "What kind of hat have you on your head, my man?" "It's just timmer, sir." "Timber, my man! Let's look at it. Where did you get it?" "I just made it, sir, my ainsel!" "How did you make it?" "I just turned it in the lathie." "But it is oval, man! and a lathe turns things round!" "Aweal! I just geared the lathic gang anither gait to please me. I'd a long journey afore me, and I thocht I'd have a hat to keep out water; and I hadna muckle siller to spare, and I just made ane." By his inborn mechanism, the man had invented the oval lathe, and made his hat, and the hat made his fortune. He became a distinguished machinist.—Roads and Rails.

A Model Army Contractor.—Walter Savage Lander, in his correspondence, mentions "an excellent old friend" of his, named Parkhurst, who was appointed by Lord North a commissary in the English army during the period of the American Revolution. On his return to London. Lord North met him one day, driving in Hyde

"What, Parkhurst! you a commissary for several years, and still riding in the old, wornout family coach!" "Yes, my Lord, and thank Heaven, without a

shilling of public money in my pocket." "Well! that is something to be thankful fortruly," remarked the Minister, as he turned thoughtfully on his way to the meeting of the Privy Council.

IN A STIRRING LYRIC, Written and set to music by Mr. Richard S. Willis, he says :-Twenty millions held at bay!

Why, Northmen, why? Less than half maintain the day! Why, Northmen, why? With the sturdy iron will.

With the pluck, the dash, the skill, With the blood of Bunker Hill,-

Why, Northmen, why? A cotemporary states that the "why" of this is to be found in the fact that brains are wanting in Washington. Very likely.

BURKE had once risen in the House of Commons, with some papers in his hand, on the subject of which he intended to make a motion, when a rough-hewn member started up and said :- 'Mr. Speaker, I hope the honorable gentleman does not mean to read that large bundle of papers, and to bore us with a long speech lute the bargain.' Mr. Burke was so swollen or rather so nearly suffecated with rage, as to be incapable of utterance, and absolutely ran out of the House. George Selwyn remarked that it was the only time he had seen the fable realized.

INFALLIBILITY OF THE FEMALE SEX. - The ladies have a belief that Parisian corsets wear much longer than any other ones, and the dear creatures are right, as they always are, for we beg leave to point to the occupation of Rome by Louis Napoleon's army as an incontestable proof of how exceedingly lasting French Stays are .-Punch.

A COTEMPORARY describes a neighboring editor as "aiding piquancy and flavor to his i briefer paragraphs, by hinting at rose-bud beauty and crinoline, of little gaiter boots and well turned ankles, just brushing with his quill the limits of 'thus far shalt thou go and no farther'-throwing lilies to the Vestals with one

hand, and with the other beckoning the Satyrs." Ir every body raises the price of every thing, we don't see who's going to be the gainers by it. It's six of one, half a dozen of the other,

properties of the medicine direct the meselves to the organs of secretion, and by so altering the condition of the stomach and liver that the starchy principle of the food is not converted into sugar so long as the system is under the influence of the CONSTITUTION WATER.

which gives those organs time to recover their healthy tone and vigor. We are able to state that the Constitution Wa-ter has cured every case of Diabetes in which it has been given. STONE IN THE BLADDER, CALCULUS, GRAVEL, BRICK DUST DEPOSITS, AND MUCOUS OR MILKY DISCHARGES AFTEK

Disease occurring from one and the same cause will be entirely cured by the Constitution Water, if taken for any length of time. The dose should vary with the severity of the disease, from twenty drops to a teaspoonful three times a day, in water. During the passage of the Calculus, the pain and argent symptoms should be combated with the proper remedies, then followed up with the Constitution Water, as above directed. DISMENORRHEA, OR PAINFUL MENSTRUATION, AND IN MENORRHEAGIA OR PROFUSE FLOWING.

Both diseases arising from a facily secretion of the menstrual fluid—in the one case being too little, and accompanied by severe pain; and the other a too profuse secretion, which will be speedily cured by the Constitution Water.

The disease known as FALLING OF THE WOMB, which is the relaxation of the ligaments of that organ, and is known by a sense of heaviness and dragging pains in the back and sides, and at times accompanied by sharp lacinating or shooting pains through the parts, will, in all cases, be removed by the medicine. ses, be removed by the medicine.

There is another class of symptoms arising from IRRI-TATION OF THE WOMB, which physicians call Nervousness, which word covere up much ignorance, and in nine cases out of ten the doctor does not really know whether the symptoms are the disease, or the disease the symptoms. We can only ennmerate them here. I speak more particularly of Cold Feet, Palpitation of the Heart, Kunpaired Memory, Waktefulness, Flathes of Heat, Languor, Lassitude, and Dinness of Vision.

tude, and Dimness of Vision.

SUPPRESSED MENSTRUATION,
Which in the unastried female is a constant recurring disease, and through neglect the seeds of more grave and dangerous maladies are the result; and as month after month passes without an effort being made to assist nature, the suppression becomes chronic, the patient gradually looses her appetite, the bawls are constituted, night-sweats come on, and constmuttion finally ends her career.

LEUCORRHGEA OR WHITES.

This disease depends upon an inflammation of mucous lining of the vagina and womb. It is in all cases accompanied by severe pala in the back, across the bowels and through the hips. A teaspoonful of the medicine may be taken three times a day, with an injection of a tablespoon ful of the medicine, mixed with a half-pint of soft water morning and evening.

IRRITATION OF THE NECK OF THE BLADDER, INFLAMMATION OF THE KIDNEYS AND CATARRHOF THE BLADDER, STRANGURY AND BURNING OR PAINGURY AND BURN

Have long since given up the use of buchu, cubebs and judiper in the treatment of these diseases, and only use them for want of a better remedy. CONSTITUTION WATER

DANNILLE, Pa., Jane 2, 1862.

Dr. Wm. H. Grego—Dear Sir: In February, 1861, I was afflicted with the sugar diabetes, and for five months I passed more than two gallons of water in twenty-four hours. I was obliged to get up as often as ten or twelve times during the night, and in five months I lost about fifty pounds in weight During the month of July, 1861, I procured two bottles of Constitution Water, and in two days after using it I experienced relief, and after taking two bottles I was entirely cared, soon after regaining my usual good health. Yours truly,

BOSTON CORNERS, N. Y., Dec. 27, 1861. Gents:—I freely give you liberty to make use of the following Certificate of the value of Constitution Water, Garts:—I freely give you liberty to make use of the following Certificate of the value of Constitution Water, which I can recommend in the highest manner.

My wife, who was attacked with pain the shoulders, whole length of the back, and in her limbs, with Palpitation of the Heart, attended with Falling of the Womb, Dysmenorrhan, and Irritation of the Bladder. I called a physician, who attended her about three months, when he left her worse than he found her. I then employed one of the hest physicians I could find, who attended her for about nine months, and while she was under his care she did not suffer quite as much pain; he finally gave her up and said: "her case was incurable." For, said ie, "she has such a combination of complaints. Hat medicine given for one operatis against some other of her difficulties," about this time, she commenced the use of Constitution Water, and to our ulter astonishment, almost the first dowseemed to have the desired effect, and she kept on improving rapidly under its treatment, and now superintends entirely her domestic affairs. She has not taken any of the Constitution Water for about four weeks, and we are happy to say it has produced a permanent cure.

My woon Cony. Nov. 10, 1821.

MILPORD, CONN., Nov. 19, 1881. Dr. WM. H. GREGG:

Dr. WM. H. GREGG:

Dear Sir: —I have for several years, been afflicted with that troublesome and dangerous disease—Gravel—which resisted all remedies and doctors, until I took Constitution Water, and you may be assured that I was exceedingly pleased with the result. It has entirely cured me, and you may make any use of my name you may see fit in regard to the medicine, as I have cutive confidence in its attacty.

Yours truly, POND STRONG.

THESE ARE FACTS ENOUGH. There is no class of diseases that produce such exhausting effects upon the human constitution as Disbetes and Diseases of the Kidneys, Bladder and Urinary Passages, and through false modesty they are as advanced until they are as advanced as to be beyond the control of ordinary remedies, and we present the CONSTITUTION WATER

CONSTITUTION WATER

To the public with the conviction that it has no equal in relieving the class of diseases for which it has been found so eminently successful in curing; and we trust that we shall be rewarded for our efforts in placing so valuable a remedy in a form to meet the requirements of patient and physician.
