## Buich-Buachs.

I DIDE'T THINK! --Why, then, did you, stupid, pour the camphene into the lamp when the wick was burning? Why did you give the child a fork to play with, when you knew that there is a positive incompatibility between eyes and forks? In the name of the mildest common sense, why did you go into the kitchen with a silk dress on to teach the cook how to stuff a turkey with oysters? Think! What's that beautiful headpiece for? Is it a dummy, on which to lavish hair-oil, chalk, rouge, and India ink? Is the mouth an orifice for dentists to examine and perhaps de lude from its propriety? Are the eyes mere or Also, Mo. 4.—Altract or piece of WOODLAND, situate is said township and count, beginning at a corner of No. 2, thence along the same North 2 degrees, West 100 perches and some thence along shad of George Schoch, Morth sighty that the said township and count, beginning at a corner of No. 2, thence along the same North 2 degrees, West 100 perches and seven tenths to a stone, thence by land of Geo. Are the brains within the skull such mere filling as you wear in your dress? Think, ch! Why a horse on the darkest night instinctively stops at the edge of the precipice. A hen will not go into the water. Is there no poetry save that which Mother Goose has given us? Shall we have nothing but the everlasting excuse of " I didn't think ?" Do you put on clothes from the mere habit of the thing, or from an inherent feeling of modesty? How is it that you read or write, or communicate with friends! Why not bray as does the long-eared animal, instead of using words to express the emotions of pleasure or pain? If you have not been in the habit of thinking, begin at once. It is easily acquired without a master. Books are not essential for its cultivation. Nature has furnished immense examples from the mere observation of which one may fall into the habit of thinking, and that very deeply. Less no time in duliness Take a practical example, for instance. Attempt to put your finger on a fly, and account for the flight before you approach within ten times its length. If that is too deep for the mental powers, attempt to drink a cup of scalding hot tea, and say why it burns. Let us have no more of "I didn't think !" It is paltry, very paltry—is it not?

A Waste or Latin .- A New York paper tells a good anecdote apropos of Judge McCunn's court. It says that the other day the learned judge was remarking that something in the evidence "showed the animus" of a certain proceeding, when one of the roughs who happened to be present, hearing the word, and taking it for something belligerent, sprang to his feet and prepared to roll up his sleeves, with the remark, "What's that he says? If there's goin' to be any muss about here, just remember that I'm around !' The coming disturbance was finally quieted, but the judge had better not run the risk a second

POOR CHABLEY, a scholar turned business man, defers his nuptials with the beautiful Augusta, till his estate shall be equal to a style of living worthy of his affiances. "Ah!" said an old shum, "you are working harder than ever, ch ?" "Yes" said the classical lover with & sigh .- " it is 'the old scheme of ambition -- Per sugusta ad Augusta!"

WHITE WAN and Black man had a talk in Baltimore. White told Black, "this is your war; you ought to fight." Black retorted, "Nigger has nuffin to do wid dis war. Two dogs fight over a bone. Did you ever see de Bone fight?"

THE Poughkeepsie Press says—" The best capital for a young man is a capital young wife." It is, at least, a sort of capital that is generally "productive"-a point always considered in making investments.
