It would not be at all out of the way, in these days of proscription and terrorism, when the brand of treason is so freely stamped upon Democrats, to let the people know how far in advance of the Democrats of the present day, the "loyal" adherents of the Lincoln despotism were in their denunciations of the Administra tion, during the war with Mexico.

GOVERNOR CURTIN'S HEALTH .-- In his special message to the Legislature, declining a renumination for the Gubernatorial chair, Governor Curtin, declared that: "The labors which I have necessarily undergone have already impaired my health. I should have serious cause to apprehend that a much longer continuance of them might so break it down as to render me unable to fulfill the duties of my position." Now, the Governor should not be permitted to go on at this reckless rate. The State has no right to claim he is not burdened with the crushing duties of the Executive chair for another three years. Governor Curtin must not be permitted to destroy himself by reckless patriotism; and a merciful people should allow him to retire to the himself—whom the Abolitionists regard with far peaceful shades of private life and place the more detestation than they do Jeff. GOOD NOMINATIONS .- The Democrats of Cumberland county have nominated our old friend Henry S. Ritter, Esq., for Treasurer of that county. Mr. Ritter is a native of Reading-a son of the late Samuel Ritter, Esq., and one of delivered to a meeting of his friends and depen the staunchest Democrats that ever went out from "Old Berks."

Ephraim Cornman, Esq., editor of the Carlisle Democrat, is nominated for Recorder and Clerk that the people can have an opportunity of seesame ticket with Mr. Ritter. He deserves the office, and we hope the whole Democratic ticket will be successful.

#### THE NOMINATIONS.

We place at the head of our paper, this morning, the Ticket nominated on Tuesday last, by the Democratic County Convention. It is composed of good men and true Democrats, and will be triumphantly elected. The delicate and always difficult task of selecting from a number of candidates, of equal merit and capacity, and all of whom were pressed by their respective friends with an earnest desire for their success was, perhaps, as well performed by the Convention as the circumstances allowed; and although there are, among the disappointed, as good and worthy men as have been placed upon the ticket, yet we think they will all admit that they were fairly treated, and the cheerfulness with which they have expressed their willingness to submit to the decision of the Convention, is an evidence, at least, that its choice was honestly made and with the best intentions. Where all could not be accommodated, some were bound to fail, and it is no discredit to any candidate to have suffered a defeat, in a fair contest with his own political friends. Among the successful this year, are not a few of the defeated of three years ago, and so it will be three years hence, if the postponed will "learn to labor and to wait."

Mr. MISSIMER, the new candidate, is a gentleman of intelligence, popular manners, and stead fast Democratic principles. The experience he has had, of several years, as an officer in the House of Representatives at Washington, will admirably qualify him for efficient and useful ervice at Harrisburg.

Mr. Reber, our candidate for Prothonotary, s a Democrat of the old school-honest, true and steadfast as the needle to the pole. He was. for many years, a resident of North Heidelberg township, in which he exercised the duties of a Justice of the Peace. The estimation in which Club. On motion, Solomon L. Custer, Esq table of the feace. The estimated in which he is held by the people of that section of the county, is the best recommendation as to his character and fitness that could be desired. He has waited long and patiently for "his turn," and now has received his reward.

Cub. On motion, Soldmon I. Cuszer, Esq., was appointed temporary Chairman, who, upon assuming his official position, favored the meeting with a short but encouraging address. The Club now proceeded to permanent organization by electing the following officers:

President—JACOB COLEMAN. and now has received his reward.

Mr. THIRWECHTER, the nominee for Register is a well-known and highly esteemed citizen of Stouchsburg, where he has performed the functions of a Magistrate for many years. He is a consistent, active and influential Democrat, and will bring to the duties of the Register's office qualifications of the first order. He is an exsellent penman, and equally conversant with the German as with the English language.

Mr. Laucks, who has been nominated for Re corder, is favorably known as the attentive and efficient Clerk, who has transacted the chief business of the Recorder's office for the last twelve or fifteen years. He has proved himself faithful in the subordinate position, and has richly earned the promotion to the higher and

more profitable place, that awaits him. Mr. CLOSE, our candidate for Clerk of the Orphans' Court, is a substantial farmer of Exeter, and a hard-working Democrat. No man has done more to sustain the party organization, and keep its principles alive, than he; and if faithful services of this kind constitute any claim to office, he has richly earned the nomination. He is, besides, honest and capable, and will discharge his public duties with the same conscientiousness that marks all his dealings in

Mr. Roland, who was nominated for the Quarter Sessions' office on the first ballot, is a true representative of the Young Democracy. Active, ready, and vigilant, he has never been found wanting, when called upon to serve his party. In the old "Hounds' Ward," where he lives Frank is "a whole team," and throughout the county he is known as one of our most energetic | Philadelphia Union Meeting in 1860, and underworkers. He will bring strength to the ticket,. and assist, by his personal efforts, to swell its no doubt) that "he is a double-dyed traitor, and majority.

Mr. WENRICH, who is nominated for Treasurer, is one of the best farmers that lives in the | infidel, who proved his atheism from the Bible, Davy." The people have tried him, with a three years' term as County Commissioner, and he served them well. They respect and trust him, and will give him the keys of the County during the Mexican War, is unavoidably postponed until | Treasury with the comfortable assurance that all will be as as it should be, under his adminis-

Mr. Garz, our candidate for Director of the Poor, has filled that office for one term with humanity and fidelity. His renomination shows that his services have been properly appreciated. Esouire Kunn will make an excellent Auditor. He is a correct accountant, a good penman, and understands the business affairs of our county horoughly. We hope, at no distant day, to be able to print his name in a higher place upon

Such is the ticket, as presented by the Concention. The resolutions are brief, but to the point; and the selection of Delegates to the next State Convention, and of a Standing Committee for the County, has been judiciously made. We think the Convention has given general satisfaction, and we confidently look for a ratification of its proceedings, on the second Tuesday of October, by the largest majority our county

IN AN EDITORIAL of the Journal, published Feb. 28, 1863, Mr. Knabb boastingly exclaimed "that he was no 'Copperhead,' thank God," during the Mexican War. Indeed it would, for Vallandigham er said anything half so severe against the fulminations against the Administration of President Polk.

THE JOURNAL of week before last copied. at second-hand, a few garbled and mutilated extracts from Judge Woodward's speech at the took to prove from them, (to its own satisfaction, not fit to live in a free and loyal State." This sort of argument is precisely like that of the

Heidelbergs. No man is better known, or more by quoting the words "no God" from the well are sloping, and over 3 feet thick. This casemate will car universally popular, in Old Berks, than "Honest known sentence of the Psalter :- "The fool has said in his heart, there is no God." Whether it is just the style of argument that an honest and honorable editor should employ in addressing intelligent readers, we leave for others to decide. Perhaps the Journal, which, more than any other paper we know, acts upon the infamous sentiment that "all's fair in politics," may think

The speech in question was delivered before s meeting composed of men of all parties, assembled in Independence Square, at the call of a Republican Mayor. No one then dreamed that its distinguished author entertained treasonable opinions; on the contrary, his speech was universally commended for its truly patriotic, conservative, and national spirit. That a large portion of the people of Pennsylvania still approve its sentiments, is shown by the fact that it has been recently re-published in all the Democratic journals of the State, and has met with the most favorable reception. Considering that it would have been very easy for the Journal to obtain an authentic copy of the speech, it is singular that our neighbor should have been content to take these meagre and fragmentary extracts upon the authority of the Bucks County Intelligencer, "a high-toned paper," it may be, but one of the most violently partisan in the State. As an act of simple justice, we now call upon the Journal to publish-not the whole speech, that would be a greater stretch of fairness than we dare hope for, but—the unmutilsted paragraphs from which the words are picked to make Judge Woodward say just what he never did say. Give us "the truth, the whole truth, and nothing but the truth," and we shall fear no criticism.

DRAFTED MEN ENTITLED TO BOUNTY .-- A SECtion in the act (the Draft act) " for enrolling and calling out the national forces," has, strangely enough, escaped attention. It is the one entitling those drafted to advance pay and to bounty. Section 11 reads as follows:

Section 11 reads as follows:

Section 11. And be it further enacted, That all persons thus enrolled shall be subject for two years after the first day of July succeeding the enrollment to be called into the service of the United States. \* \* \* \* And when called into service shall be placed on the same footing, in all respects, as volunteers for three years or during the war, including advance pay and bounty, as now provided by law.

THE DRAFT IN BERKS .- The draft was empleted last Saturday, and a full list of the names of all who have drawn prizes in this "lottery of human life." is published on our outside page. The proceedings were conducted peaceably and quietly—the small military force that stood as sentinels about the Provost Marshal's office having found nothing to do beyond keeping the passage along the street clear. The drawing, as we have before stated, was open, and to all appearance, fair and impartial; and the Provost Marshal and his officers afforded every proper facility to the Committee that were invited to seats upon the platform, to satisfy themselves that all the pro-ceedings were regular and lawful. The names of the persons subject to the draft, were carefully counted by the Committee before and after the drawing, and the manner la which they were drawn from the wheel, (by a blind man blindfolded) leaves no doubt that it was fairly done If the enrollment was correct, the draft was unquestionably honest. The examinations are now going on, and we hopethey may be conducted with the same impartiality. A Card in relation to this matter, from the Examining Surgeon, which appears in another column, deserves the particular attention of all drafted men.

Res THE IRON CLAD STEAM RAM "DUNDER-ERG."—The New-York Herald of the 31st ult., gives an nteresting description of the !ron-clad screw ram "Dun-lerberg" ("Thunder-Mountain"—not "Thundering city," as the Herald blunderingly translates it) which is being built for the U. S. Government by Mr. W. H. Webb, at the foot of Sixth street, New-York. This moneter floatat the foot of Sixth street. New-York. This monster float-ing battery is 378 feet long, 63 feet broad, and 32 feet deep. The whole upper surface is to be iron-plated to 6 feet be-low the water line, and will require 1300 tons of plating to cover it, including turrets, pilot-houses, &c. Above the deck, she has a large casemate, 160 feet long in the clear, and extending the entire breadth of the vessel. Its sides fully served the Rebels as he did. ry 10 heavy guns—three in each broadside, and two at each end. Above it, are to be placed two revolving turrets, each 9 feet high, and 24 feet in diameter, inside measurement. The sides, decks and noors are solid oak, sheathed over with pine, which is to form a cushion for the armor-plating. To form the enormous "ram," the bow of the vessel is solid wood, running back over 50 feet, which, of course, is to be plated with the best quality of tron. She will have two rudders, which are protected by the peculiar construction of the overhanging stern. The sugines will be 6000 horse power, so that extraordinary speed can be attained, when desired. The hull is provided with one main and four sister keelsons, which run the entire length of the vegsel, and meet at either end. They are of solid oak, and look as if they might bid defisure to the severest shock. The entire frame of the vessel is diagonally arrapped with iron, which gives her great strength. Of the iron and its manufacture in the Mentile property of the contraction. Of the iron and its manufacture, the Herald speaks as fol-

lows:

The iron is from the Pennsylvania iron mines, of the best quality hammared cold blast charcool iron, and is manufactured by Seyfort, McManus & Co., at the Reading Forge, at Reading Pa. These works rath first class in this country, and are extensively engaged in filling government orders at the present time. In addition to the manufactures of armor plates, they are making the mijor portion of the new thirtnean-inch guns, which doubtless will take the place of the fifteen inch. They have already turned out a vast number of the nine and eleven inch Dablgren guns. Their works are very extensive, covering several acres, and to supply the deficiency of first-class forgemen in this country they have an agent in Great Britain who engages workmen there and forwards them to the forge, where they receive the best of wages. The plates from these works are each on the best of wages. The plates from these works are each of the desired of the turnet iron to be used.

It will require several months to fit this monster were for service; but when she is completed she will reflect great credit upon Mr. Webb, the iron factors and the country in general.

A CARD.
THE UNDERSIGNED TAKES THIS METHOD of tendering his sincere thanks and gratitude to his friends for the generous and unwavering support with which I was honored in the Democratic County Convention, held on the ist inst. Although I was not ancesseful a making my nomination, I am perfectly satisfied with the Ticket, and will use my nimes efforts to have it sletted, I again teader my slower thanks to my friends throughout the county, and should I live, two years hence, I will again be a candidate for the same office, hoping then to meet with better success. I remain, your obedient servant, Reading, Sept. 5-1t] ISAAC R. FISHER.

CARD OF THANKS.

THE UNDERSIGNED RETURNS HIS SINcere thanks to the Delegates in the late Democratic
County Convention, and to his friends generally, for the
handsome support they gave him for the office of Clerk of
the Orphane Court. Although he did not succeed in obtaining the nomination, he is satisfied with the result, and
will give the whole ticket his cordial support. Should his
life be spared, he may be a candidate three years hence,
when he hopes to be remembered with better success.
