whiskey in the army : .. An army is a big thing, and it takes a great many catables and not a few drinkables to carry it along. Have you any idea how many barrels of 'commissary' (that's a gentle cuphemism for whiskey) it takes per, week to run the machine? I don't know exactly, but I do know that it would be better to Uncle Sam than 100,000 volunteers to his army if he would shut off entirely and absolutely the supply of intoxicating liquors from officers and men, from surgeons and hospitals, and everything and everybody connected with the army. On what ground is the present vast supply of whiskey furnished? Is it that an occasional ration may be issued to the soldiers when returning from picket or after an exhausting march? Why, there hasn't been a whiskey ration issued to a single regiment, to my knowledge, for many a month, and I am certainly within the truth when I say that not ten a year are issued to the troops on an average. It is as good as a total abstinence society to be a private in the army. 'Cause why The use of liquor ? has so increased among the officers that none is now left over to the men! Three gallons a week are about the present usual allowance of a Brigadier General and inferior officers in proportion. A Major General, who is liberal and reasonably hospitable, is expected to spend at least his pay in various liquors. Every time a general or staff officer calls on a comrade, the bottle is expected to be produced. Every time an officer is promoted he is expected to "wet his commission." Every occasion of a sword or horse presentation is improved for a big drunk. It is not considered quite yet reputable for an officer to be helplessly or crazily drunk when actually engaged on some special duty, such as an officer of the picket or judge advocate of a court martial, but at other times it is nothing against him, and even if caught in such a case it is rather his misfortune than his fault, poor fellow!"

Tue Fart Fastions .- The fashions the pre sent season run to the extreme colors. A New York journal calls them the "Conflagration Styles." and thus discourses upon them : "The sidewalks are aftere with prismatic tints. One would think the ladies had been to the Orient and borrowed all the

"\_\_\_\_\_ various dyes
Of colored garbs as bright as butterflies," that astonished the pirate Lambo when he unex pectedly dropt in upon his daughter and her lover at her sumptuous reveis. Scarlet, gold and purple, crimson, amber and blue, adorn the sloping shoulders of our promenading belies. Some of them sport all these colors at once and have the appearance of being cloaked in rainbows. Then the feathers that flame torch-wisc in the fore fronts of their fancy hats. Saw ye ever the like, oh! sober citizens of Gotham ? Locomotive bonfires illuminate Broadway, and the plate-glass windows of the mantilla merchants dazzle us with their incendiary hues. Even the little girls have been transformed into Little Red Riding Hoods. 'Motley's the only wear'and such a motley! That loud color which the blind man compared to the sound of a trumpet is predominant; flaming yellow is also popular, and burning blue mingles in the flashy show When one sees a lady in deep mourning among the fashionable flambeaus, it gives one the im pression that some fiery damsel has burned out, and been reduced to charcoal." The macaws, at the bird fanciers ' pale their ineffectual fires' in the presence of our gorgeous Birds of Beauty. Were Cowper alive to see this spectacle, he would be tempted to give us a new version of ' Madame

An Ancient Bank .- Hear the following conversation which took place recently between steady old Quaker and his son, who just returned from a visit to the Southwest: "Did thee receive my remittance, Nathan, my son?" " Yes father." "Then why did thee not buy thee a new coat? Thy present is certainly very fragile." "Why, the fact is, I left all my money in the certainly commendable! In what bank did thee leposit it?" "I do not exactly remember is what bank, father. I know it was a very good one, as it had a Scriptural name. It was-um, let me see-it was the Pharoah Bank, I think. It had a good many depositors." "Son, banks are very unsafe now, and thee had better send for thy money immediately." Nathan took a cough ing spell.

ILLIMUIS CERTIFIC. INSILITIONS COMpany, in the few years since the construction of the
Raliroad, has sold a large number of Farms to settlers,
who, mostly in a short time, enjoyed a degree of prosperity, which is sufficient ovidence of the quality of the
soil, and the facilities for disposing of its produce. The
numerous villages which have sprung up in this short
time also indicate the abundant resources of the country.
The land is rich PRAIRIE SOIL, often thickly wooded.
Woodland can generally be purchased at short distances
and low prices—sometimes of the Company. The various
kinds of grain are successfully cultivated. Fruit, Grapes,
&c., grow rapidly, and yield abundantly and of superior
quality. The fruit market is probably the best in the
West. For the raising of Cattle there is no better country
to be found. Considering the infancy of the settlemente,
much has already been done for Schools.

The Company offers to settlers great advantages. The
land is sold—Wood or Prairie,—at from &6 to \$12 per acre,
according to its distance from the Railroad. At the time
of parchase, only the inferest of the purchase money is required. For the 3 first years, like rias only the interest
