THE READING FIRE INSURANCE AND TRUST COMPANY OF BERKS CO.

ORGANIZED JULY, 1867. CAPITAL $150,000.00.

Office Reading Insurance Building, No. 19 North Fifth street, S. E. Corner of Court street.

Office hours from 8 A. M. to 8 P. M.

DIRECTORS:

J. Pringle Jones, James McKnight,
Henry Z. Van Reed, Jacob Shaffner,
J. T. Jackson, D. E. Stout,
Jonas Shalter, J. T. Valentine,
George Rieser.

This Company insures all kinds of property against loss or damage by fire at rates as low as any other reliable Company and upon every plan known to Stock Insurance Companies.

Perpetual Policies issued requiring no renewal and upon which the amount of premium paid can be reclaimed at any time, less a deduction of five per cent. The advantages of this method are worthy of the attention of farmers and others having first-class dwelling houses, barns and other buildings, in town or country, as being the cheapest and safest.

Policies for one, two, three, five or more years, or for less than one year, issued and no charge made for Policy and survey when renewed or when insurances are transferred from other companies.

The citizens of Reading and vicinity, hitherto dependent mainly upon foreign companies, have now the privilege of effecting their insurances in a home institution, well organized, with an adequate paid in and guaranteed capital, presenting as strong a basis of security as that of any other company. The advantage of doing business directly with the Company and the importance of keeping some portion of the large sums paid for insurances, in circulation at home, will be appreciated by all.

EARTHQUAKE IN SOUTH AMERICA.

Terrible Loss of Life.

Great Destruction of Property.

CITIES RUINED AND VESSELS WRECKED.

NEW YORK, September 12.—The steamship Guiding Star, from Aspinwall, brings the following intelligence:

On the 13th ult., a terrible earthquake visited the cities along the coast of Peru and Ecuador, whereby thirty-two thousand lives were lost, and property valued at $300,000,000 was destroyed. A rumbling sound preceded the earthquake, and the sea was terribly agitated, and flooded the land for a great distance.

Arequipa, a city of thirty-five thousand inhabitants, has passed away, scarcely a vestige of it being left. Over 400 lives were lost there. Arica, a town of 12,000 inhabitants, was also destroyed, not a house being left standing. In this town 500 persons perished. A tidal wave, forty feet high, rolled with terrific force on shore, carrying ships further on land than was ever before known. The United States storeship Fredonia capsized and all on board were lost. She had on board naval stores valued at $1,800,000. She was rolled over and smashed to atoms. The United States steamer Wateree was carried half a mile inland, left high and dry, but only one sailor was drowned. Owing to her great distance from the sea she can never be got afloat again. The Peruvian corvette America was also carried ashore, and 33 of her crew were drowned. The American merchantman, Rosa Rivers, the English ship Chancellor, and the French bark Eduardo, were also lost.

The towns of Iquique, Moquegua, Locumba and Pisagua were utterly destroyed. Over 600 people perished at Iquique. The Americans lost heavily, and nearly all are totally ruined. The towns of Ibarre, San Pablo, Atuntapui, and Imutad are in ruins. Where the town of Coaticachi formerly stood is now a lake. The people of these towns were almost entirely destroyed. The towns of Pancho, Puellaro and Cachiquajo were also destroyed. The dead bodies are so numerous that the survivors has been forced to flee from the stench of the putrefying bodies.

HAVANA, Sept. 12.—Advices have been received announcing that Peru and Ecuador have been visited with a most terrible earthquake. The shocks occurred on the 16th of August, and lasted only five minutes, but in that time over 25,000 people perished, and 30,000 were made homeless. The cities of Arequipa, Iquique, Chala, and Chincha were entirely destroyed. The loss of property between Tacna and Arica is estimated at $14,000,000. The United States steamer Kearsarge is rendering assistance to the sufferers.

ADDITIONAL PARTICULARS.

NEW YORK, Sept. 13.—Letters from Lima give additional details of the earthquake and its effects.

The shocks commenced at 5.30 P.M. on the 13th of August, extending from Bolivia to the southern ports of Chili on the coast, and over 100 miles inland. The towns and cities mentioned in the despatches of last night were literally ruined; all the buildings not destroyed being so badly injured as to require demolition for prudential reasons. All the public buildings in Arica were destroyed, including the Custom House, which contained over $4,000,000 worth of goods, all of which were lost.

THE WRECKED VESSELS.

The loss of the Fredonia and landing of the Wateree are described as follows:

They were both at anchor in the harbor of Arica, near each other. After the first shock had occurred on land, and which created great consternation on both vessels, Dr. Dubois, the surgeon, and the paymaster of the Fredonia, took a boat and went on shore to inquire for the welfare of some friends, and to offer the services of the ship. In a few moments after leaving the vessel, a great upheaving of the waters in the bay commenced, and the Fredonia, parting her chains, was dashed about at the mercy of the sea, and finally was dashed to pieces on a reef. Nothing of the vessel was saved, and her officers and crew, 27 in number, were all lost; also Mrs. Dyer, wife of the Lieutenant Commanding. The officers' names were: Lieut. B. Dyer; D. Organ, master; J. G. Cromwell, purser; S. Lunt, secretary to the commander.

The vessel had about $2,000,000 worth of stores on board, all of which were totally lost. The Wateree was more securely anchored, but dragged her anchors, and the great tidal wave swept her 450 yards inland, about two miles north of the ruined town. She now lies between two hillocks of sand, very slightly injured, and it will be utterly impossible to extricate her, and Admiral Turner is only hopeful of saving her battery and stores. Only one sailor was washed overboard and drowned. Lieut. Johnson, of the Wateree, was ashore at the time, and while carrying his wife in his arms to some place of safety, she was struck by a portion of a falling building and instantly killed.

The Peruvian corvette American shared the same fate as the Wateree, but lost three officers and thirty men. Commander Gillis, of the Wateree, after the disaster, together with Dr. Winslow and Dr. Dubois, of the Fredonia, were of great service to the inhabitants, dividing their provisions among the suffering inhabitants, and the physicians saving many lives by their medical and surgical skill.

A letter from Arica, dated August 22d, says two other vessels, the brig Chancarillo and bark Eduardo, are also high and dry, the former losing eight men.

EFFECTS OF THE EARTHQUAKE.

The scene beggars description. Rails, cars, machinery, gun carriages, household furniture, barrels, dead animals, and mutilated corpses are lying about in confusion. The city of Arica numbers 7000 inhabitants, and its multitudes stand helplessly beggared on the beach—three hundred lives were lost in the city. A conflagration burned nearly all that was not demolished by the earthquake, and the rabble robbed and despoiled what remained. Heavy cannon were carried up from the island battery, and now lie buried in the sand far from the shore.

At Lima there was not much damage done, although the shocks lasted four minutes, creating the utmost consternation, and the inhabitants flying to the open plaza, where they besought protection from the Almighty.

Admiral Turner, with the frigate Powhatan, left Lima with a full cargo of provisions, and had arrived at Arica to succor the American seamen there, and the inhabitants also. She will also save the effects of the Wateree. The Kearsarge had also reached Arica from Coquimbo with provisions. A French man-of-war also left Lima to aid the inhabitants at Arica, and other places on the coast, who are starving.

Mr. Hovey, the American Minister at Lima, was energetically aiding, to the extent of his power, in alleviating the distress. The merchants and citizens of Lima are contributing by thousands of dollars to equip and load vessels with clothing, provisions, etc., and the Government is most energetically using all its means to alleviate the distress entailed by the terrible catastrophe.

Gen. Hancock Defines his Position.

At Franklin, Missouri, on Thursday last evening, while a Democratic meeting was in progress, a train passed through with General Hancock on board, which soon becoming known, he was received with great enthusiasm and called on for a speech. He thanked the people for the reception thus tendered to a stranger, and was glad to be present if only for a few moments at such a large gathering of the friends of Seymour and Blair. His heart's best wishes were with them in the contest, and he regretted that time would not permit him to speak at length, but before the canvass closed he would be able to address the people of Missouri upon the important issues of the day. He hoped for a triumphant victory, and bade them farewell for the present.

St. Louis is making great preparations for the Convention of Knights Templars, to be held there this week.
