

The Philadelphia Morning Post advocates the re-nomination of Governor Geary for another gubernatorial term.

Why do some of the Radicals fear that the Democrats will "steal Gen. Grant?" Is it possible that they cannot trust him?

FOURNEY'S agents in the Southern States must find other employment. "Ku Klux murders" are no longer needed for political capital.

BOTH Houses of Congress were adjourned yesterday by their respective officers until December 7th, a November session being deemed unnecessary.

REPUBLICAN GRATITUDE.—Generals Meade, Roseau and Buchanan are blamed by the Radicals for the Democratic majorities in Georgia and Alabama.

CABINET-MAKING, for Gen. Grant, will soon be commenced by the Radical wire-pullers. They may as well save themselves the trouble—the Silent Smoker will probably make his own choice.

NEARLY all the leading Radical papers have thrown off the mask at last, and demand the establishment of negro suffrage in all the States.

Shout the glad tidings; exultingly sing; The Bankers have triumphed—the nigger is King.

A NUMBER of crowned heads in Europe are making bids for the crown of Spain, for the purpose of bestowing it on some of their numerous relatives. If the Spaniards permit themselves to be enslaved again, they deserve all the oppression they will be forced to endure.

OUR colored brethren in Hayti are fighting like Kilkenny cats, as usual. Every darky wants to be President, and the result is a constant civil war, to the great danger and annoyance of all civilized people. An American man-of-war is asked for, to protect the citizens of the United States who are in business there.

GEN. GRANT has ordered Gen. Budeau, his Secretary, to destroy all written applications for office under his administration, and five hundred of such applications have already been destroyed. Wonder if a few were not from Reading? Alas, is such the reward for carrying greasy torches night after night? Mourn, ye "holl" ones, for your reward cometh not.

GOVERNOR GEARY announces that he is not an aspirant for the position of U. S. Senator from Pennsylvania.

ADMIRAL FARRAGUT has arrived at New York from Europe, where he has been enjoying himself for some time past among the crowned heads, to the great depletion of the national treasury. Farragut is a brave old sailor, and in deserving of high honors, but in view of the fact that our government is almost bankrupt, the people should hold their rulers accountable for this useless expenditure of millions of money, wasted in a pleasure trip of an Admiral, escorted by a fleet of costly men-of-war.

A MACHINE for harvesting corn, by taking the ears from the stalks while standing in the field, was exhibited at the recent State fair in Illinois. The apparatus is constructed to strip two rows at once. The stalks are taken between projecting metal-faced fingers, and as the machine advances the butt of the ear is brought in contact with a short sickle, playing at the rear of the fingers, cutting it off, while the stalk passes under the machine without being pulled up; the ears are received into a large hopper at the rear of the machine, and discharged when it is full.

THE EARTHQUAKE IN IRELAND on October 24th created the most intense excitement in the city of Cork, although the shocks were not perceived in the vicinity of that place. The effects of the internal commotion of the earth were felt at Newtown, within a few miles of Mallow, in county Cork, and at some other places between Mallow and Kanturk. The shocks were accompanied with a loud, rumbling noise, and an oscillation of the earth. Houses were shaken from their foundations, and in some instances the furniture was thrown down and broken. The shocks passed from north to south: At the time the wind was blowing a hurricane.

THE Female Working Classes, in Paris, according to official statistics, number 106,310 persons, who are divided into three sections. The first consists of 17,203 women, who are paid from 10 to 25 cents per day; the second of 88,840, who earn from 30 to 80 cents a day, and the third of 767 only, earning from 90 cents to \$2 a day. In the first section there are a great many girls under sixteen years of age, most of whom get besides their wages lodging, food and washing free. The representatives of the female working class in Paris, are, therefore, the 68,340 women of the second section. Of these 24,810 earn 40 cents a day, and 33,164 more than that sum, and their average daily wages is 43 cents.

From Spain. It is stated that the crown of Spain will be offered to Espartero. Gen. Dales has been officially proclaimed Captain General of Cuba, in place of Lersundi, removed. Marshal Serrano has nominated twenty-five Councillors of State. Justices of the Peace have been reappointed in all the provinces of Spain. Popular demonstrations have been made in Balearic and the Canary Islands in favor of religious toleration, and a petition has been signed, praying the Government to immediately issue a decree establishing freedom of public worship.

In a late letter, Mark Twain writes: "They have a 'revolution' in Central America every time the moon changes. All you have to do is to get out in the street, in Panama or Aspinwall, and give a whoop, and the thing is done. Shout, down with the administration! and up with somebody else, and revolution follows. Nine-tenths of the people break for home, slam the doors behind them, and get under the bed. The other tenth go and overturn the government and banish the officials, from President down to notary public. Then for the next thirty days they inquire anxiously of all comers what sort of a stir their little shivaree made in Europe and America? By that time the next revolution is ready to be touched off, and out they go."

THE CONSULAR SYSTEM.—The Fifth Auditor of the Treasury Department reports that for the year ending June 30, 1868, the aggregate salaries paid to the U. S. Consuls, including losses in exchange, amounted to \$378,750. The total receipts in fees from consulates were \$425,179, showing a revenue from this source of \$61,429. The consular system of the United States was never self-supporting until the year 1866. Since then the net revenue from this source has amounted to over \$60,000 a year. The report also shows that the total expenses of assessing the internal revenue tax throughout the country for the year ending June 30, 1868, was \$5,181,170. The total amount paid to revenue and special agents during the same period, including salary and expenses, was \$163,413. The total amount paid in counsel fees in internal revenue cases, and as rewards to informers, was \$48,808. The total amount of taxes erroneously assessed, and collected and refunded, was \$1,106,516.

Massacre of Friendly Indians.

The Commissioner of Indian Affairs has received information from La Paz, Arizona, of the killing of Coshuckawa, head chief of the Apaches and Mohaves, together with two of his captains and several of his followers. It appears from all the evidence collected that on the morning of the 25th September, about daylight, a party of travelers numbering thirteen, in the employ of two freighters, Conowith and Pinter, assembled at La Paz, and, arming themselves, proceeded to the camp of some Apaches and Mohaves, probably thirty in number, and commenced an attack by firing on the Indians, resulting as above stated. The Indians belonged to the Colored river conservation just about La Paz, and had been in town the entire day preceding the killing. These Indians have always professed friendship for the whites and were willing at all times to assist in recapturing property stolen by marauding bands of Indians residing in neighboring mountains. On the person of the chief were found certain papers showing the estimation in which these Indians were held by the citizens in the vicinity of La Paz. No one in La Paz participated in or knew anything about the killing. It is urged, in extenuation of the act, that these Indians killed a Mr. Brown at Granite Wash, and had stolen mules from Buffman and Chapman, near Wickensburg, and were responsible for all the depredations committed between La Paz and Prescott.

THE WORKING PEOPLE.—The difficulties between the cigar manufacturers and the cigar makers, in New York, have not yet been settled.

The proposition that a committee of arbitration should be formed has been accepted by the Williamsburg cigar makers, but has been rejected by the New York journeymen. It has already been mentioned that the hands, seventy-nine in number, employed by two firms, are now receiving from \$13 to \$19 per 1000. As the men strike systematically, one or two shops at a time, while the others sustain them, the Manufacturers' Association decided last week not to make nor allow of any overtures to the workmen. The Executive Committee of the manufacturers, after examining the work manufactured by the firms above named, reported adversely to an advance. At a recent meeting of the Association, after a long discussion, the firms were permitted to settle their differences with their employes without reference to the Association. The German Piano Makers' Association of New York, report that the Employers' Association, in answer to a request of the journeymen to rescind the resolution that none of the members of the Journeymen's Association are to be employed, have replied that the resolution referred to will be only adhered to during the continuance of the present strike for an increase of ten per cent. The journeymen have passed a resolution to call a mass meeting for the purpose of inaugurating a general strike, with a view of enforcing the withdrawal of the resolution of the employers above referred to, and to compel them to grant the increase of ten per cent. of their wages. They further resolved that the officers of the Association, having lost their employment on account of their official positions, should be supported from the funds of the Society. The blue stone cutters and flaggers of New York have resolved, after Nov. 9th, to stop work at 6 p. m. In Salt Lake City, Utah, laborers are becoming scarce in consequence of the railroad grading east and west giving employment to all persons in want of work. Men and teams are in great demand, and high wages are paid. Stone cutters and masons are advertised for to work near Bear River, at \$5 per day and board.

ARREST OF A FIEND.—Yesterday James Elder, a farmer, of Swatara township, adjoining this city, made information for his honor Mayor Edwards, against a negro named Levi Martin, aged apparently forty years, "for wilfully and feloniously assaulting Elizabeth Himes, a white girl, about thirteen years of age, and ravishing her person." The victim of this hellish brute is a poor orphan, whose father was killed in the army. She had been taken into the family of Mr. Elder to save her from the temptations of the world, and efforts were made by her kind protector to impart to her a liberal education. We fear the law is not sufficiently stringent to mete out the punishment that this infamous scoundrel deserves. Chief of Police Cline arrested and brought him to the Mayor's office last evening, where a hearing was had, and the prisoner committed in default of five thousand dollars, the Mayor exacting the full extent of bail in his power. It seems the girl has been sick for some days, and only yesterday the facts came to light, although known by one of the servant girls employed on the farm. The negro is a large and powerful brute, and no doubt would have done Chief Cline bodily injury had not he placed the muzzle of a pistol in his face and threatened to kill him.—Harrisburg Patriot.

The Fenian Convention.

PHILA. Nov. 11.—The Fenian Brotherhood met at No. 12 South Broad street, last evening, to make arrangements for the reception of delegates to the Convention on the 24th of November.

It was decided to have a military and civic parade on Thanksgiving day, and to hold a mass meeting in the evening, for which National Hall has been engaged. To the military some twenty-five hundred uniforms have been already issued. The Eighth and Twenty-fourth Regiments will wear a blue uniform with green trimmings, and the Ninth the same, except that the jacket will have yellow facings. The majority of the men will be armed with breech-loaders manufactured by the organization. A feature in the civic procession will be a large cavalcade of members of the order. Delegations from circles in a number of sister States are expected to participate. The delegates to the convention will comprise representatives from England, Scotland, Ireland and Australia. Patrick J. Mehan, Esq., editor of the Irish American, addressed the meeting briefly, counselling effective work, instead of parading; and uttered assurances that the mistakes of the past would be avoided in the future. Addresses were also made by Gen. John O'Neil, President of the Fenian Brotherhood, and Mr. Gibbons.
