LARGE CATFISH .- Mr. Daniel Antrim, of Pottstown, caught a catfish in the Schuyl kill, near that place, on Thursday last, that measured of inches between the eyes, and a foot and a half in length.

and became indifferent as to how her conduct was. She received a severe reprimand from, His Honor, the Mayor, and was sent home.

Two lodgers found shelter in the station house, last night.

Work.—Work with a will, and also with your hands and hend. It is such that achieve the great things of the world. Nothing is easy that has value. Laziness and sloth never raised a man above the grade of a monkey. Work does the thing, the right thing and the who thing. Those who have never performed any should try a litle. It is healthy, besides being useful.

FUNNY.—Paper weddings are becoming quite frequent, and form quite a sensation. They occur one year after marriage, on which occasion the "happy pair" and their which occasion the "happy pair and block guests are arrayed in paper costume.—Ex. We think paper woddings occur more than once a year, and indeed are paper weddings, and often do create a sensation when bills for flour, coal, and a new bonnet, are presented.

A Curiosity.—We notice in the show window of Clewell, the Confectioner, 607 Penn street, quite a curiosity in the shape of a house built of pea-nut candy. It represents the Berks County Prison, and is an excellent imitation of that building. It is really a curiosity, and attracts much attention. It was made in the establishment, and reflects much credit upon the workman who thought. produced it.

"GIVE ME A PENNY."-Beggars of every description have made, their appearance within the past few days, from the little child begging for a "a penny to buy a loaf of bread," to the great, big, hard-fisted, strong man, who prefers living on charity to making an honest living by toil. Our citizens should beware of these strolling beggars, many of whom are but thieves, who enter dwellings more for the purpose of stealing than for asking alms.

What's THE USE?—What's the use of minding what "they say?" What's the use lying awake 'o nights with the unkind remark of some false friend running through your brain like forked lightning? What's the use of getting into a worry and fret over gossip that has been set affoat to your disadvantage, by some meddlesome busy body, who has more time than character. These things can't possibly injure you, unless, indeed, you take notice of them, give them character and standing. If what is said about you is the standing. about you is true, set yourself right at once; if it is false, let it go for what it will fetch, until it dies of inherent weakness,

New Buildings,-Messrs. Spohn & Lerch are completing seven two story brick building in Willow street, between Fifth and Sixth. These buildings are built with all the conveniences tenants may desire, and will make pleasant homes for somebody. Mrs. Britten and Thomas Gay have just completed two fine two-story brick houses at

the corner of Sixth and Laurel streets. Mr. High has nearly under roof three three-story brick houses in Sixth street, between Bingaman and Laurel streets. These buildings are being built in fine style, and will add much to the appearance of that por-

tion of Sixth street.

James Weand is giving the finishing touch to a two-story brick house in Laurel street.

George Bush is building a handsome residence at the corner of Sixth and Laurel streats.

Pickeryo. The following will be found to be a very excellent preparation for pick-ling beets, cabbage, &c.: For every pint of spiced vinegar it is intended to make, take one onnou of black pepper, half an ounce of ginger, a quarter of an ounce of allapice, and if desired to be bot, add also a quarter of a drachm of cayenne, or a few capsicums. Bruise the whole of these materials is a mortar and but them into a far or widemortar and put them into a jar or wide-mouthed green glass bottle, tied over with a bladder. Place this in a saucepan of water and keep it hot for three or four days, shak-ing it now and then. If the maker has an enamel saucepan, this operation can be facilitated by simmering the ingredients to-gether. Spiced vinegar is used hot for wal-nuts and cold for cabbage.—Selected,

A SAD CASE.-Mrs. Callahan was dislowed by Officer Kemp with 25 cents. The sum of \$3.01 was raised, with which Officer Lawrence purchased shoes and stockings for both the children, and a cont and cap for one of them, giving the mother the remainder, 76 cents, to buy food. The woman's husband, Peter Callahan, is in New York State, and but for the noble policemen she would have been friendless, and her children might have perished from exposure. She formerly resided in Scranton, but remains at Mrs. Rourke's, in Seventh street, near the Blast Furnace, until she can hear from her husband. We commend her case to the notice of the charitable. Officer Lawrence is deserving of praise for his kindness towards the unfortunate family. It is a pity versally respected throughout Schuylkill sum of \$8.01 was raised, with which Officer county. His decease has caused general Lawrence purchased shoes and stockings arrested yesterday by officer Haggerty, Mary had taken too much of the "cratur" State, and but for the mother the remainwards the unfortunate family. It is a pity there are not more like him—for the sake of the suffering poor everywhere.

Letter from Wernersville.

WERNERSVILLE, Nov. 18, 1868. EDITOR DAILY EAGLE: - Everything in Wernersville is moving on as usual, and a healthy state of improvement is manifest. There are at present three buildings going up in the town, and the marble quarry is progressing finely. Our friend G. M. Webber is dealing extensively, and I hope profitably, in coal and grain, especially the latter, which he is purchasing and re-selling in large quantities. Such mon make business lively

wherever they are.

D. B. Bucks has bought Henry B. Werner's farm, near Wernersville, for \$13,500.

There will also be a change in the proprietorship of the Wernersville Hotel. The present landlord will retire, and will be succeeded by W. M. Michael W. Buth ceeded by Mr. Michael W. Ruth.

Our worthy friend Dr. A. Smith has returned from New York, and has not gone up Salt River, as his Republican friends Yours truly,

A number of the shop windows begin to show signs of the approach of the holidays. Large numbors of fancy articles are displayed.

The fashion in New York this season is said to be to have no groomsmen at the weddings. It is said that people who go to law for damages usually manage to get them.

Boys, save your money and you will find it one of the most useful friends. How does a butcher express his affection? By

sonding a tender line. Boys, take care of your pennies and they will

grow to dollars. A moonlight velocipede race by ladies took place recently in New York.

New England, this early in the season, is reporting snow-drifts four feet deep. There is not a tendril, a twig, or a tree here-

abouts, but now looks leafless and lone; solemnly sighing the moans of Autumnal winds. Yesterday was a genial autumn day, that kissed

the cheek softly as the forgotten summer zephyrs dallied round it. The poorest boy, it he be industrous, honest and saving, may reach the highest honors in the land. Boys, intemperance is the cause of nearly all the

trouble in this world; beware of strong drink. Can the secrets of Nature be learned from babbling brooks. Favorable reports of the supply of game are

made from all parts of the country. House hunters for next spring are commencing

operations already. Scotch shawls, worn as a plaid, are a threatened fashion for gentlemen.

The Tax on Districts Spirits.—Instead of decreasing the revenue of the government, as was at first supposed, the reduced tax on distilled spirits is rather increasing it. Monday, Tuesday, Wednesday, Thursday, Friday, THE weather of to-day is that of waning autumn slowly seeking the lap of winter.

neat appearance. Individuate, weatherwise and otherwise, are predicting a very severe winter. The surest indication that we know of is the sudden increase in the price of coal.

PLENTY.—It is stated, by persons from different sections of our country that partridges are quite abundant; the weather for the past week has been very favorable for shooting them.

Going to Church.—Perseverance Council No. 19, J. O. of U. A. M., will attend the Fifth Street M. E. Church, on next Sunday morning, in a body. Rev. Mr. Pattison will preach a special sermon on the occasion.

OYSTERS.—A process to open oysters is to inclose them in an air-tight box, when steam is introduced, and the work is done. For and canned a day.

Some folks are prodigiously penitent over other people's ains, and seem to think they have a special call to confess them to the world. They will gouge their brothers' eyes rather than leave a single mote in them.

PRIZE DRAWN.—The drawing of a chance in a private lottery took place at Mishler's Hotel on Tuesday evening last. The prize months imprisonment. Wharton Morris for was a pair of beautiful vases and a vase of wax flowers. The former was drawn by wax flowers. The former was drawn by Mrs. Wm. Ermentrout and the latter by Mrs. T. M. Yeager.

IMPORTANT TO PENSIONERS.—The Pension Act of July 27th, 1868, varies very much from those previously passed, and eularges the number of such as are entitled to pensions under previous acts: 1st. It allows the two dollars per month

to children of the soldier, by a former wife. 2d. It gives arrears of pension to a large class of persons now on the Pension Roll not previously entitled. 3d. It enables heirs to draw arrears of

pension in certain cases, which were not previ-ously provided for.

4th. It increases the pension from four to eight dollars, to all persons now on the roll from the Mexican, or any previous wars.

CRLEBRATION OF THE SONS OF AMERICA AT JONESTOWN.—The celebration of this order at Jonestown, last Saturday, was a very successful affair. Camps from Jonessells at full prices, while inferior sorts are not wanted, Small sales of Red at \$1 85@205, and Amber at grove, Schuylkill Haven and Cressona participated in the proceedings. A meeting was organized in the square, the concourse of people being so large that no building of the place was sufficiently large to accomodate them. G. West Blake. of Philadelphia, State President of the Order, presided. Speeches were made by D. Orr Alexander, of Williamsburg, and J. R. Helms, of Cressona. Everything passed off very successfully and pleasantly.

You Will Find it Successful .-- If you wish to keep a town from thriving, don't put up any more buildings than you can conveniently occupy yourselves. If you should accidentally have an empty dwelling and any one wants to rent it, ask him about three times the actual value for it. Demand a Shylock price for every spot of ground God has given you stewardship over. Turn a cold shoulder on every mechanic or business man seeking a home among you. Look at every new comer with a scowl. Run down the work of every new workman. Go abroad for wares rather than trade with those who seek to do business in your midst; Fail to advertise or in any way support the paper, so that people abroad may not know whether any business is going on in your place or not. Wrap yourselves up within yourselves, and cover yourself up with a coat of impervious selfishness. There is no more effectual way to retard the growth of a town than actions like those enumerated. Use of Lexons. - When persons are fever-

ish and thirsty beyond what is natural indicated in some cases by a metalic taste in the mouth, especially after drinking water, or by a whitish appearance of the greater part of the tongue, one of the best "coolers," in ternal or external, is to take a lemon, cut off the top, sprinkle over it some fine loaf sugar, work it downward into the lemon with a spoon, and then suck it slowly, squeezing the lemon and adding more sugar as the acidity increases from being brought up from the lower point. Invalids with feverishness may take two or three lemons a day in this manner, with almost marked benefit, manifested by a sense of coolness, comfort and FRESH DEVOS.—Dr. Light, No. 1 North Fifth street, Reading, Pa., has in his store one of the finest and best selected stocks of fresh drugs in this city. Dr. Light and his assistant are always ready to wait on persons who are in want, at any hour or the day or night. Dr. Light and his assistant are hoth accomplished druggists and gentlemen, versed in Pharmsclogy.

Use the Champion Oil Phine Boot Blacking. It is an excellent article. Price 5, 8, 12 and 20 cents, For sale at N. T. Geho's, 653 Penn street, invigoration. A lemon or two taken thus at tea-time, as an entire substitute for the or-dinary "supper" of summer, would give many a man a comfortable night's sleep, and an awakening of rest and invigoration, with an appetite for breakfast, to which they are strangers who will have their cup of tea, or supper "relish," and "cake" and berries or peaches

They were pursued at once, and Stamm was caught, but Seiders escaped and came to Reading, where he was arrested, a week or two afterwards, by the police. Powder, fuses, and various implements for blowing open safes, were left behind them in the Station House.

Both these young men live in Reading and both are old offenders. Soiders is an especial rascal, and as a thicf, bold, cunning and adroit. Stamm plend guilty at the November Sessions of 1866, upon five indictments charging him, in connection with a gang of juvenile accomplices, with breaking open-freight cars on the Reading Railroad while the cars were in motion and stealing various articles therefrom, for which offences he was sentenced to 18 months imprisonment. He had been out of prison about 4 months, when he thus begins a course of robberies on a bolder scale. Seiders was convicted at April Sessions of 1867 of larceny and assault and battery, on both of which charges, he was sentenced to five months impris-onment. He was again tried at last August Sessions on two indictments for breaking into the offices of Jacob and Amos H. Deysher, in Reading, but although there existed at the time a moral certainty of his guilt, the legal evidence was insufficient to ensure

his conviction. The sentence in both the above cases were postponed until Saturday morning next, Nov. 14th. Garrigues and J. S. Richards for Comm. Bechtel for Stamm, and Gear-hart for Seiders.

Something Worth Engwing.—N. T. Geho, 653 Penn street, has the following useful articles, for which he is the sole agent:

The Champion Baking Foreder surpasses everything ever used for making Light, Sweet and Nutritious Bread, Cakes, Pastry, Dumplings, etc., and may be used, in every respect, as the Axuma. This is a very useful article and should be in the hands of every housekeeper. Full directions how to use it on each package.

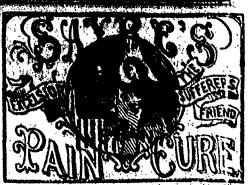

The Champion Oil Paste Boot Polish.—This is an excellent blacking, and as we have used it for a long time, we can recommend it as the best in the market. It makes the boots shine like a mirror and the leather soft and pliable as kid. Try this blacking and you will not do without it.

The Magic Boot Polish.—Shine your boots with Magic. Five drops of the Magic Boot Polish makes the leather soft and pliable as kid, and one rub across the boot with the polishing brush gives a durable brilliant lustre, reflecting your own image like a mirror, without solling the hands, or filling the bristles of the brush like ordinary blacking, it is therefore the cleanest, the best; and requiring so very little, it is the cheapest ever known, and the only boot polish in the world, entirely free from injurious ingredients.
