Fire.-Last Friday, the house of Michael Woodley, in Amity township, near Baumstown, was destroyed by fire, with all its con-tents, including one hundred and seventy-five dollars in money. The family being absent at the time, it is not known how the fire originated. As there is no insurance on the property, the loss falls heavily on Mr. Woodley, who deserves the commisoration and substantial assistance of the com-

WHERLBARROW Excussion.—There will be two wheelbarrow bets paid this afternoon, by the losing party, and one will not be an casy task to perform. One man is to wheel another from the Friendship Engine House out to the Mineral Springs, and back again. There was more fun in making this bet than there will be in paying it. Another party is to wheel his opponent from the General Taylor Hotel down to the Dispatch office at 1,0 elock this afternoon. Section & 1

SHORT DRESSES, - Fashion sometimes takes i sonsidio iroak, and as such froaks are fev and far between, when they occur they should be recorded. In this category we place the present fashion of wearing short dresses. What is more disgusting than to see a lady with a hundred dollar dress sweeping up all the dirt, mud, and tobacco spit on the streets.

This wrinkle is a good thing for the bootmakers too. A shabby pair of gaiters or balmorals is discarded at once. As we often quoted, "It's an ill wind that docan't blow good to somebody."

ON A PLEASURE TRIP.-Yesterday afternoon five hoys hailing from Reading, and giving their names as Daniel Bruce, George Rupp, John Bienish, Frank M'Kinley and Daniel Schrader, were arrested for lounging around the Pennsylvania depot, and upon a charge of being runaways. When brought before the Mayor they stated they had come from Reading on a freight train, and were taking a pleasure trip. They were committed to the look up until this morning, when they were discharged upon promising to re-turn to their homes. — Harrisburg Telegraph.

PROTECTION FOR FRUIT TREES. -A correspondent of the Journal from Caernarvon township says: "The farmers are introduc-ing an invigorator to their fruit trees which will destroy any insect that may attack the trees. It has been extensively tried in other parts, without a single failure. It'so effectually destroys the curculio which has been so destructive to plums and cherry trees, that those who use it will have fine crops next year. It will also prevent mill-dew, rust and weavil in wheat. Farmers should all look after their fruit crop, as it has been a failure for several years."

WESTERN PORK TRADE. -- The Cincinnati Price Current, of Wednesday, says: "The pork season has commenced, and many packers have been cutting hogs, contracted for some time back, but the receipts have not been large enough to furnish, all the houses to a sufficient extent to cut. For the past week the total receipts do not exceed seven thousand head. The weather during the first three days of the week was too warm to cure with safety, but since Saturday the temperature has been low enough, and the demand for hogs has been sharp at about \$9 60 to \$9 75 not.

APPLICANTS FOR OFFICE. - The following persons have announced themselves as applicants for the local offices under the Grant

Administration: For Collector of Internal Revenue. - William M. Baird, Esq., Capt. George W. Durell, Major James M'Knight, and Col. William A. Bands—all of Reading.

For Assessor of Internal Revenue.—Capt. Michael Walters, of Reading.

For Postmaster.—Col. John Fritz, of Reading.

Maj. George M. Lauman, of Reading, has announced himself as a candidate for Harshal of the Eastern District of Penn-

visited the Berks County Alms House, and there saw this poor babe. The community will recollect that this child was left at the alms house door within a few hours after it was born, on one of the coldest nights of last year, in a terrible snow storm. The child is growing, but has an ugly sore on its right ear, which should be carefully attended to. Mr. Kagle, the steward, is a very humane man, and we are sore he will exert every means within his power to make the condition of this child as comfortable as possible. sible. We think its parents should come forward at once and care for its wants, as legal steps may be taken to punish them for this great crime of exposing to the elements an innocent babe a few hours old.

LOOKING AHEAD.—We once fell in with a business man, and he was a person of wide experience, too, who said that, whatever might happen to him, he always looked sixty days ahead, rather than sixty days behind. This was sensible, and there was profound philosophy in it. For the habit of looking by Shomo, under circumstances of great agon the dark side of matters soon begets a gravation, and this in fact furnished the key despondent feeling in the heart, and disinclines a man to make any exertion at all. To look forward to better days, however, and to a turn of fortune for better times, is naturally calculated to inspire one with enthusiasm, to stimulate one with the new wine of hope. It makes all imaginable difference whether a man desponds or hopes. Hence, when a blast of trouble comes, the true way for Reading prices, which we give below: Live is to turn your back upon it, to refuse to chickens were plenty, but held at high figures— have anything to do with it, to forswear all purchasers as a general thing passed them by after connection with its threats or promises. have anything to do with it, to forswear all connection with its threats or promises. THE BAINBOW ENGINE.-We yesterday dropped in at the Rainbow House and took a look at their beautiful new engine, which is perfect in all its parts, showing plainly that the men who built her were masters of their profession. The engine was built at Manchester, New Hampshire, by the Amoskeag Manufacturing Company, and was brought to this city by Mr. William Math-ews, agent of the Company. Many parts above the running gear are plated with ger-man silver, and the rest finely polished. The whole weight of the engine rests on three springs, and the break is so constructed that it can be controlled by either the driver or the firemen on the boiler platform. This is an improvement on the engine. On the back part of the steam chamber is the silver plate of the Manufacturing Com-pany, and on the sides are beautiful silver shields inscribed; "Rainbow, Instituted March 17th, 1773, Incorporated October 18th,

When duty calls, Tis ours to obey." The tank on the front, which can be used for a seat for the driver, is silver plated, and holds 42 gallons of water. The gong is under the tank and is out of sight. There are four silver side lamps and one head light. The pumps are made of gun metal. The engine is a soft coal burner, and weighs 6,600lbs. We have neither time or space to day to give a full and minute description of the engine, but may on Monday. The Parkley The Reading Adler cannot be surpassed as an advertising medium.

THE ORPHANS' HOME.—In consequence of failing health, the Rev. D. Y. Heisler has been constrained to resign the Superintendency of the Orphans' Home at Womelsdorf. The Board of Managers have called the Rev. D. B. Albright, of Orwigaburg, Pa., as his successor. This gentleman took charge of thanksgiving and prayer.

his new field of labor on Thursday last.
About 100 friends of the Home from Reading and the neighborhood of Womelsdorf visited the place on this day, to welcome the new Superintendent and his family. All came with filled baskets, with The contents of which they entertained the Orphans, besides setting a table for their party. In the afternoon an appropriated reception service was held in the Chapel. The President of the Board, in the name of the many friends of the Home, thanked the retiring Superin-tendent and his family for the self-denying services they have rendered to this institution, and bade them an affectionate adieu. The new head of the department was then introduced to the inmates of the House, who were admonished to a faithful observance of the rules of the institution. A half a dozen of the neighbouring clergy took part in the services. The Rev. Mr. Albright is a native of this county, a gentleman of creditable literary attainments, and possessed of a native aptitude for this great and good work of charity. He is a brother of Wm. B. Albright, Sheriff elect of this county. The formal inauguration of the new Superintendent will take place on the second day of Christmas. This Home has had the good fortune of finding many had the good fortune of finding many increasing.

The suit of Gov. Reed, of Florida, against Lieut. Gov. Gleason and Secretary Alden. for conspiracy, was quashed by the Court at Tallabasso, yesterday, for a technical informality. The status of the Governor is expected to be decided by the Supreme Court on the 19th.

A case is to be made up in Alabama to test the legality of the present Legislature of that State. The law orders an election for members of the Legislature on Novem-

ber 8d. It is reported that the Kansas Senate will be unanimously Republican, and there will

be but six Democrats in the House. Alabama is conceded to have given 2,500 majority for Gen. Grantie . If the fellow
