

THANKSGIVING.

To-morrow will be Thanksgiving day, which will be generally observed throughout the country by religious services and the closing of places of business.

It is eminently proper that this day of thanksgiving should be observed by all. We, as a nation, have much reason for gratitude to the great Giver of all good.

While Europe has been trembling for months on the very verge of a bloody and devastating conflict, brought about by the mad and cruel ambition of wicked monarchs, we have had comparative peace.

While South America has been desolated by earthquakes, we have almost entirely escaped these terrible visitations of an offended God.

In short, although we have deserved severe punishment, we have received many blessings for which we should be deeply grateful. God has prospered us in all things except in those in which we have wilfully erred and wickedly opposed His will.

Let us, then, give thanks to the Giver of all good, and dropping all "hatred, malice and incharitableness," join in a day of devout thanksgiving to Him who has been so mindful of us, and who has enriched us with his choicest blessings during the past year.

THE HATONET BUILED.

The great Winnebago chief, Simon Cameron, has taken a load from the minds of his enemies in his own political party, by declaring that he will take no part in the fight for the U. S. Senatorship from this State.

"Senator Cameron authorizes the statement that neither his son, J. D. Cameron, nor his son-in-law, Wayne McVeigh, will be in any one's road for any office or place, notwithstanding the statements to the contrary."

REMEMBER THE POOR.

Reader, if you possess enough and to spare of this world's goods, do you not know of some poor family in your neighborhood, to whom Thanksgiving day brings no joy, because the iron hand of Poverty holds them in its crushing grasp?

Interruption of Yeavious is subsiding, and there are no longer any fears for the safety of the adjacent villages.

Of the various conditions in which civilized man is found labor alone is natural; all others are artificial and dependent on labor, which, by creating values, creates capital, which is merely the representative of so much labor.
