Ir has often been observed, at a public entortainment, that when there is anything particular to be seen, and everybody wants par-ticularly to see it, everybody immediately stands up, and thus effectually prevents anybody from seeing anything.

The newspapers are coming to us with the usual number of terrible coal oil accidents, Our citizens cannot be too careful in the manngement of coal oil lamps. They should make it a rule to fill their lamps during the day, and not by the light of a lamp, or by merely unserowing the top with the wick burning, as is too often the case. By observing even ordinary precaution many of the frightful accident, which are now recorded would be dent, which are now recorded would be

FASHIONABLE EXCUSES.—When asked to play in company and you intend to comply, do so at once, and do not oblige your friends to beg for a half hour. It you delay, you will fare worse as regards criticism than if you cheerfully comply with the wishes of your friends at once. But the worst you can do under such circumstances, is to refuse for a long time, and finally to play anyhow. Every musician should have at least a few pleces with which she is perfectly acquainted. Do not, therefore, neglect this, nor bring the stale by the that you have not your notes with you. When your plece is finished; rise from the plane and other your plece. and and give your friends an opportunity to favite others to the piano also. It is better to charge, we hope to see a large turnout.

A 11 ()' | BRADING, JAN. 8, 1989. In Philadelphia, there was a decided fet up in the money market resterday, though the demand for capital couttured quite active. The favorable feature in the change is the evident increase of capital seeking investment, which, now that the turning point has been reached, will probably continue for some time and materially reduce the present high rates for money. We quote call loans at 707% per cent, on Government bonds, and 708 per cent, on miscellane ous securities. There were some few transac tions on the streets at prices ranging from 8 to 10 per cent, for first-class paper. The present condition of trade is unsatisfactory

for this period of the year. There is a general duliness pervading all the avenues of trade, but there is a hopeful feeling that as money becomes more abundant trade will again revive.

The business at the Stock Board was light yes terday morning, but there was a decidedly better feeling. Government and State Loans were steady. City Loans, now issue, sold freely at 1000.@100%o.

Among the many restoratives which nature ias supplied to relieve the adiletions of humanity, there is no more favorite one for a certain class of diseases than the "medical gum" of the Wild Cherry Tree; but however valuable it is, its power to heal, to soothe, to relieve and to cure, is enhanced tenfold by scientific and judictions combination with other ingredients, in themselves of equal worth. This happy mingling exists to a remarkable degree in . Dr. Wistar's Balsam of Wild Cherry,

STRONG TESTIMONY,
From Bens. Wheeler, Esq., Dopot Master of South Royalston, Mass.

"In the spring of 1838 I was most severely afficted with a hard, dry cough, with its usual accompaniments of night sweats, completely prostrating my nervous statem, and producing, such a debilitated state of health that, after trying medical aid to no purpose, I had given up all hopes of eyer recovering, as had also my friends. At this stage of matters I was prevailed upon through the influence of a neighbor to try Wister's Balsam of Wild Cherry, and, before using two bottles, the effect was almost magical. My cough entirely left me, the night sweats described me, bope ence more dated my depressed spirits, and spon I had attained my wonteil strength and vigor. Thus has this Balsam, as has often been remarked by persons conversant with the above facts, literally snatched me from the yawning graves. You are at liberty to use this for the dencit of the afficted:

THE IMPORTANCE OF HEALTH.

None but those deprived of this blessing know of its loss. The pimpled, blotched and tettered covered person looks upon a clear, smooth skin with jealousy, and inwardly desires the same. Those whose systems are filled with the virus of SCHOFULA, and other cutaneous diseases, cannot have good health. When the blood is impure, disease is sure to follow.

All have timely warning in those Pimples, Biotches, Tetters, Sores, Boils, Copper-colored Patches, Scales, &c. Avert the calamity by purifying the system with the SAMARITAN'S ROOT AND HERB JUICES, Secondary have the virus of Syphilis in the system, and in that condition contemplate marriage; knowing little of its baneful induces on the constitution. To such we say STOP. First cleanse yourself of those impurities; of that scrotulous infection, (which in many cases is hereditary in the constitution,) before you bring misery on yourself and offspring. SONG OF IRON.

I am mighty in the saber, Florody wielded by the brave, Glorious in the stalwart steamer, Laughing at the storm and wave.

Beauteous in the palace pillars, Saving in the pointed rod. As it brings the deadly lightning Quelled and harmless to the soil. But there is a glorious essence, Where I take my grandest power, Giving to the maching surest, Sweetest aid, in danger's hour.

See! before me fly diseases! See the darkest hydras bow! ! See the rose of health and beauty Take the palest check and brow.

Fly, dyspepsia fly consumption!
Yes, all lils are crushed at length;
For I give what human nature
Only ever needed—strength!

Shall Itell in what great essence I can thus your spirits cheer up! Palild, trembling, dying sufferor, "Tis the famed "PERUVIAN SYRUP," The PERUVIAN SYRUP is a protected solution

DR. JACKSON'S ANALEPTICA.

A NEW REMEDY IN CONSUMPTION.

A physician who had consumption for several years, with frequent bleeding of the lungs, cured himself with a medicine unknown to the profession, when his case appeared hopeless, and when given up byseveraleminght physicians as incurable. He is the only physician who has used it in his own person, or who has any knowledge of its virtues, and he can ascribe the diegree of health he now enjoys to nothing but the use of this medicine; and nothing but utter despair and entire extinction of all hope of recovery, together with a want of confidence in all others, induced him to hazard the experiment. To those suffering with this malady, he proffers a treatment which he confidently believes will eradicate the disease and restore health. He has witnessed recoveries that seemed beyond hope, when the worst symptoms existed. Call or send for Circulat.
