THE BALL ON SUNDAY.—We noticed yesterday in the fields on the outskirts of the city a large number of young men and boys playing base ball. Have the Police no authority to stop it?

It is well for a man to mind his own business, if he has a business to mind. If he has not got any to mind, it is no good excuse why he should mind that of those who mind their own. Mind that. From all appearances the number of build-

ings to be erected the coming season will greatly exceed that of last year, and these linprovements will be mostly of a first-class character of houses.

An exchange says, that restless and craving infants may frequently be relieved and quiet-

GAME.-Mr. Elias Yeager, son of William Yeager, residing at 249 North Third street, sho, this morning, at Bushong's Furnace, two large hawks. They each measured four feet and six inches across the wings. They can be seen at Lauor's Park.

PROVIDENCE IS not always a safe place to trust to. We saw a party who went there yes-terday, and returned quite overcome with the length and breadth of the journey. "Cronk" is good in its way, but with a "stick" in it, it is very likly to "stick" longer than is pleasant.

SATURDAY was one of those lovely days so common in early spring time, but a decided rarity in the middle of winter, when we look for naught but snow, ico and bitter cold. The streets were thronged all day long with promenadors, and business in the retail line was quito brisk.

ILL.—We regret to learn that the emicient and gentlemanly orier of our court; Joseph Ritter, Esq., is confined to his bed by illness, which, however, though serious, is not of a dangerous character. His pleasant face was missed this morning by all who are in the habit of attending the daily sessions of court, and much sympathy was expressed in his behalf. The functions of crier, in the meantime, devolved upon the Prothonotary.

LECTURES ON THE DOCTRINES OF SWE DENRORO.—Rev. N. C. How to MAKE A COAL FIRE .- If every hody knew how to make a coal fire, there would be more comfort inside and less smoke outside the houses, in cold weather. Before you throw ROCHOLL'S Cotillion Band will give a grand on the coals, pull all the fire to the front of the ball at Aulchbach's Hall, on the evening of the back with the cinders or ashes found under the grate, then throw on the coals. The gas involved in the process of roasting the coals will be absorbed by the cinders, and render them in an increased degree combustible. The smoke will thus be burnt, and a fine glowing, smokeless fire will be the result.

Union Meetings .- On Saturday evening the Fourth St. M. E. Church was filled with Christian people of the various Evangelical Churches, upon the occasion of a Union Religious meeting. The Pastor, Rov. T. A. Fernloy, presided. The exercises were very interesting. At the close the congregation arose en masse and requested the continuance of the daily afternoon Union services during the present week.

This Monday afternoon they will be in the Otterbein Chapel North 6th st; to-morrow in the Fourth St. M. F. Church; Wednesday in the Presbytorian, Thursday in the Baptist and Friday in St. Peter's M. E. Church.

No change is made in the uniform of the officers.

Wonder when Reading will raise those mili-tary companies so much talked of last fall? Young men, agitate the matter!

FROM SCHUYLKILL COUNTY.—Henry Eyerly, of Union township, Schuylkill county, has been lodged in prison in Pottsville, charged with causing the death of two basterd children one in July, 1866, and the other in January, 868.——J. H. Batdorf was run over and killed by a car on Monday last, at Ashland.

V., is reported to have been killed by the capsizing of a sleeping car this side of Pittsturg, a few nights ago. He had in his possession \$3,000 in money, and a deed of some land in Schuylkill county, which were properly taken care of.

RUMORRO CHILD MUNDER.—It has been rumored on the streets of this city for the past few days, that a woman, residing in the First Ward, who is the wife of a boatman, caused the death of her child. There are different stories affoat, and one runs thus: On the last ed by a draught of cold water. Who knows but this agent might profitably supercede spanking and paragoric?

Stories Mioat, and Die runs thus; On the Race trip the husband made he "froze in" at some point in New Jersey. The family, consisting of husband, wife and child, lived on the boat.

From the investigation we were able to make, this seems to be about the true story.

A DROLL fellow was asked by an old lady to read the newspaper, and taking it began as

"Last night yesterday morning about nine in the afternoon, before breakfast, a hungry boy about forty years old, bought a fip custard for a levy, and threw it through a brick wall nine feet thick, and jumping over it broke his right ankle off above the left knee, fell into a says a Western exchange. They ought to dry mill-pond and was drowned. About forty years after on the same day an old cat had twenty turkey gobblers; a high wind blew Yankee Doodle on a frying-pan and knocked the old Dutch Church down, and killed a sow and two dead pigs at Boston, where a deaf and dumb man wastalking French to his Aunt Poter."

The old lady, taking a long breath, exclaimed: "Du tell!"

Fire.—Last evening, between 6 and 7 colook, a fire broke out in a frame stable at the Henry Clay Furnace of Messrs. Eckert, on Mill street, in the Second Ward. The flames soon communicated to the frame oil-house ad-joining, and both buildings were destroyed. The fromen were quickly on the spot, though the run was a long one for most of the companies, and the flames, which had burned flercely for a time, were extinguished, leaving the charred frames of the buildings still standing. A large pile of books, containing old accounts, were saved in a damaged condition, and carried to a place of safety by the firemen. Ton barrels of all were also saved, and two mules were led out of the stable unburt. A stable Owing to the disarrangement of things in the exact less is not ascertained. The streets were filled with thousands of people, men, women and children, hastening to the scene, and their return resembled the march of an army—the sidewalk and the middle of Sixth street being black with people as far as the eye could reach in the moonlight. The fire is supposed to have been the work of an incondiary.

Among the other literary matter of this number, we may note "The Unknown Guest," a fine story by Mrs. Harriet Prescott Spofford; "Warren's Ward," by Mrs. Homer: and the continuation of Miss rations for this trip, and will be accompanied by the Ringgold Band of 25 pieces.

Acoident.—A serious accident occurred at Reber's farm, about two miles from town, on Saturday. A young man in his employ was ongaged in feeding a corn shelling machine, driven by horse power, and a jam occurring, be tried to force the corn down with his hand, and was caught by the sheller and the fingers were completely torn off. Eps of EAGLE:—You will pardon me for auggesting one or two rescond for the "tight money market in Reading." The first is that money is tight in Lancator, Allestown, Pottsville and Norristown. I believe that the National Banks located in these several places do not discount. Where the money is it do not not discount. Where the money is I do not know. The second is that a great deal of money has been sent out of this city and county, say between \$100,000 and \$500,000, to Juarez's dominious to dig gold and silver. I suppose this can all be reclaimed—in a horn. The exact sum leaned by our banks to this brilliant project of working the abandoned mines of the some time wat, continues very dult, and prices. Church, yesterday afternoon: The lecture was well attended. It must be good news to our Christian friends to learn that the Sunday Schools of the various churches of the city are all in a prosperous condition. They are better attended now then ever they were. We shall shortly give the number of scholars of each school of the city. Anything relating to the Sunday Schools, which might be of interest to the public will always find space in our columns. The Union Meetings, which have been so

successful in the past two weeks, will be con-tinued during this week.

In the Baptist Church, the Pastor, Rev. George Frear, preached a very impressive sermon on the "Coming World," and impress-ad his heavier with the ed his hearers with the necessity of awaking out of their "spiritual sleep" and preparing themselves for the coming of the "bridegroom." The sermon was, delivered with a great deal of earnestness, and, no doubt, most of his hearers were convinced of the truth of his arguments. The special meetings in this church still continue to meet with success.

The spirit of Christianity, is diffusing itself through our churches with gratifying results.
A large number of repentant sinuers have been reclaimed from the meshes of iniquity. Many who were expected to the wrath of an offended God are now rejoicing in His smiles.
