LURLINE .- Poets have clothed the river Rhine with many curious and mystical le-gends. One of the most familiar of these is known as Lorelei, and there are numerous German poems in which the legend of Larline is either found, or reference made to the character and fascinating influence. A synopsis of the story of Lurilie as written by Wolfgang Mueller in his poem by that name is as

Loreloi or Lurline is a fairy sorceress of perfect beauty, who by reason of disappointment in love, has become an enemy to mortals, and all who listen to the 'witchery' of her song, perish.
