CITY BILLIARD SALOON .--- Our young friend CITY BILLIARD SALOON.--Our young friend William Goldman has just completed lis new billiard saloon in Mishlet's Hotel. Two'ex-cellent new tables have been placed in posi-tion, and are pronounced as fait by those who admire the game. The room is "fixed up" in beautiful style, and so arranged that all will be comfortable who may go there to play or witness the games. Billy is a deserv-ing fellow, and we bespeak him much patron-age.

Southand States Press COAL .-- It is rumored that there appears to

be some stagnation in coal business, in New York and other markets which occasions a general blockade of the outlets for coal-among them the New Jersoy Central Reil-road, the Morris and Essex, and the Camden and Amboy by which several collicities in the Wyoming region have been compelled to abandon work for a few days. The expecta-tion is that they will be opened and business restined in a short time.

CITY COUNCILS .- The councils of this city should acquaint their constituents of their procoedings.

Coedings. How can this be done? We reply that the voters and constituents of our councilment are either Republicaus or Democrats. They are not neutral men. In order, therefore, to in-form them, let them publish their proceedings in the Democratic and Republican dailies. If this is done all parties will be posted, whereas now only those who are neutral, know any-thing as to what is going on. Who are the neutral tax-payers of leading ?

RAILROADS.—An exchange has, given a list of the railroads in progress in our State. There are eight in all, which speaks well for the pros-perity of our Commonwealth. They are as lows :

POLICE AFFAIRS ---- Gaunt and cheerless was the appearance of the Police Headquarters this morning. There wasn't a black eye or a bloody nose to be seen anywhere in the vicinbloody nose to be seen anywhere in the vicin-ity of that popular institution. Why is "this thus?" That's the question. We feel sure that our good friend, Capt. McNall, the Chief of Police, would be happy to accommodate all the "bruisers" and "bummers" in the city, and we have a goodly number of this noble gentry, that apply for admission. But "bruis-ers" and "bummers" even put themselves on their good behavior at times, and as a conse-quence business at the police board is dult and its stock below par. This is the reason and its stock below par. This is the reason why matters are "thusly" to day, and why we have nothing to report from the corner of Fifth and Franklin, except that 13 lodgers were accommodated last night.

What airs some people and places do put on 1 These so-called cities of Harrisburg and Scranton are the most pretentious places in Scranton are the most pretentious places in the State ! Everything within their presoribed limits is the best, and places like Reading, which have twice or three times the popula-tion, are of no account whatever ! Both Har-risburg and Scranton are proficient in the game of braggadocio! The police force of Scranton presents in array something akin to the recruits of Sir John Falstaff, and to com-pare it with our fine-looking, handsomely-uni-formed force is sheer nonsense !

Loss.-Mr. J. H. Sternbergh, the proprietor of the Reading Hot-Pressed Nut Works, has sustained a loss of four or five thousand dol-lars on the account of the failure to operate of a new strangement for heating iron, which will have to be taken out of his new works in North Third street, and some other process substituted. PERSONAL.-Dr. Wallace, of Reading, has old position as Naval Officer. He would like it made a life office, as he bases his claims on the fact that he married a forty second cousin of the late President Lincoln. We fear he has no show for the position. — Washington Gossip Sunday Mercury.

Typographic.—We are glad to see that the compositors of this city are taking active measures for the formation of a Typographical Union. The need of an organization of this kind in our city has, long been felt by both employer and employee, and we hope that the preliminary deliberation now being engaged in may culminate in a solid and firm Union. Attempt at Wholesale Poisoning—Fatal Result.

WARSAW, Ind., Feb. 8.-Last April John W. Vannatta, from Fort Wayne, Indiana, secured the affections of a ... Miss Horn, of this place, and married her, in opposition to the wishes of ther parents and relatives. On the wedding night nearly all the guests, thirty in number, were taken sick, with every appearance of poi-soning by arsenic. A sister of Miss Horn died from its effects. It has been found that he has proposed an elopement with a young lady, Miss Bennett, within the last few days, and in his letter to her he gives a full history of the poisoning, acknowledging that he had put a large quantity of arsenic in the water from which the coffe was prepared, and that he did it in revenge for the manner in

which the family treated him." He was arrested on Friday, and after an examination, commit-ted to jail in default of bail to the amount of \$50,000, All the parties concerned are among the most respectable citizens of this place. ` **, ``**

My cough entirely loft mo, the night sweats deserted me, hope once more clated my dopressed spirits, and soon I had attained my would strength; and vigor.
