We are proud to see that our editorial
genius is appreciated by the Dispatch. It
has already published one of our editorials,
and we hope soon to see it
stereotyped, and kept at the head of the
paper. We are glad to see our neighbor
publish a sensible article occasionally,
and we hope he will always good
Democratic men.

Sixty-ninth Infantry. At the re-
union of the officers of the Army of the
Potowmack, held in New York on Monday,
Gen. George D. McClellan was elected
tongue-in-cheek, "and on taking his
seat was greeted with the most enthusiastic
applause." The General acknowledged
the compliment in a brief ad-
dress. "So says the Phil. Ledger,"

The "Boys in Blue" are becoming dis-
tant, and should be reconstructed.

There has been a riot near Hampton,
Va., in which the negro "squatters" were
driven from their Radical shanties and a guard of
United States soldiers. The "colored
troops fought nobly" until the arrival
of an entire company of soldiers, when
they gloriously made use of their India
rubber heels, and their shanty was torn
down by the troops. Model citizens,

Congress did not celebrate Wash-
ington's birth-day, probably because Wash-
ington was a "coward" and a "slavholder."

But the 22d upon the birth-day of
Lincoln, Thad Stevens, or some other
Radical number, no doubt, Congress
would have adjourned in respect to his
memory." The Father of his Country is
held in contempt by those destructionists
who cannot bear the most distant allusion
to his great regard for the Constitu-
tion which they are endeavoring to de-
stroy.

BROWNLAWN KINGDOM.
A Memphis dispatch gives the follow-
ing account of the late tragedy in
the misgoverned "loyal" kingdom of
Brownlawn Brownlow:

"A horrible tragedy occurred on Fri-
day night three miles west of Raleigh
Springs. A party of white men went to
the house of Colonel Thomas Dickens, while
two men, named Wilson and Humphrey, were eating supper, and
knocked at the door, which was opened by
Humphrey without saying a word. The
party shot Humphrey through the
body, and with knives in hand rushed
into the room, but out the lights, and
then commenced firing at Wilson and
Dickens. Dickens received one ball in
his body, and with Humphrey managed
to crawl out of the room. Colonel
Dickens made his way to a neighbor's
house and gave himself up. On returning
with a party of neighbors a "colored" ser-
vant of Colonel Dickens who had been
found dead near the front door. Wil-
son's body was found in the room with
eight balls through it, and badly cut to
pieces. Humphrey was badly wounded.
The assassins plundered the house, tak-
ing everything of value, rifled the pocket
books of Wilson and the negro woman, and
took two valuable horses from the stable
and escaped."

Such life in Tennessee, where the
government is in the hands of Radicals
elected by the votes of ignorant
and vicious negroes. People of Penney-
vania, do you want such a government
here? If not, vote the Democratic
ticket away; for in the success of the
Democrats lies your only hope of safety
from the rule of the negro, and his more
dreadful brother, the ultra-Radical white
man."

Phenomenal Appearances.—The N. Y.
Times, Radical, in giving the report of
the trials of Officia Law, states some
facts that are nothing but creditable to
the leaders of its party. It says, in substance,
that every branch of the public service
is infested and disgraced by men in
office.

2. Nearly all the men now in office
were put there by the influence of Sena-
tors.

3. The Senators will oppose the
removal of their friends who disgrace their
position, and will do it.

4. The bill imposes such restrictions
as are embarrassing to the President,
in case he attempts to make a reform;
that it should be repealed.

The law was passed to keep knaves in
office, and is not worked great mischief
and corruption already. The Senators
cling to it now, for the reason that their
power is greatest power, do not yield it
readily, and because it puts money in
their purses. Whether the rogues and
corruptors are in a majority in the
Senate, will be proved by the vote upon
the repeal of this law.

"The Colored Troops Fought No-
BLE."—Advices from Port Au Prince
state, that after the surrender of the
town of Aquin, Savanne, a troops per-
petrated sad and infinite slaughter. Hay-
wains of war were bombarding the
rivers of the town on the coast. Since the
raising of the blockade by the French
Admiral, many vessels have arrived at
St. Marie, and the export of coffee
was recovering. It was reported that
Cape Hayon had surrendered to Geor-
geal Regis.

VELOCIPEDES.—The attention of inventors seems to be directed to the construction of velocipedes, and new machines of every description are reported. Thus, a New York manufacturer has devised an monocycle, or single machine, which consists of a wheel eight feet in diameter, with a tire six inches wide, or two narrow tires on its outer edges, with two rows of spokes, connecting with a double centre, which fits the place of a hub, the two sides of which are two feet and a half apart. The operator is in the middle, and propels the wheel by a simple yet curious apparatus, in which both his weight and muscle are brought into play.

In Detroit, a three-wheeled velocipede has made its appearance, which is described as follows: "The wheel is forty-two inches in diameter, and are propelled by means of a double band-crane, no tread being used." On each side of the hub of the forward wheel, is a grooved pulley, and attached to the straight portion of the crank are two more pulleys, the four being connected by belts. At each revolving of the pulleys, the wheel is propelled a distance of sixteen and a half feet, and when an ordinary rate of speed is attained, it runs quite easily. Its weight is forty-five pounds, and the weight is forty-five pounds, and the inventor claims that it will sustain two hundred pounds.

The previous measure, vetoing the Copper and Mill Bill, was carried, and the bill passed over the veto—yes 116, nays 66.

The New York Election Committee made a report, supporting the original bill and resolutions.

The second half of the eighth annual session commenced on Wednesday, January 25, 1849, at 10 o'clock, at the hotel at any time for circulation.
