THE CRIMES OF A DAY. On the 22d inst., a negro slabbed another gorilla at Mobile; three rowdies killed a man at Wost Troy, New York, by beating; a man was shot dead in New Orleans in a quarrel; three railroad train robbers were shot by a sheriff and his posse near luke, Tenn.; a man was dangerously shot in a row in a colored Baptist Church at Lexington, Kentucky; the leader of a notorious gang of negro burglars was captured at Richmond, Va.; a drunkard committed suicide at Bennington, Vermont, because he could not join the Good Templara; a man was on trial for murder in New York city; a man and , his daughter arrived at Memphis, Mo., charged with murdering their illegitimate child two years ago; eleven prisoners broke jail at Wilmington, North Carolina, with the assistance of outside parties; a young man was shot dead by a policeman in Southwick, Massachusetts; an important witness against a thinf was abducted in New York; a man was arrested in New York for setting fire to his own buildings to obtain the insurance; and there were deveral stabbing affrays, forgories, and any number of antaller crimes.

The above are a part of the crimes reported in one day only ! Any other day of the past month or two witnessed an the results of the bloody and wicked teachings of Radical fanaticism, which are fast converting our people into a nation of semi-savages, so far as strife and bloodshed are concerned. If it is right to kill and oppress our countrymen in the South, it is right to kill our enemies everywhere; and the "" no-forgiveness" and "a little blood letting" doctrines of in arms. the Radicals are dotting our land with the graves of murdered men, women and children. Foul-mouthed, black-hearted Radical knaves, you have much to answor for in the dread Hereafter!

PETTERS FOR GRANT.

It is evident to every sensible person that Gon. Grant is not trusted by the Radical majority in Congress—honce their refiled to repeal the Tenure of the House of Congress on the Tax bill. We quote from the Congressional Globe: Mr. Schenck (Radical)—I would not papers, fearful of exciting the indignation of the Proceeding the restriction of the Procedure of the Procedur Radical majority in Congress-honce tion of the Prosident elect by attempting to hamper him as they have done Andrew Johnson, are protesting against the over cautious conduct of their leaders in Congress. The Phila. Morning Post-steal; they steal; we all steal! Such says: "Let us not put General Grant in the fetters we made for Andrew Johnthe fetters we made for Andrew Johnson "-and goes on to explain why and wherefore Grant should not be restrain-

There is one fact which these Radical fetter-makers do not seem to realizo, and fetter-makers do not seem to realize, and Hon. S. S. Marshall of Illinois, in a that is, that Gen. Grant is not likely to speech in Congress, January 9, 1868, submit himself entirely to their will, and | said : perhaps he will refuse to wear the "fetters " aforesaid, in which case there will be a decided commotion among his bly he one of the prottiest Kilkenny cat all over the country." fighta over witnessed at Washington, fights ever witnessed at Washington, sive. OUR PAVORITE ALLY.

For some years past our Radical rulers have flattered and cringed to the most nasty adopted the Russian spy system, and in every possible way imitated the Czar in his tyrannical method of enforcing "loyalty." As a sample of the mildness of this pet of our Radical leaders we call attention to the following article, copied from the news columns of a Re-542 Penn street, Schmucker publican paper. It shows what Radical House building, opposite the leaders consider the proper form of government-just such a form as they would adopt if they dared: Bronislaus Szware, one of the most

able and popular of the leaders of the Polish national movement of 1861-2, disappeared mysteriously a few months after the insurrection broke out. He has just found means to communicate with his friends, who, after making every elfort to find out what had become of him, had given him up for lost. He was sentenced early in 1863 to Siberia, but it now appears that for the last five years he has seen chained to a wall in one of those fatal casemates, lying below the level of the river Neva at Cronstadt, where so many political prisoners have died a miserable death. Those who have seen him there, and who knew him at Warsaw, when he was a handsome, spirited young man, say that it is now quite impossible to recognize him. He is a cripple, pre-maturely old, utterly broken down by disease and suffering, and without a spark of his old energy left.

Who are the Thioves? The flood of corruption and thisving ias become so alarmingly powerful that the Radicals are forced to make a show of denouncing it, even while they have their arms to the clhaws in the public chest. And with a view to turn from their party a part of the odium of their scandalous work, some of them have the audacity to allege that the official thieves are Democrats whom Johnson has put and kept in office ! This naturally leads to the question—who are the thieves?

When did this flood of corruption begin? It began with the rule of the Republican party! It began in the first roll, Titian's Venus, The Concert for the year of Lincoln's administration. In Poor, How they make Popes, The Bracelet. proof of this we have Radical testimony &c. Published by T. S. Arthur & Sons, of the highest authority. Mr. Dawes of Philadelphia. Price 20 cents a number. Massachusetts; who is to be the next Speaker of the House, declared in his place on the floor of the House, that more of the money of the people had been equal or a grater number. Such are stolen during the first year of Mr. Linthe entire expenses of conducting the Government during the four years of Mr. Buchanan's administration.

And John P. Hale, then Senator from this State, declared about the same time, on his responsibility as a Senator, that the country was in more danger from the thieves and plunderers who surrounded the Government than from all the rebels

Donn Piatt, a bright and shining light of Radicalism, said in 1867 (June 1); "From the hour of Mr. Lincoln's first inaugural up to that of his death, the thieves were all in office. Honest men stood aghast at the impunity with which stealing went on. All cries of shame and outrage seemed unavailing. All opposition was driven away. Thieves were turned out to be succeeded by thieves, and colossal fortunes were made in an

hour.'

"Mr. Pile (Radical)—I think, instead of one-fifth being in the hands of thieves, that precisely the reverse is the truth—that one fifth, perhaps, are honest men, and four fifths are thioves."

Secretary McCulloch stated on oath, before the Judiciary Committee, that nincteen out of twenty of the officials in his Department were not only not Dewould-be captors. We hope to see the mocrats, but were Radicels, supporters time when Congress will attempt to brow-less the policy of Congress; and Mr. Rollins, the Commissioner of Internal Reversity Commissioner of Internal beat, hamper and restrict Gen. Grant as nue, admitted to be a strong Radical, was they have President Johnson; for when present when the testimony was given, they make the attempt there will proba- and assented to the statement. So it is

This testimony is ample and concluman when her husband was fighting with order to prevent the removal of these corrupt officials, the Radicals passed the Tenure of Office law, which forbids the President to remove any of them without the approval of the Senate. And the experionco of the last two years has shown that the approval is very seldom given. It is said that President Johnson has considered that if the Sound pay no attention to the business he sends to it, he will have no attention to the business sent to couraged to continue their career of him by the Senate, and approve no more plunder. And even in the cases where the thieves have been convicted and sent to deal of comment. If the President should the penitentlary for plundering the Treasury, they have thus kept in office! This persistent course of the Radicals in keeping in office corrupt and thieving officers, has done more to encourage thieving than anything else. It has been taken as a liceuse to steal. They have been thus told that they could steal with imperfect impubity, as they are now doing. And the refusal to repeal that law indicates that the Radical leaders do not desire or intend to not a step to the "flood of corrections". ing off the track and robbing the pay train of the Memphis and Charleston affect to deplore. When they repeal that Railroad, at a point between Burnsville law and allow corrupt officers to be reand Iuka. The cheriff of the county moved, they may claim credit for sincerity in their talk about reform; but until then, the more they talk in that strain, the more apparent will their hypogrisy

The Lincoln dy-tives Dickey and Morrell, of Pennsylvania, and Root, of Arkansas, who were at a short distance from him, he said he had no objection to their hearing what he had to say on the question of the Cabinet. He then remarked: "I am opposed to appointing officers of the army and navy to civil offices, and will therefore have a civilian at the head of each department." This statement comes from members of Congress who were present, and they express their satisfaction with the utterances of the General, and bolieve from the conversation, that he will have a "straight-out" Republican Cabinet.

Dr. Jackson—Dear Sir: I have been free quently requested to connect my name with recommendations of different kinds of medicines, but regarding the practice as out of my appropriate sphere, I have it all cases declined; but with a clear proof, in various instances and particularly in my own family, of the usefulness of Dr. Hoofland's German litter, I depart for once from my usual course, to express my full conviction that, for general decitity of the system, and enectally for like Complaint, at it a assessment advants of preparation.
