

THE Eagle Book Store, ADLER office, DAILY EAGLE and READING GAZETTE & DEMOCRAT have been removed to 542 Penn street, Schmucker House building, opposite the Keystone House.

Hon. J. D. DAVIS, of the Senate, and Representatives Henry Hobart and Richmond L. Jones, have our thanks for favors received.

THE NEW CABINET.

Gen. Grant has refused to appoint Ex-Governor Curtin to a position in his Cabinet, to the great indignation of Alex. K. McClure, who made the request. In the course of the conversation Gen. Grant said: "I am not myself the representative of any political party, although a political party elected me. There is much indignation and excitement amongst Pennsylvania politicians at Washington on account of Grant's cool way of doing business. It was their impression that George H. Stuart, of Philadelphia, would be the man.

A special dispatch to the Philadelphia Bulletin of last evening gives the following information:

WASHINGTON, Feb. 26.—General Grant, in conversation last evening, said positively that George H. Stuart would not go into his Cabinet. He said, while Mr. Stuart was a man of ability and culture, who would doubtless merit himself creditably in any position, the state of his health, if there were no other reason, would preclude his taking a Cabinet appointment.

The General talked very freely with his friends about his interview with Col. McClure, which seemed to have afforded him considerable amusement. The drift of General Grant's talk has left the impression here that representatives of State cliques who wish to bring their names to Washington had better take warning. In the course of his remarks General Grant said he did not see what occasion there was for people to get into such a fret about his Cabinet, when they would know all about it in a very few days.

HOUSE OF REFUGE.

We have received from the Managers of the House of Refuge the annual report of that institution for the past year. From this we learn that it is in a prosperous condition, and was never more actively useful than at the present time. The only drawback to its future usefulness is discerned in the fact that the buildings, designed for about 300 white boys, are becoming too full, having about 418 inmates. There is no prospect of a diminution of these figures, rather of their increase. For this there is but one remedy—the buildings must be enlarged, and the managers present an unanswerable plea for that enlargement.

The House of Refuge is one of the best disciplinary schools in this country certainly, perhaps in the world, for disobedient and refractory boys and girls, and has brought thousands of them back to the good ways from which they were beginning to stray, or had strayed, under the management of feeble or worthless parents, or under the pernicious influence of the street.

Of the young people committed by courts or magistrates to the custody of the managers, 625 are white, 118 black—510 boys, 124 girls. The colors and sexes are separated, and in these respects the separation is complete.

All are at work about seven hours a day, and in school four hours. The work done pays one-third of the expenses of the institution.

THE COUNTY PRISON.

In looking over the County Account, just published, we notice that Joseph Henry, Esq., received during the year 1892, the sum of \$4,022.11 for work on the county prison. This amount, added to that of the previous year for prison extension, nets about \$122,000. There is some doubt in the minds of taxpayers as to whether this amount of money has been properly expended, and these doubts are strengthened when we remember that the contract could have been fulfilled, entire, for \$50,000. The question naturally arises—what was done with the extra \$72,000? It may be that the Eagle will be able to enlighten us upon this important matter. If so, let us hear!

PROCEEDINGS OF CONGRESS.

WASHINGTON, Feb. 26. In the Senate, a conference report on the Naval Appropriation bill was concurred in. The bill "to strengthen the public credit" was reported with amendments, by Mr. Sherman, from the Finance Committee. The conference report on the Suffrage amendment was considered, and finally adopted by a vote of 39 to 11. Fowler, of Tennessee, voted with the negatives. The bill relating to the Panama Canal reports, to prevent certifying of checks by the banks in certain cases, and to protect passengers in vessels, were passed. In the House, the Civil Appropriation bill was reported. The Deficiency Appropriation bill was passed. Conference reports on the Naval Appropriation bill and the bill for Compensation of Deputy Collectors and Assessors were adopted. The Legislative Appropriation bill was considered.

A report was received at Corpus Christi, Texas, on the 24 inst., to the effect that two hundred Indians had attacked the ranches of Los Angeles and Los Amigos, on the road to Brownsville, and slaughtered the entire population, numbering forty men, women and children. Troops were at once sent in pursuit. It was ascertained that the Indians were disguised Mexican cattle thieves, and that the extent of their outrages was exaggerated.

THE MEXICAN BONDHOLDERS are refused payment by the present government of Mexico, though the French government promises to pay a trifling part of the alleged value of the bonds, at some indefinite time. If the Radicals continue their present extravagant course of expenditure, the holders of United States bonds will be in a similar predicament before many years.

THE INTEREST BIRD says: "It is generally believed that Lopez has retired in a small steamer to Bolivia; others are of opinion that the dictator of Paraguay has embarked on board an American man-of-war."

JUDGE HOLT says he does not want a Cabinet position, on account of ill health. Perhaps he had better wait until it is offered. "Not for Joe!"

THE FRANKING PRIVILEGE.—The bill just passed by both houses of Congress forbidding the use of lithographed signatures for franking Congressional documents, reads as follows:

"It shall not be lawful for any officer of the Government, member of Congress, or other person entitled by law to the franking privilege to exercise said privilege otherwise than by his or her written autograph signature upon matter franked, and all letters or other mail matter thus franked by the written signature of a person entitled by law to exercise said privilege shall be charged with the rates of postage which are now or may hereafter be established by law."

AN IMPORTANT ACT.—The following Act has just been passed by the Pennsylvania Senate:

An Act to prevent and punish the publication of obscene advertisements and the sale of such articles. Sec. 1. Be it enacted by the Senate and House of Representatives of the Commonwealth of Pennsylvania in General Assembly met, and it is hereby enacted by the authority of the same, That from and after the passage of this act, it shall not be lawful to print or publish advertisements of medicines, drugs, nostrums or apparatus for the cure of secret or venereal diseases, or for the cure of those diseases pertaining to females, and if any person shall print or publish, or procure to be printed or published, in any newspaper in this State any advertisement of medicines, drugs or nostrums or apparatus for the cure of secret or venereal diseases, or for the cure of those diseases peculiarly pertaining to females, or shall by printing or writing, or in any way, publish an account or description of such medicines, drugs, nostrums or apparatus, or shall procure the same to be printed or published, or in any other way published, or shall circulate or institute any such newspaper advertisement, writing or publication, every such person so offending shall be guilty of a misdemeanor, and shall, upon conviction thereof, be fined in any sum not exceeding one thousand dollars, or be imprisoned in the county jail not exceeding six months, or both, at the discretion of the court.

Sec. 2. That if any person shall print or publish, or procure to be printed or published, in any newspaper in this State, any advertisement of any secret drug or nostrum purporting to be exclusively for the use of females, or if any druggist or other person shall sell or keep for sale or give away any such secret drug or nostrum purporting to be exclusively for the use of females, or in any other way, publish or circulate any such advertisement, or shall within this State keep for sale or gratuitous distribution any newspaper, circular, pamphlet or book containing such notice of such drugs, instruments or apparatus; or shall keep for sale or gratuitous distribution any secret drug, nostrum or medicine for the purpose of preventing conception, procuring abortion or miscarriage, such person or persons so violating any of the provisions of this act shall be deemed guilty of a misdemeanor, and shall, upon conviction thereof, be fined in any sum not exceeding one thousand dollars, or be imprisoned in the county jail not exceeding six months, or both at the discretion of the court. Provided, That nothing in this act contained shall be construed to affect teaching in regular chartered medical colleges, or the publication of standard medical books.

THE CHASSEPOINT RIFLE.—A HARRINGTON or VERNAL rifle.—The destroying effect of the Chassepoint rifle is so terrible that it is terrific to those who are using it. In his report on the fight in which the French had recently with the Arabs who were, as is known, repulsed with great loss, Colonel Sonis, the commander of the expedition, says the effect of the Chassepoint was really frightful. The cavalry of the Arabs was literally mowed down by the Chassepoint bullets, which reached them at a distance of about 1,000 yards. The Arab who killed the French soldier says that the use of such weapons will sooner or later render all war impossible.
